TECHNOSUMMIT 2020

Technosummit 2020, an annual two day National Level Mega Technical Event was conducted by Sathyabama Institute of Science and Technology on 07-08-2020 and 08-08-2020 in virtual mode. Despite the pandemic situation, we did not fail to keep our annual tradition of hosting the most prestigious Inter-collegiate technical fest with the blessings of our **Founder Chancellor Col.Dr.Jeppiaar**, and with the excellent support of our **Hon.Chancellor Dr.Mariazeena Johnson, Hon.President Dr.Marie Johnson**.

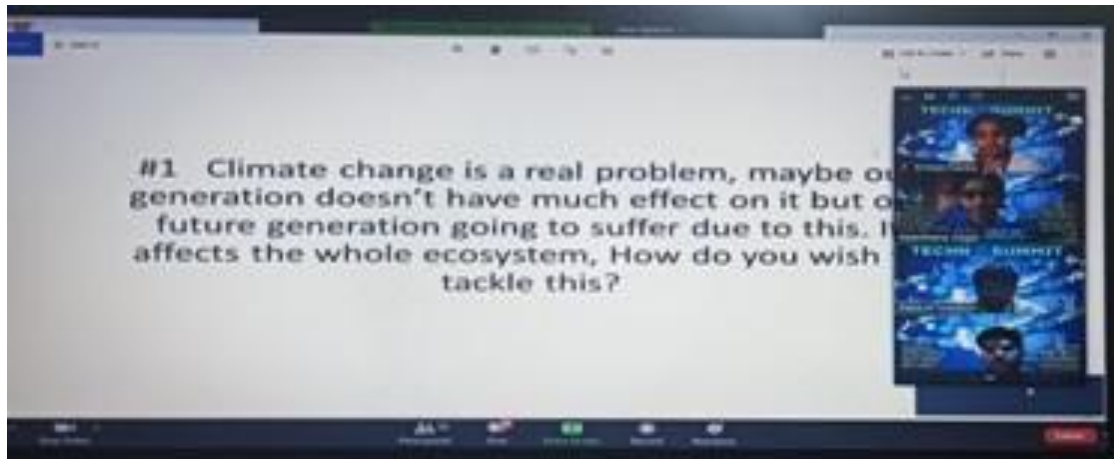

We are deeply humbled in making this grand event a success but also left in making a mark in the History of Sathyabama's trade-marking event list that has been built over the years with the toil, sheer patience, and coordination of the esteemed management, faculty and students.

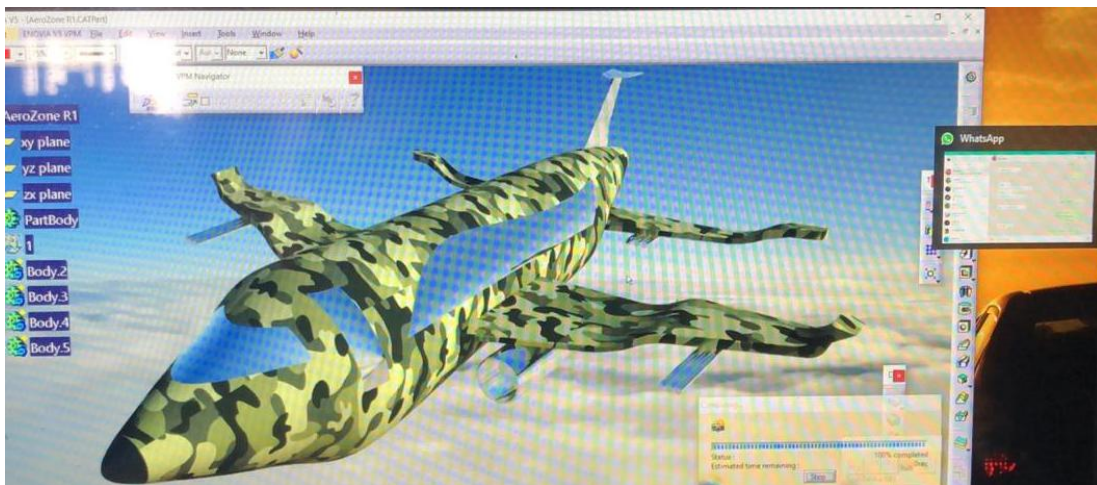

This year Technosummit conducted on virtual platform has participants from different **103** colleges/Universities across the nation, enthusiastically took part in the **21** events. The 21 events included every genre; from Engineering, Art & Science to Language to Math and to Coding.

Narich helps in assessing the quality parameters of the raw jute by measuring and assessing:

- Texture quality of the raw jute using **Small Flat Microphone with FFT Analysis & Deep Learning**.
- Health, height, width & colour of the crop, determined using **Computer Vision & Artificial Intelligence**.
- Location where the crop is cultivated using **GPS and Remote Sensing**.
- Temperature & Humidity for cultivation of jute using **DHT22 sensor**.
- Annual & Seasonal rainfall based analysis for assessment of raw jute using historical data.

The above mentioned parameters can be assessed in real-time using **Arduino** based device integrated with sensors connected to **Raspberry Pi** based **Central Node** which is going to be linked with **Remote Sensing Application Database (ISRO/NASA)** using **GSM & LoRa Technology**.
