**SCHOOL OF MANAGEMENT**

**UNIT I - FINANCIAL ACCOUNTING- I - SBAA1102**

Over the centuries, accounting has remained confined to the financial record-keeping functions of the accountant. But, today's rapidly changing business environment has forced the accountants to reassess their roles and functions both within the organisation and the society. The role of an accountant has now shifted from that of a mere recorder of transactions to that of the member providing relevant information to the decision-making team. Broadly speaking, accounting today is much more than just bookkeeping and the preparation of financial reports. Accountants are now capable of working in exciting new growth areas such as: forensic accounting (solving crimes such as computer hacking and the theft of large amounts of money on the internet); ecommerce (designing web-based payment system); financial planning, environmental accounting, etc. This realisation came due to the fact that accounting is capable of providing the kind of information that managers and other interested persons need in order to make better decisions. This aspect of accounting gradually assumed so much importance that it has now been raised to the level of an information system. As an information system, it collects data and communicates economic information about the organisation to a wide variety of users whose decisions and actions are related to its performance. This introductory chapter therefore, deals with the nature, need and scope of accounting in this context.

### **Need and Importance of Accounting**

When a person starts a business, whether large or small, his main aim is to earn profit. He receives money from certain sources like sale of goods, interest on bank deposits etc. He has to spend money on certain items like purchase of goods, salary, rent, etc. These activities take place during the normal course of his business. He would naturally be anxious at the year end, to know the progress of his business. Business transactions are numerous, that it is not possible to recall his memory as to how the money had been earned and spent. At the same time, if he had noted down his incomes and expenditures, he can readily get the required information. Hence, the details of the business transactions have to be recorded in a clear and systematic manner to get answers easily and accurately for the following questions at any time he likes.

- i. What has happened to his investment?
- ii. What is the result of the business transactions?
- iii. What are the earnings and expenses?
- iv. How much amount is receivable from customers to whom goods have been sold on credit?
- v. How much amount is payable to suppliers on account of credit purchases?

- vi. What are the nature and value of assets possessed by the business concern?
- vii. What are the nature and value of liabilities of the business concern?

### Meaning

- Accounting is a means of communicating the results of business operations to various parties interested in or connected with the business viz., the owners, creditors, investors, banks and financial institutions, Government and other agencies. Hence, it is rightly called as the language of business.

### Definition

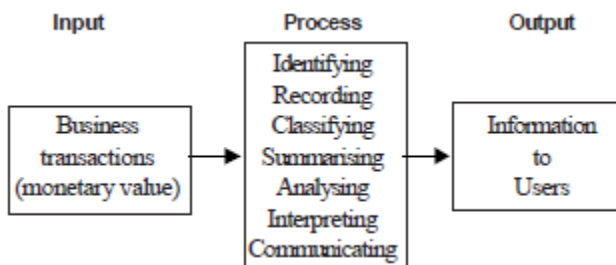

- The American Institute of Certified Public Accountants has defined accounting as “the art of **recording, classifying and summarizing** in a significant manner and in terms of money transactions and events which are, in part at least, of financial character, and interpreting the results thereof.”

### Objectives of accounting

- The main objectives of accounting are
  - i. to maintain accounting records.
  - ii. to calculate the result of operations.
  - iii. to ascertain the financial position.
  - iv. to communicate the information to users.

### Process

The process of accounting as per the above definition is given below:

In order to accomplish its main objective of communicating information to the users, accounting embraces the following functions.

*i. Identifying:* Identifying the business transactions from the source documents.

**ii. Recording:** The next function of accounting is to keep a systematic record of all business transactions, which are identified in an orderly manner, soon after their occurrence in the journal or subsidiary books.

**iii. Classifying:** This is concerned with the classification of the recorded business transactions so as to group the transactions of similar type at one place. i.e., in ledger accounts. In order to verify the arithmetical accuracy of the accounts, trial balance is prepared.

**iv. Summarising :** The classified information available from the trial balance are used to prepare profit and loss account and balance sheet in a manner useful to the users of accounting information.

**v. Analysing:** It establishes the relationship between the items of the profit and loss account and the balance sheet. The purpose of analysing is to identify the financial strength and weakness of the business. It provides the basis for interpretation.

**vi. Interpreting:** It is concerned with explaining the meaning and significance of the relationship so established by the analysis. Interpretation should be useful to the users, so as to enable them to take correct decisions.

**vii. Communicating:** The results obtained from the summarised, analysed and interpreted information are communicated to the interested parties.

### **Users of Accounting Information**

The basic objective of accounting is to provide information which is useful for persons and groups inside and outside the organization.

**I. Internal users:** Internal users are those individuals or groups who are within the organisation like owners, management, employees and trade unions.

- **Owners:** To know the profitability and financial soundness of the business.
- **Management:** To take prompt decisions to manage the business efficiently.
- **Employees and Trade unions:** To form judgement about the earning capacity of the business since their remuneration and bonus depend on it.

**II. External users:** External users are those individuals or groups who are outside the organisation like creditors, investors, banks and other lending institutions, present and potential investors, Government, tax authorities, regulatory agencies and researchers.

- **Creditors, banks and other:** To determine whether the principal and lending institutions the interest thereof will be paid in when due.

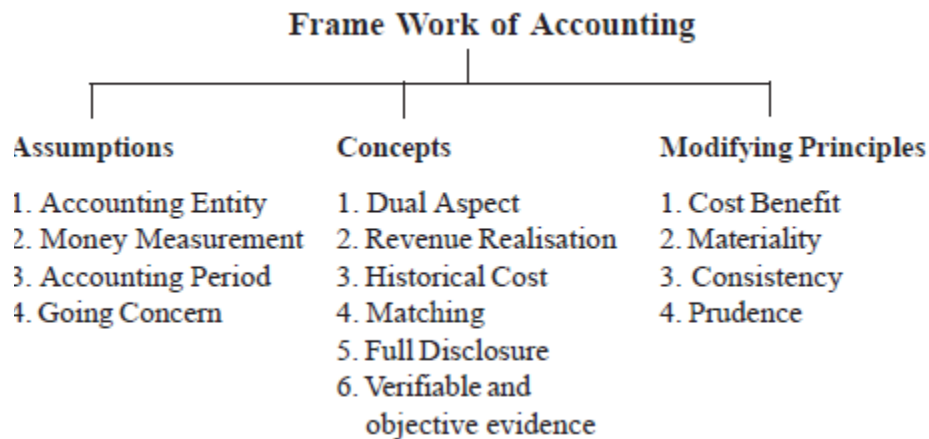

- **Present investors:** To know the position, progress and prosperity of the business in order to ensure the safety of their investment.
- **Potential investors:** To decide whether to invest in the business or not.
- **Government and Tax :**To know the earnings in order to assess authorities the tax liabilities of the business.
- **Regulatory agencies:** To evaluate the business operation under the regulatory legislation.
- **Researchers:** To use in their research work.

### **Branches of Accounting**

The economic development and technological advancements have resulted in an increase in the scale of operations and the advent of the company form of business organisation. This has made the management function more and more complex and increased the importance of accounting information. This gave rise to special branches of accounting. These are briefly explained below:

1. **Financial accounting :** The purpose of this branch of accounting is to keep a record of all financial transactions so that:
  - (a) the profit earned or loss sustained by the business during an accounting period can be worked out,
  - (b) the financial position of the business as at the end of the accounting period can be ascertained, and
  - (c) the financial information required by the management and other interested parties can be provided.
2. **Cost Accounting :** The purpose of cost accounting is to analyse the expenditure so as to ascertain the cost of various products manufactured by the firm and fix the prices. It also helps in controlling the costs and providing necessary costing information to management for decision-making.
3. **Management Accounting :** The purpose of management accounting is to assist the management in taking rational policy decisions and to evaluate the impact of its decisions and actions.

## CONCEPTUAL FRAME WORK OF ACCOUNTING

### **I. Basic Assumptions**

The basic assumptions of accounting are like the foundation pillars on which the structure of accounting is based. The four basic assumptions are as follows:

#### **i. Accounting Entity Assumption**

According to this assumption, business is treated as a unit or entity apart from its owners, creditors and others. In other words, the proprietor of a business concern is always considered to be separate and distinct from the business which he controls. All the business transactions are recorded in the books of accounts from the view point of the business. Even the proprietor is treated as a creditor to the extent of his capital.

#### **ii. Money Measurement Assumption**

In accounting, only those business transactions and events which are of financial nature are recorded. For example, when Sales Manager is not on good terms with Production Manager, the business is bound to suffer. This fact will not be recorded, because it cannot be measured in terms of money.

#### **iii. Accounting Period Assumption**

The users of financial statements need periodical reports to know the operational result and the financial position of the business concern. Hence it becomes necessary to close the accounts at regular intervals. Usually a period of 365 days or 52 weeks or 1 year is considered as the accounting period.

#### **iv. Going Concern Assumption**

As per this assumption, the business will exist for a long period and transactions are recorded from this point of view. There is neither the intention nor the necessity to wind up the business in the foreseeable future.

## **II. Basic Concepts of Accounting**

These concepts guide how business transactions are reported. On the basis of the above four assumptions the following concepts (principles) of accounting have been developed.

### **i. Dual Aspect Concept**

Dual aspect principle is the basis for Double Entry System of book-keeping. All business transactions recorded in accounts have two aspects - receiving benefit and giving benefit. For example, when a business acquires an asset (receiving of benefit) it must pay cash (giving of benefit).

### **ii. Revenue Realisation Concept**

According to this concept, revenue is considered as the income earned on the date when it is realised. Unearned or unrealised revenue should not be taken into account. The realisation concept is vital for determining income pertaining to an accounting period. It avoids the possibility of inflating incomes and profits.

### **iii. Historical Cost Concept**

Under this concept, assets are recorded at the price paid to acquire them and this cost is the basis for all subsequent accounting for the asset. For example, if a piece of land is purchased for Rs.5,00,000 and its market value is Rs.8,00,000 at the time of preparing final accounts the land value is recorded only for Rs.5,00,000. Thus, the balance sheet does not indicate the price at which the asset could be sold for.

### **iv. Matching Concept**

Matching the revenues earned during an accounting period with the cost associated with the period to ascertain the result of the business concern is called the matching concept. It is the basis for finding accurate profit for a period which can be safely distributed to the owners.

### **v. Full Disclosure Concept**

Accounting statements should disclose fully and completely all the significant information. Based on this, decisions can be taken by various interested parties. It involves proper classification and explanations of accounting information which are published in the financial statements.

#### **vi. Verifiable and Objective Evidence Concept**

This principle requires that each recorded business transactions in the books of accounts should have an adequate evidence to support it. For example, cash receipt for payments made. The documentary evidence of transactions should be free from any bias. As accounting records are based on documentary evidence which are capable of verification, it is universally acceptable.

### **III. Modifying Principles**

To make the accounting information useful to various interested parties, the basic assumptions and concepts discussed earlier have been modified. These modifying principles are as under.

#### **i. Cost Benefit Principle**

This modifying principle states that the cost of applying a principle should not be more than the benefit derived from it. If the cost is more than the benefit then that principle should be modified.

#### **ii. Materiality Principle**

The materiality principle requires all relatively relevant information should be disclosed in the financial statements. Unimportant and immaterial information are either left out or merged with other items.

#### **iii. Consistency Principle**

The aim of consistency principle is to preserve the comparability of financial statements. The rules, practices, concepts and principles used in accounting should be continuously observed and applied year after year. Comparisons of financial results of the business among different accounting period can be significant and meaningful only when consistent practices were followed in ascertaining them. For example, depreciation of assets can be provided under different methods, whichever method is followed, it should be followed regularly.

#### **iv. Prudence (Conservatism) Principle**

Prudence principle takes into consideration all prospective losses but leaves all prospective profits. The essence of this principle is “anticipate no profit and provide for all possible losses”. For example, while valuing stock in trade, market price or cost price whichever is less is considered.

### **Double Entry System**

There are numerous transactions in a business concern. Each transaction, when closely analysed, reveals two aspects. One aspect will be “receiving aspect” or “incoming aspect” or “expenses/loss aspect”. This is termed as the “**Debit aspect**”. The other aspect will be “giving aspect” or “outgoing aspect” or “income/gain aspect”. This is termed as the “**Credit aspect**”. These two

aspects namely “Debit aspect” and “Credit aspect” form the basis of Double Entry System. The double entry system is so named since it records both the aspects of a transaction. In short, the basic principle of this system is, for every debit, there must be a corresponding credit of equal amount and for every credit, there must be a corresponding debit of equal amount.

### **Definition of Double Entry System**

According to **J.R.Batliboi** “Every business transaction has a two-fold effect and that it affects two accounts in opposite directions and if a complete record were to be made of each such transaction, it would be necessary to debit one account and credit another account. It is this recording of the two fold effect of every transaction that has given rise to the term Double Entry System”.

### **Features of Double Entry System**

- i. Every business transaction affects two accounts.
- ii. Each transaction has two aspects, i.e., debit and credit.
- iii. It is based upon accounting assumptions concepts and principles.
- iv. Helps in preparing trial balance which is a test of arithmetical accuracy in accounting.
- v. Preparation of final accounts with the help of trial balance.

### **Approaches of Recording**

There are two approaches for recording a transaction.

I. Accounting Equation Approach

II. Traditional Approach

#### **I. Accounting Equation Approach**

This approach is also called as the **American Approach**. Under this method transactions are recorded based on the accounting equation,

i.e.,

$$\text{Assets} = \text{Liabilities} + \text{Capital}$$

This will be discussed in detail in the next chapter.

#### **II. Traditional Approach**

This approach is also called as the **British Approach**. Recording of business transactions under this method are formed on the basis of the existence of two aspects (debit and credit) in each of the transactions. All the business transactions are recorded in the books of accounts under the ‘Double Entry System’.

## Accounting Rules

- **Personal Accounts** (Natural person or Company)
  - Debit the receiver
  - Credit the giver
- **Real Accounts** (cash , property or asset )
  - Debit what comes in
  - Credit what goes out
- **Nominal Accounts** (Business expenses or losses and income or gains )
  - Debit all expenses and losses
  - Credit all income and gains

## Journal

A journal may be defined as the book or original or prime entry containing a chronological record of the transactions from which posting is done to the ledger. The transactions are recorded first in the journal in the order in which they occur.

**Form of Journal**

Date	Particulars	Ledger Folio( LF )	Debit Amount	Credit Amount

### Explanation:

**1. Date :** In the first column, the date of the transaction is entered. The year and the month is written only once, till they change. The sequence of the dates and months should be strictly maintained.

**2. Particulars :** Each transaction affects two accounts, out of which one account is debited and the other account is credited. The name of the account to be debited is written first, very near to the line of particulars column and the word **Dr.** is also written at the end of the particulars column. In the second line, the name of the account to be credited is written, starts with the word '**To**', a few space away from the margin in the particulars column to make it distinct from the

debit account.

**3. Narration :** After each entry, a brief explanation of the transaction together with necessary details is given in the particulars column with in brackets called **narration**. The words 'For' or 'Being' are used before starting to write down narration. Now, it is not necessary to use the word 'For' or 'Being'.

**4. Ledger Folio (L.F):** All entries from the journal are later posted into the ledger accounts. The page number or folio number of the Ledger, where the posting has been made from the Journal is recorded in the L.F column of the Journal. Till such time, this column remains blank.

**5. Debit Amount :** In this column, the amount of the account being debited is written.

**6. Credit Amount :** In this column, the amount of the account being credited is written.

### **Steps in Journalising**

The process of analysing the business transactions under the heads of debit and credit and recording them in the Journal is called **Journalising**. An entry made in the journal is called a '**Journal Entry**'.

**Step 1** Determine the two accounts which are involved in the transaction.

**Step 2** Classify the above two accounts under Personal, Real or Nominal.

**Step 3** Find out the rules of debit and credit for the above two accounts.

**Step 4** Identify which account is to be debited and which account is to be credited.

**Step 5** Record the date of transaction in the date column. The year and month is written once, till they change. The sequence of the dates and months should be strictly maintained.

**Step 6** à Enter the name of the account to be debited in the particulars column very close to the left hand side of the particulars column followed by the abbreviation Dr. in the same line. Against this, the amount to be debited is written in the debit amount column in the same line.

**Step 7** Write the name of the account to be credited in the second line starts with the word '**To**' a few space away from the margin in the particulars column. Against this, the amount to be credited is written in the credit amount column in the same line.

**Step 8** Write the narration within brackets in the next line in the particulars column.

**Step 9** Draw a line across the entire particulars column to separate one journal entry from the other.

**Example 1:**

January 1, 2004 – Saravanan started business with Rs. 1,00,000

Step 1	Determine the two accounts involved in the transaction.	Cash Account	Capital Account
Step 2	Classify the accounts under personal, real or nominal.	Real Account	Personal Account
Step 3	Find out the rules of debit and credit.	2(a) Debit what comes in.	1(b) Credit the giver
Step 4	Identify which account is to be debited and credited.	Cash A/c is to be debited	Capital A/c is to be credited

**Solution :****Journal**

Date	Particulars	LF	Debit		Credit	
			Rs.	P.	Rs.	P.
2004	Cash A/c Dr	12	1,00,000	–		
Jan 1	To Capital A/c (The amount invested in the business)	45			1,00,000	–

**Example 2**

- On 1<sup>st</sup> June 2016 goods sold for Rs. 2000
- On 2<sup>nd</sup> June 2016 goods purchase from XYZ ltd for Rs.5000

**General Journal**

Date	Particulars	Ledger Folio( LF )	Ref	Debit Amount	Credit Amount
1/6/2016	Cash -----Dr To, Sales (Being cash sales to Mr X)	15		2000	2000
2/6/2016	Purchase -----Dr To, XYZ Ltd (Credit Purchase from XYZ ,Invoice No xxx)	12		5000	5000

### Example 3

Journalise the following transactions in the books of Amar and post them in the Journal:-  
2004

- March 1 Bought goods for cash Rs. 25,000
- 2 Sold goods for cash Rs. 50,000
- 3 Bought goods for credit from Gopi Rs. 19,000
- 5 Sold goods on credit to Robert Rs. 8,000
- 7 Received from Robert Rs. 6,000
- 9 Paid to Gopi Rs. 5,000
- 20 Bought furniture for cash Rs. 7,000

#### **Solution :** **Journal of Amar**

Date	Particulars	Dr.	LF	Debit Rs.	P.	Credit Rs.	P.
2004 Mar 1	Purchases A/c To Cash A/c (Cash purchases)	Dr.		25,000	—	25,000	—
2	Cash A/c To Sales A/c (Cash Sales)	Dr.		50,000	—	50,000	—
3	Purchases A/c To Gopi A/c (Credit purchases)	Dr.		19,000	—	19,000	—
5	Robert A/c To Sales A/c (Credit Sales)	Dr.		8,000	—	8,000	—
7	Cash A/c To Robert A/c (Cash received)	Dr.		6,000	—	6,000	—
9	Gopi A/c To Cash A/c (Cash paid)	Dr.		5,000	—	5,000	—
20	Furniture A/c. To Cash A/c (furniture purchased)	Dr.		7,000	—	7,000	—

### Example 4

Mr. Nirmal has the following transactions in the month of April. Write Journal Entries for the transactions.

10<sup>th</sup> April : Commenced business with a capital of 1,00,000

11<sup>th</sup> April : Purchased goods from Veeru for 20,000

13<sup>th</sup> April : Purchased Goods for Cash 15,000

14<sup>th</sup> April : Purchased Goods from Abhiram for cash 9,000

16<sup>th</sup> April : Bought Goods from Shyam on credit 12,000  
 17<sup>th</sup> April : Sold goods worth 15,000 to Tarun  
 19<sup>th</sup> April : Sold goods for cash 20,000  
 20<sup>th</sup> April : Sold goods to Utsav for cash 6,000  
 21<sup>st</sup> April : Sold goods to Pranav on credit 17,000  
 22<sup>nd</sup> April : Returned goods to Veeru 3,000  
 23<sup>rd</sup> April : Goods returned from Tarun 1,000  
 25<sup>th</sup> April : Goods taken by the proprietor for personal use 1,000  
 26<sup>th</sup> April : Bought Land for 50,000  
 27<sup>th</sup> April : Purchased machinery for cash 45,000  
 28<sup>th</sup> April : Bought computer from Intel Computers for 25,000  
 28<sup>th</sup> April : Cash sales 15,000  
 29<sup>th</sup> April : Cash purchases 22,000  
 30<sup>th</sup> April : Bought furniture for proprietor's residence and paid cash 10,000

Journal in the books of Mr. Nirmal for the period from 1<sup>st</sup> to 30<sup>th</sup> April

ate	V/R No.	Particulars	L/F	Amount (Dr)	Amount (Cr)
April 10 <sup>th</sup>	—	Cash a/c Dr To Capital a/c  [Being the amount received from Mr. Nirmal in cash, the proprietor as his capital contribution vide receipt no:___ dated:___]	— —	1,00,000	1,00,000
11 <sup>th</sup>	—	Goods/Stock a/c Dr To Veeru a/c  [Being the value of stock purchased from Mr. Veeru on credit vide bill no:___ dated:___]	— —	20,000	20,000
13 <sup>th</sup>	—	Goods/Stock a/c Dr To Cash a/c	— —	15,000	15,000

ate	V/R No.	Particulars	L/F	Amount (Dr)	Amount (Cr)
		[Being the value of stock purchased for cash from M/s ____ vide bill no:____ dated:____]			
14 <sup>th</sup>	—	Goods/Stock a/c Dr To Cash a/c  [Being the value of stock purchased for cash from Mr. Abhiram vide bill no:____ dated:____]	— —	9,000	9,000
16 <sup>th</sup>	—	Goods/Stock a/c Dr To Shyam a/c  [Being the value of stock purchased from Mr. Shyam on credit vide bill no:____ dated:____]	— —	12,000	12,000
17 <sup>th</sup>	—	Tarun a/c Dr To Goods/Stock a/c  [Being the value of stock sold on credit to Mr. Tarun vide invoice no:____ dated:____]	— —	15,000	15,000

### Example 5

Journalise the following transactions in the books of Rama & Sons

- 3<sup>rd</sup> May : Cash deposited into bank 60,000
- 4<sup>th</sup> May : Loan given to Bhuvan 20,000
- 4<sup>th</sup> May : Paid cash to Veeru 20,000
- 5<sup>th</sup> May : Paid to Veeru by cheque 15,000
- 5<sup>th</sup> May : Cash received from Tarun 12,000
- 5<sup>th</sup> May : Took loan from Anush 15,000
- 6<sup>th</sup> May : Cheque received from Pranav 15,000
- 6<sup>th</sup> May : Paid to Intel Computers by cheque 17,000
- 6<sup>th</sup> May : Withdrew from bank 5,000
- 7<sup>th</sup> May : Withdrew from bank for office use 8,000
- 7<sup>th</sup> May : Cash received from Bhuvan on loan account 10,000
- 8<sup>th</sup> May : Withdrew from bank for personal use 1,000
- 8<sup>th</sup> May : Cash taken by proprietor for personal use 3,000

9<sup>th</sup> May : Bought furniture and paid by cheque 15,000

9<sup>th</sup> May : Paid to Anush by cheque on loan account 5,000

9<sup>th</sup> May : Brought additional capital of 25,000

Journal in the books of M/s Rama & Sons  
for the period from 1<sup>st</sup> May to 10<sup>th</sup> May

Date	V/R No.	Particulars	L/F	Amount (Dr)	Amount (Cr)

### Compound Journal Entry

- When two or more transactions of similar nature take place on the same date, such transactions can be entered in the journal by means of a combined journal entry is called **Compound Journal Entry**.
- The only precaution is that the total debits should be equal to total credits.

On **March 2017**, Farhan Rahim, starts wholesaling business. Following transactions as follows:

1. He started business with capital of Rs. 15,000 and Land worth Rs. 10,000.
8. Bought goods from Bilal and Friends Rs. 1,000 and by cash from XYZ Co. Rs 2,000.
13. Sold goods to Rehman & sons Rs. 1,500 and sale by cash Rs. 5,000.
17. Gave away charity of cash Rs. 50 and merchandising worth Rs. 30.
21. Paid Bilal and Friends cash Rs. 975; discount received Rs. 25.
28. Received cash from Rehman & Sons Rs. 1,450; allowed him discount of Rs. 50.

## LEDGER

Collection of an entire group of similar accounts in double-entry bookkeeping. Also called book of final entry, a ledger records classified and summarized financial information from journals.

A Ledger is a book which contains all the accounts whether personal, real or nominal, which are first entered in journal or special purpose subsidiary books.

According to **L.C. Cropper**, 'the book which contains a classified and permanent record of all the transactions of a business is called the Ledger'.

### Format

Name of the Account							
Dr.				Cr.			
Date	Particulars	JF	Amount AED	Date	Particulars	JF	Amount AED
Year Month Date	Accounts name			Year Month Date	Accounts name		

### Explanation:

- Each ledger account is divided into two parts. The left hand side is known as the debit side and the right hand side is known as the credit side. The words 'Dr.' and 'Cr.' are used to denote Debit and Credit.
- The name of the account is mentioned in the top (middle) of the account.
- The date of the transaction is recorded in the date column.
- The word 'To' is used before the accounts which appear on the debit side of an account in the particulars column. Similarly, the word 'By' is used before the accounts which appear on the credit side of an account in the particulars column.
- The name of the other account which is affected by the transaction is written either in the debit side or credit side in the particulars column.
- The page number of the Journal or Subsidiary Book from where that particular entry is transferred, is entered in the Journal Folio (J.F) column.
- The amount pertaining to this account is entered in the amount column.

### Example 1

Mr. Ram started business with cash Rs. 5,00,000 on 1<sup>st</sup> June 2003.

The transaction will appear in Journal and Ledger as under.

**Solution :**

#### In the Books of Ram Journal

Date	Particulars	LF	Debit Rs.	Credit Rs.
2003 June 1	Cash A/c. Dr To Ram's Capital A/c (Ram started business with Rs.5,00,000)		5,00,000	5,00,000

*Note :* Here two accounts are involved, Cash Account and Ram's capital account, so we should allot in the ledger a page for each account.

#### Ledger Cash Account

### TRIAL BALANCE

- Trial balance is a statement which shows debit balances and credit balances of all accounts in the ledger. The total of the debit balances and credit balances should tally (agree).
- In case, there is a difference, one has to check the correctness of the balances brought forward from the respective accounts.
- Trial balance can be prepared in any date provided accounts are balanced.

## Definition

- “Trial balance is a statement, prepared with the debit and credit balances of ledger accounts to test the arithmetical accuracy of the books” – J.R. Batliboi.

## Objectives

- To check the arithmetical accuracy of the ledger accounts.
- To locate the errors.
- To facilitate the preparation of final accounts.

## Methods

A trial balance can be prepared in the following methods.

- The Total Method :** According to this method, the total amount of the debit side of the ledger accounts and the total amount of the credit side of the ledger accounts are recorded.
- The Balance Method :** In this method, only the balances of an account either debit or credit, as the case may be, are recorded against their respective accounts.

The balance method is more widely used, as it supplies ready figures for preparing the final accounts.

## Format

Trial Balance of ABC Ltd. as on .....				
Sl.No	Name of Account	L.F	Debit Rs.	Credit Rs.

## Format of Trail Balance

- a debit balance is either an asset or loss or expense; and
- a credit balance is either a liability or income or gain.

Format for Trial Balance:

Particulars (Debit side)	Rs.	Particulars (Credit side)	Rs.
All Assets	XXX	All Liabilities	XXX
All Expenses and Losses	XXX	All Income and gain	XXX
Opening Balance	XXX	Closing Balance	XXX
Drawings	XXX	Loan	XXX
Purchase	XXX	Sales	XXX
Sales Return	XXX	Purchase Return	XXX
Total	XXX	Total	XXX

**Example 1**

Prepare a Trial Balance with the following information:

Sr. No	Name of Account	Balance (₹)	Sr. No	Name of Account	Balance (₹)
(i)	Capital	2,00,000	(ii)	Stock	70,000
(iii)	Cash	1,80,000	(iv)	Debtors	3,00,000
(v)	Creditors	1,00,000	(vi)	Bank Loan	1,50,000
(vii)	Sales	3,00,000	(viii)	Purchases	2,00,000

Solution 1

**Trial Balance**

S. No.	Account Title	Debit Balance (Rs)	Credit Balance (Rs)
(i)	Capital		2,00,000
(ii)	Stock	70,000	
(iii)	Cash	1,80,000	
(iv)	Debtors	3,00,000	
(v)	Creditors		1,00,000
(vi)	Bank Loan		1,50,000
(vii)	Sales		3,00,000
(viii)	Purchases	2,00,000	
		7,50,000	7,50,000

## Example 2

Journalise the following transactions , post them into Ledger and prepare a Trial Balance :

		(₹)			(₹)
2018			2018		
Apr. 1	Mohan commenced business with cash	1,00,000	Apr. 20	Received cash from Gopal	3,950
Apr. 3	Bought goods	5,000		Discount Allowed	50
Apr. 4	Sold goods to Gopal	4,000	Apr. 25	Paid Wages	700
Apr. 10	Bought goods from Ram	8,000	Apr. 27	Paid to Ram in full settlement	7,700
Apr. 15	Paid trade expenses	2,000	Apr. 30	Paid rent	1,500

## Solution 2

### Books of Mohan Journal

Date	Particular	L.F.	Debit Amount (Rs)	Credit Amount (Rs)
2018 April 01	Cash A/c To Capital A/c (Commenced business with Cash)	Dr.	1,00,000	1,00,000

## CASH BOOK

A **cash book** is a special journal which is used to record all cash receipts and cash payments. The cash book is a book of original entry or prime entry since transactions are recorded for the first time from the source documents. The cash book is a ledger in the sense that it is designed in the form of a cash account and records cash receipts on the debit side and cash payments on the credit side.

## Advantages

1. **Saves time and labour:** When cash transactions are recorded in the journal a lot of time and labour will be involved. To avoid this all cash transactions are straight away recorded in the cash book which is in the form of a ledger.
2. **To know cash and bank balance:** It helps the proprietor to know the cash and bank balance at any point of time.
3. **Mistakes and frauds can be prevented:** Regular balancing of cash book reveals the balance of cash in hand. In case the cash book is maintained by business concern, it can avoid frauds. Discrepancies if any, can be identified and rectified.
4. **Effective cash management:** Cash book provides all information regarding total receipts and payments of the business concern at a particular period. So that, effective policy of cash management can be formulated.

## Types of Cash Book:

1. **Single Column Cash Book:** A single column Cash Book contains one column of amount on both sides, i.e., one in the debit side and other in the credit side. In the single column Cash Book, only cash transactions are recorded. In the debit side of the Cash Book, all cash receipts are recorded, while in the credit side all cash payments are recorded.

2. **Double Column Cash Book:** A double column Cash Book contains two columns of amount, namely cash column and bank column on both sides. In the cash column of Cash Book, all cash receipts and payments are recorded, according to the rule of Real Accounts. All deposits either in cash or through cheques into the bank account of the business are debited in the bank column and all withdrawals of cash and payments through cheques are credited in the bank column.
3. **Triple Ccolumn Cash Book:** In a triple column Cash Book, there are three columns of amount namely, cash, bank and discount. Discount allowed and discount received are recorded in the discount column. While in the debit side, discount allowed is recorded along with the receipts, either in cash or through cheque; whereas, in the credit side, discount received is recorded, along with the payments made either in cash or by issuing cheques.
4. **Petty Cash Book:** This book is used for recording payment of petty expenses, which are of smaller denominations like, postage, stationery, conveyance, refreshment, etc. is known as Petty Cash Book.

Following is the format of the single column cash book:

Dr. <b>Cash Book</b>					Cr.				
Receipts					Payment				
Date	Particulars	V No.	L. F.	Amount (Rs)	Date	Particulars	V. No.	L. F.	Amount (Rs)

### Explanation :

- i. **Date :** This column appears in both the debit and credit side. It records the date of receiving cash at debit side and paying cash at credit side.

ii. **Particulars** : This column is used at both debit and credit side. It records the names of parties (personal account), heads (nominal account) and items (real account) from whom payment has been received and to whom payment has been made.

iii. **Receipt Number (R.N)**: This refers to the serial number of the cash receipt.

iv. **Voucher Number (V.N)** : This refers to the serial number of the voucher for which payment is made.

v. **Ledger Folio (L.F)**: This column is used in both the debit and credit side of cash book. The ledger page (folio) of every account in the cash book is recorded against it.

vi. **Amount** : This column appears in both sides of the cash book. The actual amount of cash receipt is recorded on the debit side. The actual payments are entered on the credit side.

### **Balancing :**

The cash book is balanced like any other account. The total of the receipt (debit side) column will always be greater than the total of the payment column (credit side). The difference will be written on the credit side as “By Balance c/d”. In the beginning of the next period, to show the cash balance in hand, the balance amount is recorded in the debit side as “To balance b/d”.

Example:1

Write the following transactions in the simple cash book and post into the ledger:

1991

Jan. 1	Cash in hand	15,000
" 6	Purchased goods for cash	2,000
" 16	Received from Akbar	3,000
" 18	Paid to Babar	1,000
" 20	Cash sales	4,000
" 25	Paid for stationary	60
" 30	Paid for salaries	1,000
" 31	Purchased office furniture	2,000

Solution:1

### **Cash Book**

Date	Particulars	L.F.	Amount	Date	Particulars	L.F.	Amount
1991							
Jan. 1	To Balance b/d		15,000	Jan. 6	By Purchases a/c		2,000
16	To Akbar		3,000	18	By Babar		1,000
20	To sales a/c		4,000	25	By stationary		60
				30	By Salaries a/c		1,000
				31	By Furniture a/c		2,000
					By Balance c/d		15,940
			<hr/> 22,000				<hr/> 22,000

	To Balance b/d		15,940				

Example:2

Enter the following transactions in a simple cash book for December 2016:

		<b>Rs</b>
01	Cash in hand	12,000
05	Cash received from Bhanu	4,000
07	Rent Paid	2,000
10	Purchased goods Murari for cash	6,000
15	Sold goods for cash	9,000
18	Purchase stationery	300
22	Cash paid to Rahul on account	2,000
28	Paid salary	1,000
30	Paid rent	500

Solution;2

### Cash Book

				Dec.31	Balance c/d		6,765
			9,210				9,210

**Format of the Double Column Cash Book:**

A **double column cash book** or **two column cash** book is one which consists of two separate columns on the debit side as well as credit side for recording cash and discount. In many concerns it is customary for the trader to allow or to receive small allowance off or against the dues. These allowances are made for prompt settlement of accounts. In certain business almost all receipts or payments are accompanied by such discounts and in order to avoid unnecessary postings separate columns in the cash book are introduced to record the discounts received or allowed. These discount columns are memorandum columns only. They do not form the discount account. The discount column on the debit side of the cash book will record discounts allowed and that on the credit side discounts received.

Debit Side

Credit Side

Date	Particulars	V.N.	L.F.	Discount	Cash	Date	Particulars	V.N.	L.F.	Discount	Cash

### Example 5

From the following transactions write up a two column cash book and post into ledger:

1991

- Jan. 1 Cash in hand \$2,000  
 " 7 Received from Riaz & Co. \$200; discount allowed \$10  
 " 12 Cash sales \$1,000  
 " 15 Paid Zahoor Sons \$500; discount received \$15  
 " 20 Purchased goods for cash \$300  
 " 25 Received from Salman \$500; discount allowed \$15  
 " 27 Paid Hussan & Sons \$300.  
 " 28 Bought furniture for cash \$100  
 " 31 Paid rent \$100

Solution:5

#### Cash Book

	To										
	Balance										
	b/d										

**Three column Cash Book:****Opening Balance:**

Put the opening balance (if any) on cash in hand and cash at bank on the debit side in the cash book and bank columns. If the opening balance is credit balance (overdraft) then it will be put in the credit side of the cash book in the bank column.

**Cheque/Check or Cash Received:**

If a cheque is received from any person and is paid into the bank on the same date it will appear on the debit side of the cash book as "To a Person". The amount will be shown in the bank column. If the cheque received is not deposited into the bank on the same date then the amount will appear in the cash column. Cash received will be recorded in the usual manner in the cash column.

**Payment By Cheque/Check or Cash:**

When we make payment by cheque, this will appear on the credit side "By a person" and the amount in the bank column. If the payment is made in cash it will be recorded in usual manner in the cash column.

**Contra Entries:**

If an amount is entered on the debit side of the cash book, and the exact amount is again entered on the credit side of the same account, it is called "contra entry". Similarly an amount entered on the credit side of an account also may have a contra entry on the debit side of the same account.

Contra entries are passed when:

1. **Cash is deposited into bank by office:** It is payment from cash and receipt in bank. Therefore, enter on credit side, cash column "By Bank" and on debit side bank column "To Cash". The reason for making two entries is to comply with the principle of double entry which in such transactions is completed and therefore, no posting of these items is necessary. Such entries are marked in the cash book with the letter "C" in the folio column
2. **Cheque/Check is drawn for office use:** It is payment by bank and receipt in cash. Therefore, enter on the debit side, cash column "To Bank" and on credit side, bank column "By Cash".

**Bank Charges and Bank Interest Allowed:** Bank charges appear on the credit side, bank column "Bank Charges." Bank interest allowed appear on the debit side, bank column "To Interest".

**Posting:**

The method of posting three column cash book into the ledger is as follows:

1. The opening balance of cash in hand and cash at bank are not posted.
2. Contra Entries marked with "C" are not posted.
3. All other items on the debit side will be posted to the credit of respective accounts in the ledger and all other items on the credit side will be posted to the debit of the respective accounts.
4. As regards discounts the total of the discount allowed will be posted to the debit of the discount account in the ledger and total of the discount received to the credit side of the discount account.

**Format of the Three Column Cash Book:**

Debit Side							Credit Side						
Date	Particulars	V.N.	L.F.	Dis- count	Cash	Bank	Date	Particulars	V.N.	L.F.	Dis- count	Cash	Bank

Example: 6

On January 1, 1991 Noorani Stores cash book showed debit balance of cash \$1,550 and bank \$13,575. During the month of January following business was transacted.

1991

- Jan.1 Purchased office typewriter for cash \$750; cash sales \$315
- " Deposited cash \$500
- " 4 Received from A. Hussan a cheque for \$2,550 in part payment of his account
- " 6 Paid by cheque for merchandise purchased worth \$1,005
- " 8 Deposited into bank the cheque received from A. Hussan.
- " 10 Received from Hayat Khan a cheque for \$775 in full settlement of his account and allowed him discount \$15.
- " 12 Sold merchandise to Divan Bros. for \$1,500 who paid by cheque which was deposited in the bank.
- " 16 Paid Salman \$915 by cheque, discount received \$5
- " 27 Paid to Gulzar Ahmad by cheque \$650
- " 30 Paid salaries by cheque \$1,750
- " 31 Deposited into bank the cheque of Hayat Khan.
- " 31 Drew from bank for office use \$250.

You are required to enter the above transactions in three column cash book and balance it.

### PETTY CASH BOOK

Petty means 'small'. The petty cash book is a book where small recurring payments like carriage, cartage, postage and telegram, printing and stationery etc., are recorded by the petty cashier, a person other than the main cashier.

#### 8.1 Imprest System

**Imprest** means 'money advanced on loan'. Under this system the amount required to meet out various petty expenses is estimated and given to the petty cashier at the beginning of the specified period, usually a month. All the payments are supported by vouchers. At the end of the given period or earlier, when the petty cashier has spent the petty cash amount, he closes the petty cash

book for the period and balances it. Then he submits the accounts to the cashier. He verifies the petty cash book with the vouchers. After satisfying himself as to the correctness and genuineness of the payments an amount equal to the cash spent is given to the petty cashier. This amount together with the unspent amount will bring up the cash in hand to the amount with which he originally started i.e., **the imprest amount**. Thus the system of reimbursing the amount spent by the petty cashier at fixed period, is known as the **imprest system of petty cash**.

**For example**, On June 1, 2002, Rs.1,000 was given to the petty cashier. He had spent Rs.940 during the month. He will be paid Rs.940 on 30th June by the cashier so that he may again have Rs.1,000 for the next month i.e., July.

### **Analytical Petty Cash Book**

As in the case of any other cash book, petty cash book also has the debit side and the credit side. The debit side is smaller and has very infrequent entries because cash receipt by the petty cashier is mainly from the cashier at the beginning or close of a specified period. The credit side is bigger and thus has many columns. For each important petty expenses there is a separate column, and therefore columnar cash book is another name for this petty cash book. These analytical columns helps to know the actual amount spent on each and every type of petty expenses for the specified period. Each petty payment is first entered in the total payments column, and then recorded in the respective analytical column, so that :

- i. the total amount spent on each expenses for a particular period can be easily ascertained by adding up the respective column.
- ii. only the periodical total of each column is posted to the ledger.
- iii. the total petty payment for any period can be easily ascertained from the total payments column.

The analytical petty cash book may be designed according to the requirements of the business.

## SCHOOL OF MANAGEMENT

### UNIT II - FINANCIAL ACCOUNTING- I - SBAA1102

## FINAL ACCOUNT

Financial accounting is a well-defined sequential activity which begins with Journal (Journalising), Ledger (Posting), and preparation of Trial Balance (Balancing and Summarisation at the first stage). The next step is the preparation of financial statement.

**Financial Statements:-** It has been emphasised that various users have diverse informational requirements. Instead of generating particular information useful for specific users, the business prepares a set of financial statements, which in general satisfies the informational needs of the users.

The basic objectives of preparing financial statements are:

- (i). To present a true and fair view of the financial performance of the business;
- (ii). To present a true and fair view of the financial position of the business;

For this purpose, the firm usually prepares the following financial statements:

- Trading and Profit and Loss Account
- Balance Sheet

Trading and Profit and Loss account, also known as Income statement, shows the financial performance in the form of profit earned or loss sustained by the business. Balance Sheet shows financial position in the form of assets, liabilities and capital. These are prepared on the basis of trial balance and additional information, if any.

### Meaning of Final Accounts:

- **Final accounts** gives an idea about the profitability and financial position of a business to its management, owners, and other interested parties. ... The term "**final accounts**" includes the trading **account**, the **profit and loss account**, and the balance sheet.

### Objectives of Final Accounts:

- The following are the main **objectives of final accounts**: - To determine gross profit and net profit of the business during the year. To present true financial position of the business on a given date. To make effective control on financial activities of the business.
- Financial managers make final accounts as well as corporate **balance** sheets in order to get a clear and summarizing picture of the current financial condition of the company. Final accounts, as well as **balance** sheets, assist shareholders to recognize an organization's financial viability

### ITEMS TO KNOW BEFORE PREPARATION OF FINANCIAL STATEMENT:

- i) **Expenditures:** Whenever payment and/or incurrence of an outlay are made for a

purpose other than the settlement of an existing liability, it is called expenditure. The expenditures are incurred with a viewpoint they would give benefits to the business. The benefit of an expenditure may extend up to one accounting year or more than one year. If the benefit of expenditure extends up to one accounting period, it is termed as revenue expenditure. If the benefit of expenditure extends more than one accounting period, it is termed as capital expenditure.

- ii) **Receipts:** The similar treatment is given to the receipts of the business. If the receipts imply an obligation to return the money, these are capital receipts. If a receipt does not incur an obligation to return the money or is not in the form of a sale of fixed asset, it is termed as revenue receipt.
- iii) Usually Trading and Profit and Loss account includes revenue incomes and expenditures and Balance sheet includes capital incomes and expenditures.
- iv) **Closing Entries:** The preparation of trading and profit and loss account requires that the balances of accounts of all concerned items are transferred to it for its compilation.
  - Opening stock account, Purchases account, Wages account, Carriage inwards account and direct expenses account are closed by transferring to the debit side of the trading and profit and loss account. This is done by recording the following entry:

Trading A/c Dr.

To Opening stock A/c

To Purchases A/c

To Wages A/c

To Carriage inwards A/c

To All other direct expenses A/c

- The purchases returns or return outwards are closed by transferring its balance to the purchases account. The following entry is recorded for this purpose:

Purchases return A/c Dr.

To Purchases A/c

- The sales returns or returns inwards account is closed by transferring its balance to the sales account as:

Sales A/c Dr.

To Sales return A/c

- The sales account is closed by transferring its balance to the credit side of the trading and profit and loss account by recording the following entry:

Sales A/c Dr.

To Trading A/c

- Items of expenses, losses, etc. are closed by recording the following entries:

Profit and Loss A/c Dr.

To Expenses (individually) A/c

To Losses (individually) A/c

- Items of incomes, gains, etc. are closed by recording the following entry:

Incomes (individually) A/c Dr.

Gains (individually) A/c Dr.

To Profit and Loss A/c

## **TRADING AND PROFIT AND LOSS ACCOUNT**

Trading accounting is an account prepared to ascertain the trading results of a business i.e., the gross profit earned or gross loss incurred from buying and selling of goods during a particular period. The excess of net sales [total sales less returns] over cost of goods sold is termed as gross profit.

Trading and Profit and Loss account is prepared to determine the profit earned or loss sustained by the business enterprise during the accounting period. It is basically a summary of revenues and expenses of the business and calculates the net figure termed as profit or loss. The trading and profit and loss can be seen as combination of two accounts, viz. Trading account and Profit and Loss account. The trading account or the first part ascertains the gross profit and Profit and loss account or the second part ascertains net profit.

- 1) **Trading Account:-** The trading account ascertains the result from basic operational activities of the business. The basic operational activity involves the manufacturing, purchasing and selling of goods. It is prepared to ascertain whether the selling of goods and/or rendering of services to customers have proved profitable for the business or not. Purchases is one of the main constituents of expenses in business organisation. Besides

purchases, the remaining expenses are divided into two categories, viz. direct expenses and indirect expenses. Direct expenses means all expenses directly connected with the manufacture, purchase of goods and bringing them to the point of sale. Direct expenses include carriage inwards, freight inwards, wages, factory lighting, coal, water and fuel, royalty on production, etc. Similarly, sales constitute the main item of revenue for the business. The excess of sales over purchases and direct expenses is called **Gross Profit**. If the amount of purchases including direct expenses is more than the sales revenue, the resultant figure is **Gross Loss**. The computation of gross profit can be shown in the form of equation as:

$$\text{Gross Profit} = \text{Sales} - (\text{Purchases} + \text{Direct Expenses})$$

## 2) Profit and Loss account:-

Accounting to Prof. Carter “Profit and loss account is an account into which all gains and losses are calculated in order to ascertain the excess of gains over the losses or vice versa”.

Profit and loss account is an account which prepared to calculate the final profit or loss of the business. All operating expenses and other non-operating income and expenditures and losses are charged to profit and loss account to find out the net profit.

The gross profit or the gross loss is transferred to profit and loss account. The indirect expenses are transferred to the debit side of the second part, viz. profit and loss account. All revenue/gains other than sales are transferred to the credit side of the profit and loss account. If the total of the credit side of the profit and loss account is more than the total of the debit side, the difference is the **Net Profit** for the period of which it is being prepared. On the other hand, if the total of the debit side is more than the total of the credit side, the difference is the **Net Loss** incurred by the business firm.

### Objectives of P/L Accounts

- To know the trading result
- To Identify Net Profit or Loss
- To know the relation between profits and turnover
- To Know components of Income & Expenditure
- To determining efficiency
- To Control over expenses
- To prepare future profit planning

## **Items on the debit side**

### **Debit Side**

#### **I. Operating expense**

- Office & Admn. Expense
- Selling, distb. Expense
- Financial expense
- Maintenance Expense

#### **II. Non Operating expense**

- Losses
- Written off of fictitious assets

### **Credit Side**

#### **I. Operating Income**

- Interest, commission, discount

#### **II. Non operating income**

- Profit sale of assets
- Refund tax
- Rent received

In an equation form, it is shown as follows:

$$\text{Net Profit} = \text{Gross Profit} + \text{Other Incomes} - \text{Indirect Expenses}$$

Net profit or net loss so computed is transferred to the capital account in the balance sheet by way of the following entry:

**i) For transfer of net profit**

Profit and Loss A/c Dr.

To Capital A/c

**ii) For transfer of net loss**

Capital A/c Dr.

To Profit and Loss A/c

## Relevant Items in Trading and Profit and Loss Account

The different items appearing in the trading and profit and loss account are explained hereunder:

- (i). **Opening stock:** It is the stock of goods in hand at the beginning of the accounting year. This is the stock of goods which has been carried forward from the previous year and remains unchanged during the year and appears in the trial balance. In the trading account it appears on the debit side because it forms the part of cost of goods sold for the current accounting year.
- (ii). **Purchases less returns:** Goods, which have been bought for resale appears as purchases on the debit side of the trading account. They include both cash as well as credit purchases. Goods which are returned to suppliers are termed as purchases return. It is shown by way of deduction from purchases and the computed amount is known as Net purchases.
- (iii). **Wages:** Wages refer to remuneration paid to workers who are directly engaged in factory for loading, unloading and production of goods and are debited to trading account.
- (iv). **Carriage inwards/Freight inwards:** These expenses are the items of transport expenses, which are incurred on bringing materials/goods purchased to the place of business. These items are paid in respect of purchases made during the year and are debited to the trading account.
- (v). **Fuel/Water/Power/Gas:** These items are used in the production process and hence are part of expenses.
- (vi). **Packaging material and Packing charges:** Cost of packaging material used in the product are direct expenses as it refers to small containers which form part of goods sold. However, the packing refers to the big containers that are used for transporting the goods and is regarded as an indirect expense debited to profit and loss account.
- (vii). **Salaries:** These include salaries paid to the administration, godown and warehouse staff for the services rendered by them for running the business. If salaries are paid in kind by providing certain facilities (called perks) to the employees such as rent free accommodation, meals, uniform, medical facilities should also be regarded as salaries and debited to the profit and loss account.

- (viii). **Rent paid:** These include office and godown rent, municipal rates and taxes, factory rent, rates and taxes. The amount of rent paid is shown on the debit side of the profit and loss account.
- (ix). **Interest paid:** Interest paid on loans, bank overdraft, renewal of bills of exchange, etc. is an expense and is debited to profit and loss account.
- (x). **Commission paid:** Commission paid or payable on business transactions undertaken through the agents is an item of expense and is debited to profit and loss account.
- (xi). **Repairs:** Repairs and small renewals/ replacements relating to plant and machinery, furniture, fixtures, fittings, etc. for keeping them in working condition are included under this head. Such expenditure is debited to profit and loss account.
- (xii). **Miscellaneous expenses:** Though expenses are classified and booked under different heads, but certain expenses being of small amount clubbed together and are called miscellaneous expenses. In normal usage these expenses are called Sundry expenses or Trade expenses.

#### **Items on the credit side**

- (i). **Sales less returns:** Sales account in trial balance shows gross total sales (cash as well as credit) made during the year. It is shown on the credit side of the trading account. Goods returned by customers are called return inwards and are shown as deduction from total sales and the computed amount is known as net sales.
- (ii). **Other incomes:** Besides salaries and other gains and incomes are also recorded in the profit and loss account. Examples of such incomes are rent received, dividend received, interest received, discount received, commission received, etc.
- (iii). **Closing stock:** It may be noted that closing stock does not normally form part of trial balance and is brought into books with the help of the following journal entry :

Closing stock A/c Dr.

To Trading A/c

This entry opens a new account of asset, which is transferred to the balance sheet. The closing stock shall be an opening stock for the next year and shall be sold during the year.

## **BALANCE SHEET**

The balance sheet is a statement prepared for showing the financial position of the business summarising its assets and liabilities at a given date. The assets reflect debit balances and liabilities (including capital) reflect credit balances. It is prepared at the end of the accounting period after the trading and profit and loss account have been prepared. It is called balance sheet because it is a statement of balances of ledger accounts that have not been transferred to trading and profit and loss account and are to be carried forward to the next year with the help of an opening entry made in the journal at the beginning of the next year.

According to Howard, a Balance sheet may be defined as – ‘a statement which reports the values owned by the enterprise and the claims of the creditors and owners against these properties’.

It is showing the financial position of the concern as on the last day of the accounting year. It comprises of a list of assets, liabilities and capital.

### **Balance Sheet Equation:**

- **Assets** = Liabilities + Capital
- **Capital** = Assets – Liabilities

### **Objectives and Functions of Balance Sheet**

- To identify the financial position of a company
- To know the liquidity picture of the concern
- To know the solvency position of the concern
- To identify nature and value of assets
- To get Nature and extent of liabilities and actual capital

### **Preparing Balance Sheet**

All the account of assets, liabilities and capital are shown in the balance sheet. Accounts of capital and liabilities are shown on the left hand side, known as Liabilities. Assets and other debit balances are shown on the right hand side, known as Assets. There is no prescribed form of Balance sheet, for a proprietary and partnership firms. (However, Schedule VI Part I of the Companies Act 1956 prescribes the format and the order in which the assets and liabilities of a company should be shown). The horizontal format in which the balance sheet is prepared is shown below.

### **Relevant Items in the Balance Sheet**

Items which are generally included in a balance sheet are explained below:

- 1) **Current Assets:** Current assets are those which are either in the form of cash or can be converted into cash within a year. The examples of such assets are cash in hand/bank, bills receivable, stock of raw materials, semi-finished goods and finished goods, sundry debtors, short term investments, prepaid expenses, etc.
- 2) **Current Liabilities:** Current liabilities are those liabilities which are expected to be paid within a year and which are usually to be paid out of current assets. The examples of such liabilities are bank overdraft, bills payable, sundry creditors, short-term loans, outstanding expenses, etc.
- 3) **Fixed Assets:** Fixed assets are those assets, which are held on a long-term basis in the business. Such assets are not acquired for the purpose of resale, e.g. land, building, plant and machinery, furniture and fixtures, etc. Sometimes the term 'Fixed Block' or 'Block Capital' is also used for them.
- 4) **Intangible Assets:** These are such assets which cannot be seen or touched. Goodwill, Patents, Trademarks are some of the examples of intangible assets.
- 5) **Investments:** Investments represent the funds invested in government securities, shares of a company, etc. They are shown at cost price. If, on the date of preparation the balance sheet, the market price of investments is lower than the cost price, a footnote to that effect may be appended to the balance sheet.
- 6) **Long-term Liabilities:** All liabilities other than the current liabilities are known as long-term liabilities. Such liabilities are usually payable after one year of the date of the balance sheet. The important items of long term liabilities are long-term loans from bank and other financial institutions.
- 7) **Capital:** It is the excess of assets over liabilities due to outsiders. It represents the amount originally contributed by the proprietor/ partners as increased by profits and interest on capital and decreased by losses drawings and interest on drawings.
- 8) **Drawings:** Amount withdrawn by the proprietor is termed as drawings and has the effect of reducing the balance on his capital account. Therefore, the drawings account is closed by transferring its balance to his capital account. However it is shown by way of deduction from capital in the balance sheet.

## OPENING ENTRY

The balances of various accounts in balance sheet are carried forward from one accounting period to another accounting period. In fact, the balance sheet of an accounting

period becomes the opening trial balance of the next accounting period. Next year an opening entry is made which opens these accounts contained in the balance sheet. The opening entry with various assets and liabilities will be recorded as follows:

Fixed assets A/c Dr.

Current assets A/c Dr.

Fictitious assets A/c Dr.

Investments A/c Dr.

To Capital A/c

To Long-term liabilities A/c

To Current liabilities A/c

### Example 1

Following are the balances extracted from the books of Manish Gupta on 31st March, 2018:

	₹		₹
Capital	1,90,000	Cash at Bank	26,000
Drawing	7,000	Salaries	8,000
Plant and Machinery	1,20,000	Repairs	1,900
Delivery Vehicle	26,000	Stock on 1st April, 2017	16,000
Sundry Debtors	36,000	Rent	4,500
Sundry Creditors	26,000	Manufacturing Expenses	1,500
Purchases	20,000	Bills Payable	23,500
Sales	42,000	Bad Debts	5,000
Wages	8,000	Carriage	1,600

Prepare Trading and Profit and Loss Account and balance Sheet as at 31st March, 2018 after following adjustments are made:

- Closing Stock was ₹ 16,000.
- Depreciate Plant and Machinery @ 10% and Delivery Vehicle @ 15%.
- Unpaid Rent amounted to ₹ 500.

Solution 1

### **WHAT IS A NONPROFIT ORGANIZATION?**

These are those organisations which are established for a charitable or social purpose and not with a view to earn profit. These also render services to their members and to the society on voluntary basis. These non-profit seeking entities exist with a primary motive of providing service. Such as, a club provides sports and recreational facilities; a hospital renders medical services.

#### **Characteristics/Features**

**SERVICE :-** Such organisations are set up to provide service to a specific group or the public at large such as education, health care, sports, entertainment etc. The main aim of these organisations is to provide service either free of cost or at nominal rates and not to earn profit.

- **FORM:-** Since the basic objective of NPO is to render services such as social, religious, educational, charitable, etc. so they take the form of clubs, schools, colleges, societies, trusts or charitable bodies.
- **SEPARATE LEGAL ENTITY:-** As every organisation has distinct entity from its members, so has the NPO. Its name and entity is different from the people who have contributed towards its capital fund. It takes birth by law and winds up in the same way.
- **MANAGEMENT BY ELECTED PERSONS:-** Management of NPO is done by the people who have been elected by its members called managing/ executive committee.

**NO PROFIT MOTIVE:-** These institutions do not operate with a view to earn profit rather their aim is to promote education, sports, charity, religion, culture, etc.

- **ACCOUNTS:-** They prepare financial statements at the end of their accounting period in the form of RECEIPTS AND PAYMENT ACCOUNT, INCOME AND EXPENDITURE ACCOUNT and BALANCE SHEET.
- **MAJOR SOURCES OF INCOME (FUNDING):-** These organisations collect subscriptions from their members, grants from government, donations, income from investments etc. to meet the operating cost and cost of projects undertaken.
- **SURPLUS NOT DISTRIBUTED AMONG ITS MEMBERS:-** Current year's surplus in the form of excess of income over expenditure is not distributed among its members. It is added to Capital Fund.

**NPO prepares annual or final accounts reflecting the financial transactions of the organisation .**

Final accounts of NPO includes :

- 1 . RECEIPTS & PAYMENT A/C
- 2 . INCOME & EXPENDITURE A/C
3. BALANCE SHEET

### **Preparation of Receipts and Payments Accounts:**

#### **Receipts:**

Summaries all receipts appearing on the receipts side of the cash book and the bank book. These are added up separately for each head of account and shown on the receipts side of the Receipts and Payments Account.

#### **Payments:**

Similarly, all payments appearing on the payments side of the cash book and the bank book are summarized. These also are added up separately for each head of account and shown on the payments side of the Receipts and Payments Account.

### **Concept of Receipts And Payments Account:**

Receipt and payment account is a summary of cash receipts and payments during the accounting period. It records all cash receipts and cash payments including capital receipts and revenue receipts irrespective of accounting period.

All cash receipts are recorded on debit side or receipts side and all cash payments are recorded on credit or payments side of receipts and payments account.

### **Features of Receipts And Payments Account:**

The essential features of receipts and payments account are as follows:

#### **1. Summary Of Cash Transactions:**

All cash receipts and payments made by the concern during the accounting period are recorded in

this book. Therefore, receipts and payments account can be taken as a summary of cash transactions.

## **2. Cash And Bank Items In One Column:**

All receipts either cash or bank are recorded in receipts column of receipts side where all cash and bank payments are recorded in one column of payment column of receipts and payments account. The cash and bank transactions are merged to avoid contra entries of cash and bank transactions.

## **3. No Distinction Between Capital And Revenue:**

All cash receipts and cash payments irrespective of capital and revenue nature are recorded in receipts and payments account. No distinct is made for capital receipts , revenue receipts, capital expenditures and revenue expenditures.

## **4. Opening and Closing Balance of Cash:**

Receipts and payments account starts from opening balance of cash and bank ends with the closing balance of cash and bank.

## **5. Recording of Cash Receipts And Payments:**

All cash and cheque receipts are recorded on debit side where as all cash and cheque payments are recorded on credit side of receipts and payments account.

## **6. Ignores Non-cash Transactions:**

Receipts and payments account does not record non-cash transactions.

## **Limitations Of Receipts And Payments Account**

1. Receipts and payments account does not differentiate capital and revenue expenses and incomes.
2. Receipts and payments account fails to show expenses and incomes on accrual basis.
3. Receipts and payments account fails to show surplus and deficiency.
4. Receipts and payments account fails to show non-cash transactions such as depreciation of fixed assets, pilferage.

## **Income and Expenditure Account and Balance Sheet:**

Income and expenditure account is prepared in non profit organisation whose aim is not to earn money for personal benefits but they distribute the profit for welfare activities. So, for showing the organisation different from for-profit organisation, they prepare income and expenditure account. It is prepared just like preparing of profit and loss account. In the debit side, we show all the expenses whether they has been paid or not. In the credit side, we show all the incomes whether they have been received or not. One thing, we should remember that we will show only the expenses and incomes which are not the capital nature.

## **Income and Expenditure Account:**

All transactions relating to non-profit-seeking concerns like Club, Library etc. are recorded in the books of account strictly according to Double Entry System. At the year-end result is determined through Final Accounts.

**Final Accounts consist of two stages:**

- Income and Expenditure Account
- Balance Sheet

**Characteristics:**

The following are the characteristics of Income and Expenditure Account:

1. It is in fact like a Profit and Loss Account of a profit-seeking concern.
2. All expenses are recorded on Debit side and all revenues on Credit side.
3. Only revenue transactions are included in it. No capital items is taken into account.
4. All the items of income/revenue concerning current year — whether received in cash or not—and all items of expense —whether paid in cash or not—are taken into account. But no item of income or expense concerning last year or next year is included in it.
5. Surplus or deficit of a concern is ascertained through this account. Credit balance "indicates surplus, while debit balance indicates deficit.
6. Its balance is transferred to Capital Fund Account.
7. It is prepared on the last day of an accounting year.
8. It does not start with any opening balance.

**Difference between Receipt and Payment Account and Income and Expenditure Account-**

S. No.	Particulars	Receipts and Payments Account	Income and Expenditure Account
1.	<b>Cash and Non cash transaction</b>	Only cash transactions are recorded here.	It is not confined to, cash transactions only, i.e. non-cash transactions are also included in it.
2.	<b>Shows an items</b>	Receipts are shown on the debit side and payments on the credit side.	All revenue incomes appear on the credit side and expenditure on the debit side.
3.	<b>Capital and revenue items</b>	It includes both capital and revenue receipts & payment	It includes only income and expenditure of revenue nature
4.	<b>Balance sheet</b>	It includes both capital and revenue items, so it need not necessarily be accompanied by a Balance Sheet.	It includes only revenue items, so it must be accompanied by a balance sheet, the balance sheet contains the remaining balances.
5.	<b>Type of Account</b>	It is a Real Account	It is a Nominal Account
6.	<b>Transfer of Closing Balance</b>	Its balance is carried over to Receipts & Payments Account of the next year.	Its balance is transferred to Capital Fund.
7.	<b>Opening Balance</b>	This account shows opening balance except in the first year.	It has no opening balance.

8.	<b>Transactions</b>	Transactions relating to past, present and futures are recorded.	Transactions relating to current year only are recorded.
9.	<b>Adjustment</b>	Adjustments are not considered, because it is prepared on cash basis of accounting.	Adjustments are considered necessary because it is prepared on accrual basis of accounting.
10.	<b>Use of Double Entry System</b>	The double entry bookkeeping system is not followed while its preparation.	Double entry bookkeeping system is followed strictly while its preparation.
11.	<b>Compulsory</b>	Its preparation is not compulsory.	It is compulsory. It must be prepared in order to ascertain the true result of a concern.
12.	<b>Closing Balance</b>	Closing balance of this account represents the closing cash in hand and at bank or overdraft at bank.	Closing balance of this account indicates either excess of income over expenditure or excess of expenditure over income.

### Example 1

Calculate the amount of stationery to be posted to Income and Expenditure Account of Indian Cultural Society for the year ending 31<sup>st</sup> March, 2018 from the following information :

Particulars	1.4.2017 (Rs.)	31.3.2018 (Rs.)
Stock of stationery	21,000	18,000
Creditors for stationery	11,000	23,000

Stationery purchased during the year ended 31<sup>st</sup> March 2018 was Rs.75,000. Also, present the relevant items in the Balance Sheet of the society as at 31<sup>st</sup> March 2018.

### Solution 1

#### Stationery Account

Dr.			Cr.
Particulars	Rs.	Particulars	Rs.
To Balance b/d	21,000	By Income & Expenditure A/c	78,000
To Bank	75,000	(Balancing figure)	
		By Balance c/d	18,000
	<b><u>96,000</u></b>		<b><u>96,000</u></b>

#### Balance sheet as on 31.03.2018

Liabilities	Rs.	Assets	Rs.
Creditors for stationery	23,000	Stationery's Stock	18,000

### Example 2

From the following information, calculate the amount of subscriptions to be credited to the income and expenditure account for the year 2007—08.

	Amt (Rs.)
Subscriptions received during the year	50,000

Subscriptions outstanding on 31st March, 2007	20,000
Subscriptions outstanding on 31st March, 2008	6,000
Subscriptions received in advance on 31st March, 2007	8,000
Subscriptions received in advance on 31st March, 2008 Subscriptions of Rs. 1,500 are still in arrears for the year 2006-07.	9,000

Particulars	Amount (Rs.)
Subscriptions received during the year	50,000
(+) Subscriptions Outstanding for 31st March, 2008 (6,000 – 1,500)	4,500
(+) Subscriptions Received in advance an 31st March, 2007	8,000
(-) Subscriptions Received in advance on 31st March, 2008	(9,000)
(-) Subscriptions Outstanding on 31st March, 2007 (20,000 – 1,500)	(18,500)
<b>= Income from subscriptions for the year 2007-08</b>	<b>35,000</b>

Solution 2

### Example 3

From the following Reciepts and Payments Accounts of Cricket Club and the additional information given, prepare the Income and Expenditure Account for the Year ending 31-12-2018 and Balance sheet as on that date:

#### **RECEIPTS AND PAYMENTS ACCOUNT for the year ending 31-12-2018**

To bal. b/d	Rs.		Rs.
-Cash	3520	By Maintenance	6820

-Bank	27380	By Crockery Purchased	2650
-Fixed Deposit @ 6%	30000	By Match Expenses	13240
To Subscription (including Rs. 6000 for 2017)	40000	By Salaries	11000
TO Entrance fees	2750	By Conveyance	820
To Donation	5010	By Upkeep of Lawns	4240
To Interest on Fixed Deposits	900	By postage stamps	1050
To Tournament Fund	20000	By Purchase Of cricket goods	9720
To Sale of Crockery(book value Rs. 1200)	2000	By Sundry expenses	2000
		By Investments	5700
		By Tournament Expenses	18800
		By balance c/d:	
		-Cash	2200
		-Bank	23320
		Fixed Deposits	30000
	<b>131560</b>		<b>131560</b>

Additional Information:

1. Salary outstanding is Rs. 1000.
2. Opening Balance of Stock of Postage and Stationery and Cricket gods is Rs. 750 and Rs. 3210 respectively. Closing stock of the same is Rs. 900 and Rs. 2800 respectively.
3. Outstanding subscription for 2017 and 2018 is Rs. 6600 and Rs. 8000 respectively.

Solution 3

**Cricket Club Income and Expenditure account  
for the year ended 31-12-2018**

Expenditure	Rs.	Income	Rs.
To Maintenance	6820	By Subscription	40000
To Conveyance	820	Less: Rec. for last year	6000

To Upkeep of Lawns	4240	Add: outstanding for current year	<u>8000</u>	42000
To Match Expenses	13240	By Entrance Fees		2750
To Salaries	11000	By Donations		5010
Add: Outstanding	<u>1000</u>	By Interest on Fixed Deposits	900	
To postage Stamps:		Add:Outstanding	<u>900</u>	1800
opening balance	750	By Profit on Sale of Crockery (2000-1200)		800
Add: Purchases	1050			
Less: Closing Stock	( <u>900</u> )	900		
To Cricket Goods:				
opening balance	3210			
Add: Purchases	9720			
Less: Closing Stock	( <u>2800</u> )	10130		
To sundry Expenses	2000			
To Excess of Income over Expenditure (balance fig.)	2210			
	<b>52360</b>			<b>52360</b>

### Balance sheet

as on 31-12-2018

Liabilities		Rs.	Assets	Rs.
Tournament Fund	20000		Cash	2200
Less:Tournament Expenses	<u>18800</u>	1200	Bank	23320
Salary Outstanding		1000	Fixed Deposit	30000
Capital (Balancing Fig.)	72660		Investment	5700
Add: surplus	<u>2210</u>	74870	Crockery	2650
			Accrued Interest on Fixed Deposit	900

		Subscription Due:	
		<b>2017</b> (6600-6000)	600
		<b>2018</b>	8000
		Stock of Postage and stationery	900
		Stock of Cricket goods	2800
	<b>77070</b>		<b>77070</b>

#### Example 4

Receipt and Payment Account of Shankar Sports club is given below, for the year ended March 31, 2017

<b>Receipt and Payment Account for the year ending March 31, 2017</b>			
<b>Receipts</b>	<b>Amount Rs</b>	<b>Payments</b>	<b>Amount Rs</b>
Opening Cash in hand	2,600	Rent	18,000
Entrance fees	3,200	Wages	7,000
Donation for building	23,000	Billiard table	14,000
Locker rent	1,200	Furniture	10,000
Life membership fee	7,000	Interest	2,000
Profit from entertainment	3,000	Postage	1,000
Subscription	40,000	Salary	24,000
	.....	Cash in hand	4,000
	80,000		80,000

Prepare Income and Expenditure Account and Balance Sheet with help of following Information:

Subscription outstanding on March 31, 2016 is Rs 1, 200 and Rs 2,300 on March 31, 2017, opening stock of postage stamps is Rs 300 and closing stock is Rs 200, Rent Rs 1,500 related to 2015 and Rs 1,500 is still unpaid.

On April 01, 2016 the club owned furniture Rs 15,000, Furniture valued at Rs 22,500

On March 31, 2016. The club took a loan of Rs 20,000 (@ 10% p.a.)

Solution 4

<b>Books of Shankar Sports Club</b> <b>Income and Expenditure Account</b> <b>as on 31 Dec. 2017</b>					
Dr.					Cr.
Expenditure		Amount (₹)	Income		Amount (₹)
Rent	18,000	.....	Entrance Fees		3,200
Add: Outstanding for 2017	1,500	.....	Locker Rent		1,200
.	19,500	.....	Profit from Entertainment		3,000
Less: Outstanding for 2016	(1,500)	18,000			.....
.		...	Subscription received during the year	40,000	.....
Wages		7,000	Less: Outstanding for 2016	(1,200)	.....
Depreciation on Furniture		2,500	.	38,800	.....
Interest		2,000	Add: Outstanding for 2017	2,300	41,100
Postage	1,000	...	Deficit (Balancing Figure)		6,100
Add: Opening Stock	300	...			...
	1,300	...			...
Less: Closing Stock	(200)	1,100			...
Salaries		24,000			...

**Books of Shankar Sports Club**  
**Income and Expenditure Account**  
**as on 31 Dec. 2017**

		...			...
		54,600			54,600

**Balance Sheet as on December 31, 2016**

Liabilities	Amount Rs	Assets	Amount Rs
Rent Outstanding	1,500	Cash in Hand	2,600
10% Loan	20,000	Subscription Outstanding	1,200
.	...	Furniture	15,000
.	...	Stock of Postage Stamps	300
.	...	Capital fund Deficit (Balancing figure)	2,400
.	21,500	.	21,500

**Balance Sheet as on December 31, 2017**

Expenditure		Amount (₹)	Income		Amount (₹)
Rent Outstanding		1,500	Subscription Outstanding		2,300
10% Loan		20,000	Stock of Postage Stamps		200
Donation for Building		23,000	Billiard Table		14,000
Capital Fund	(2,400)	...	Furniture	15,000	...
Add: Life Membership Fee (note 1)	7,000	...	Add: Purchases	10,000	...
Less: Deficit	(6,100)	...		25,000	...
		...	Less: Depreciation	(2,500)	22,500
		...	Cash in Hand		4,000

<b>Expenditure</b>		<b>Amount (₹)</b>	<b>Income</b>		<b>Amount (₹)</b>
		...	*Capital Fund (Deficit)(note 2)		1500
		44,500			44,500

Note : 1. Some members of the organisation pay their subscription ( to become the member) in lump sum for the entire life. This amount is called Life Membership Fees. So, Life Membership Fees is a receipt of Capital nature or non-recurring amount since the members will not be required to pay the fee annually. Hence it is not credited to the Income and Expenditure account but added to the Capital Fund.

2. Since there is insufficient amount in Capital Fund, it will be shown in the Assets side of Balance Sheet.

**UNIT III - FINANCIAL ACCOUNTING- I - SBAA1102**

## INTRODUCTION

Accounts are prepared by accountant, a human being is likely to commit mistakes at time of recording and posting in the books. However, such errors are located after some time and should be corrected by passing corrective journal entry, which is known as rectification if errors.

Need of Rectification

1. For the preparation of correct Accounting Records.
2. Preparation of P & LA/c with corrected figures to ascertain correct Profit or Loss.
3. To find out the true financial position of the firm by preparing Balance Sheet with corrected figures.

## CLASSIFICATION OF ERRORS (ON THE BASIS OF NATURE)

### I. Error of Omission

(When a transaction is completely partially omitted to be record in the books)

#### (a) Error of Complete Omission

Goods sold to X on Credit but not recorded in Sales Book.

#### (b) Partial Commission

Purchase machinery Rs. 5,000 in cash recorded in cash Book but not recorded in Machinery A/c

### II. Error of Commission

(These errors are caused due to wrong recording of transactions, wrong totalling of subsidiary books or Ledger A/cs, Wrong posting and wrong carry forward)

#### (a) Error of Recording in the Book of Original Entry

Goods purchased from Ravi for Rs. 450, Goods as Rs. 540, in the Purchases Book

#### (b) Wrong Totalling of Subsidiary Book

Example : Purchase Book has been undercast (short totalled) by Rs.100.

#### (c) Error in Totalling or Balancing of Ledger A/cs\*

Example : Creditors A/c has been balanced short by Rs. 500.

#### (d) Error of Posting

- (i) Posting to the wrong side but correct account.

Goods sold to X for Rs. 550, entered to the credit of X's A/c instead of posting to the debit side of his account.

- (ii) Posting with wrong amount.

- (iii) Posting twice in an A/c/

- (iv) Errors in posting to the wrong A/c but correct side don't affect Trial Balance.

**(e) Error in carrying forward.**

Total of purchase book Rs. 2,500 is carried forward as Rs. 2050

**III. Errors of Principal.**

(These errors are caused due to the violation of accounting principles *i.e.* allocation between Capital and Revenue items.

**(a) Treating capital items as revenue item**

Example : Wages paid for the installation of a new machinery charged to Wages A/c instead of machinery A/c.

**(b) Treating Revenue Items as Capital Item**

Example : Rs. 200 paid for the repairs of an old Machinery but debited to Machinery A/c instead of Repairs A/c.

**Compensating Errors**

(Two or more errors committed such a way that the net effect of these errors is nil).

**Example :** Cash paid to Ram Rs. 5,000 but debited him as Rs. 500 and paid to Mohan Rs. 500 but debited him as Rs. 5,000 so, net effect will be nil

**TYPES OF ERRORS FROM RECTIFICATION POINT OF VIEW**

From Rectification point of view, errors are classified into the following two categories only:

Case I: Errors which don't affect the Trial Balance

Or

Two Sided Errors

Case II: Errors which affect the Trial Balance

Or

One Sided Errors.

### **Errors don't Affecting Trial Balance**

- Errors of complete commission.
- Wrong recording in the books of original entry.
- Complete omission from posting.
- Errors of posting to the wrong A/c but on the correct side.
- Compensating errors.
- Errors of principle.

### **Errors Affecting Trial Balance**

Shown by Star in the Table showing.

- Error in totalling of subsidiary books as under cast or over cast.
- Error in the balancing of ledger accounts.
- Error in posting to the correct Account but wrong amount.
- Error of partial omission.

### **Rectification of Errors**

When the errors are detected, these have to be rectified in the books of accounts. Rectification of errors depends upon.

- The type of error and
- The time of depiction of an error.

Time of Depiction of an error means.

- (i) Errors of detected before the preparation of Trial Balance.
- (ii) Errors detected after preparing Trial Balance but before preparing final Accounts.
- (iii) Errors detected after preparing Final Accounts.

### **RECTIFICATION OF TWO SIDED ERRORS**

Two sided errors are those errors which affect two sides of Accounts. These errors don't affect trial Balance as discussed earlier.

These Errors are rectified by passing a Journal entry irrespective of the time of depiction. In other words their rectifying entry will be same whether

- (a) the error is depicted before Trial Balance or
- (b) after the preparation of Trial Balance but before the Final A/c s are prepared.

### Steps for Rectification

- Locate the effect of Error on Different Accounts.
- The Account showing excess credit should be debited.
- The Account showing excess Debit should be credited.
- The Account showing short Debit should be debited.
- The Account showing short Credit should be credited.

Examples (with Explanation)

#### (I) When an account has wrongly been debited in place of another A/c.

- Rectification will be done by debiting the correct account and Crediting the A/c which was wrongly debited.

Example: Machinery purchased for Rs. 10,000 has been debited to Purchases A/c

Solution: Here two accounts are affected

- Machinery A/c is not debited hence its debit side is short by Rs. 10,000 whereas purchases A/c debited by mistake. Purchases A/c debit side is in excess by Rs. 10,000.
- While rectifying this mistake Machinery A/c will be debited by Rs. 10,000 because it was not debited earlier and Purchases A/c will be credited because it was wrongly debited.

Rectifying Entry is

Machinery A/c	Dr.	10,000	
To Purchases A/c			10,000
(For purchases of machinery wrongly debited to Purchases A/c)			

#### (II) When an account has wrongly been credited in place of another account.

Example: Rs. 5,000 received from the sale of old furniture has been credited to Sales A/c.

Solution: This error also affects the two A/c

- Furniture A/c is not credited hence its credit side is short by Rs. 5,000. □ Sales A/c is credited by mistake its credit side is excess of Rs. 5,000.
- Therefore fore rectifying this mistake Sales A/c will be debited because it was wrongly credited and Furniture A/c which was not credited earlier will now be credited by Rs. 5,000.

Hence Rectifying entry is

Sales A/c	Dr.	5,000	
To Furniture A/c			5,000
(Sales of old Furniture wrongly credited to Sales A/c)			

**(III) When there is a short debit in one A/c and a short Credit another A/c.**

Example: Goods sold to Seema for Rs. 540 was entered in the Sales Book as Rs. 450.

Solution:

- Here Seema's A/c is debited by Rs. 90 short and Sales A/c is credited by Rs. 90 short.  
(Instead of Rs. 540 by Rs. 450)
- Therefore rectification will be done by Debiting Seema's A/c and Crediting Sales A/c.  
Hence Rectifying entry is:

Seema	Dr.	90
To Sales A/c		90

(For Goods sold to Seema for Rs. 540 wrongly entered Rs.450)

**(IV) When there is an Excess Debit in one A/c and Excess Credit in another A/c.**

Example : Goods purchased from Mohan for Rs. 300 was recorded in Purchases Book as Rs. 3,000.

Solution :

- Here Purchases A/c is Debited by Rs. 3,000 instead of Rs. 300, i.e. Rs. 2,700, more.
- Mohan's A/c is also Credited by Rs. 2,700 more.
- Rectification will be done by debiting Mohan's A/c and Crediting purchases A/c by Rs. 2,700, i.e., the entry in the reverse direction.

Rectifying Entry

Mohan	Dr.	2,700
To Purchases A/c		2,700

(For Purchase of goods from Mohan for Rs. 300 wrongly entered Rs.3,000)

**Problem :**

Rectify the following Errors :

1. Rs. 5,000 Paid for furniture purchased has been debited to purchases account.
2. Wages paid Rs. 7,000 for installation of new machinery were recorded in wages account.
3. Goods sold to Hari Rs. 10,000 not recorded.
4. Rs. 2,500 received from Monu has been credited to Sonu A/c.
5. Rent paid Rs. 1,000 wrongly debited to Landlord Account.
6. Credit Purchase from Raman Rs. 15,000 were wrongly recorded in sales book.

7. Credit sales to Geeta Rs. 8,800 were recorded as Rs, 8,800
8. Goods Rs. 5,000 withdrawn by proprietor has not been recorded.

Solution :

Error No.	Particulars	L.F.	Dr. Rs.	Cr. Rs.
1.	Furniture A/c Dr. To Purchases A/c (The furniture purchase wrongly debited to purchase A/c)		5,000	5,000
2.	Machinery A/c Dr. To wages A/c (The wages for installation machinery wrongly debited to wages A/c)		7,000	7,000
3.	Hari Dr. To Sales A/c (The goods sold to Hari not recorded.)		10,000	10,000
4.	Sonu Dr. To Monu (The amount wrongly credited to Sonu instead of Monu)		2,500	2,500
5.	Rent A/c Dr. To Landlord (The rent paid but wrongly debited to landlord A/c)		1,000	1,000
6.	Purchases A/c Dr. Sales A/c Dr. To Raman (The Credit purchase but wrongly credit to sale A/c.)		15,000 15,000	30,000
7.	Geeta Dr. To sales A/c The Credit sales to Geeta Rs.880 but recorded 8000		800	800
8.	Drawings A/c Dr. To Purchases A/c The goods withdraw by Proprietor for personal use		5,000	5,000

Important : Rectification of double sided errors can easily be understood by the students. These are rectified by passing the journal entries as given irrespective of the time of detection of the errors.

## RECTIFICATION OF ONE SIDED ERRORS

These errors affect only one side of An Account either debit or credit. Therefore these errors the Trial Balance.

Rectification of these errors is done differently, in these two cases i.e.

- (i) Before preparing the Trial Balance
- (ii) After preparing the Trial Balance

### Case 1 : Rectification of one sided errors before preparing Trial Balance.

When there errors are rectified before preparing Trial Balance i.e. transferring the difference in the Trial Balance to the Suspense Account.

(Which will be explained later on), then it is done directly by debiting or crediting the concerned ledger account.

For Short Debit -> Concerned A/c is debited.

For Excess Credit -> Concerned A/c is debited

For Short Credit -> Concerned A/c is credited

For Excess Debit -> Concerned A/c is credited

### Example : (1) Purchases Book understand by Rs. 150

**Analysis :** It means that the total of the Purchases, Book is Rs. 150 short.

- This total is posted to purchases A/c- Debit side
- Hence Purchases A/c is debited short by Rs. 150
- No effect on any other A/c
- Therefore purchases A/c will be debited by Rs. 150 to rectify this error as given below.

Purchases A/c					
Date	Particulars	J.F.	Rs.	Date	Particulars
	To Undercast of purchase book		150		

Here debit side of the Purchase A/c was short therefore the rectification is done by debiting the A/c.

## Analysis

- | <b>Purchases A/c</b> |      |     |                                  |      |     |
|----------------------|------|-----|----------------------------------|------|-----|
| Date Particulars     | J.F. | Rs. | Date Particulars                 | J.F. | Rs. |
|                      |      |     | By Overcast of<br>Purchases Book |      | 300 |

- ### Case II : Rectification of one Sided Error after Preparing Trial Balance

- For short Debit Income Account -> Debit that Account and Credit the Suspense A/c
- Excess Credit in one Account -> Debit that Account and Credit the Suspense A/c
- Short Credit in one Account -> Credit that A/c and Debit the Suspense A/c
- Excess Debit in one Account -> Credit that A/c and Debit the Suspense A/c

		Rs.	Rs.
Purchases A/c	Dr.	150	
To Suspense A/c			150
(For undercast of purchase book, now corrected)			

## Analysis

- Sales book totalled short by Rs. 200 which is posted to the credit side of sales A/c.
- Therefore Sales A/c credit side is short by Rs. 200.
- Hence rectification will be done by crediting the sales A/c and Debiting the Suspense A/c by Rs. 200.

		Rs.	Rs.
Suspense A/c	Dr.	200	
To Sales A/c			200
(For undercast of Sales Book, now corrected)			

Note : When nothing is mentioned in the question about the time of detection of an error, the student are advised to rectify one sided errors through Suspense A/c.

**Problem : Rectify the following error**

- (A) Without opening a Suspense A/c
- (B) By passing Journal entries through Suspense A/c.
  - (1) Rs. 5,000 paid to Mohit were entered in the cash Book but omitted to be posted to the ledger.
  - (2) Rs. 5,000 paid to Mohit were debited to his A/c as Rs. 500.
  - (3) Rs. 5,000 paid to Mohit were debited to his A/c as Rs. 50,000.
  - (4) Rs. 5,000 paid to Mohit were credited to his A/c
  - (5) Rs.5,000 paid to Mohit were credited to his A/c as Rs. 500.
  - (6) Sales Book was overcast by Rs. 2,000
  - (7) Sales Return Book undercast by Rs. 4,000
  - (8) Purchase Return Book undercast by Rs. 5,000.

**Solution :**

- (A) Without opening a suspense A/c. These errors are rectified in the concerned ledger A/c, as these errors before trial Balance.
  - (1) Mohit's A/c will debited by Rs. 5,000 as it is a case of partial omission.
  - (2) Mohit's A/c was debited Rs. 45,000 (5,000-500) therefore the rectification will be done by debiting Mohit's A/c by 4,500.
  - (3) Mohit's A/c was debited in excess by Rs. 45,000 (50,000-5,000) therefore ratification will be done by crediting the Mohits A/c by Rs. 45,000.
  - (4) Mohit's A/c was credited by Rs. 5,000 instead of debited by Rs. 5,000 therefore rectification will be done by debiting Mohit's A/c by Rs. 10,000 (5,000+5,000)
  - (5) Mohit's A/c was wrongly credited by Rs. 500 instead of debiting it by Rs. 5,000, so rectification will be done by debiting the Mohit's A/c by 5,500.

- (6) Sales book overcast means sales A/c is credited in excess by Rs. 2,000. Hence rectification will be done by debiting sales A/c by 2,000.
- (7) Sales Return Book total undercast by Rs. 4,000 means sales return A/c is a debited short by Rs. 4,000. Hence rectification will be done by debiting sales Return A/c by 4,000.
- (8) Purchase Return Book undercast by Rs. 5,000 means purchase Return A/c is credited short by Rs. 5,000.

Hence rectification will be done by crediting the purchase Return A/c by Rs. 5,000

(B) By opening suspense A/c.

Rectifying Journal Entry				
Error No.	Particulars	L.F.	Dr. Rs.	Cr. Rs.
1.	Mohit To Suspense A/c (For cash paid to Mohit committed to be posted to his A/c)	Dr.	5,000	5,000
2.	Mohit To Suspense A/c (for Mohit A/c was debited with excess amount)	Dr.	4,500	4,500
3.	Suspense A/c To Mohit (from Mohit A/c was debited with excess amount)	Dr.	45,000	45,000
4.	Mohit, To Suspense A/c (For posting to Mohit's A/c was done on wrong side)	Dr.	10,000	10,000
5.	Mohit To Suspense A/c (For posting made with wrong amount and wrong side)	Dr.	5,500	5,500
6.	Sales A/c To Suspense A/c (For overcast of sales Book rectified)	Dr.	2,000	2,000

7.	Sales Return A/c	Dr.	4,000	
	To Suspense A/c			4,000
	(For under cast of sales return book rectified)			
<hr/>				
8.	Suspense A/c	Dr.	5,000	
	To Purchase Return A/c			5,000
	(For under cast of purchase return Book, rectified)			

---

### Suspense Account and its Disposal

In the chapter of Trial Balance we have learn about the Suspense A/c

#### Important

- When inspite of all the efforts the Trial Balance does not tally, the difference is put to a newly opened account named Suspense A/c.
- Suspense A/c is an imaginary account, opened temporarily for the purpose of reconciling a Trial Balance.
- Later on when the errors affecting the Trial Balance are located, rectification entries are passed through the Suspense A/c.
- When all the errors are located and rectified, the Suspense A/c will be auto material closed i.e., it will show zero balance.
- But if suspense A./c still shows a balance it will indicate that some errors are still to be discovered and rectified.

**Problem:** An accountant of a trading concern could not agree the Trial Balance. There was an excess credit of Rs. 100 which he transferred to the suspense A/c. The following errors were subsequently discovered.

- (1) Received Rs. 550 from X, were posted to the debit of his account.
  - (2) Rs.100 being purchase return were pointed to the debit of purchases A/c.
  - (3) Discount received Rs. 200 Correctly entered in the Cash Book but posted to the debit of the discount A/c.
  - (4) Salary paid Rs. 3,500 to X were posted to the salary A/c as Rs 2,500.
- 
- (5) A purchase of Rs. 400 has been passed through Sales Book. However the customer's account has been correctly credited.

Give Rectifying entries and Suspense A/c Rectifying Journal Entries

Date No.	Particulars	L.F.	Dr. Rs.	Cr. Rs.
1.	Suspense A/c Dr. To X  (Amount received from X was Posted to the wrong side now corrected)		1,100	1,100
2.	Suspense A/c Dr. To Purchase A/c To Purchase Returns A/c (For the purchases return wrongly posted to the purchases A/c)		200	100 100
3.	Suspense A/c Dr. To Discount A/c  (Discount received was posted to the wrong side of discount A/c)		400	400
4.	Salary A/c Dr. To Suspense A/c (Salary paid was posted to Salary A/c with lesser amount)		1,000	1,000
5.	Purchases A/c Dr. Sales A/c Dr. To Suspense A/c (Purchases has been passed through sales book but the customer's A/c has been correctly credited)		400 400	800

Dr.				Suspense A/c				Cr.	
Date/Error	Particulars	J.F.	Rs.	Date	Particulars	J.F.	Rs.		
	To Difference in the Trials Balance		100		By Salary A/c		1,000		
					By Purchases A/c		400		
					By Sales A/c		400		
	To X		1,100						
	To Purchases A/c		100		Balance c/d		Nil		
	To Return A/c		100						
	To Discount A/c		400						
			1,800				1,800		

Since the Balance of the suspense A/c is nil, indicates that all the errors have been certified.

## **BANK RECONCILIATION STATEMENT**

The cash Book and Pass Book are prepared separately. The Businessman prepares the Cash Book and the Pass Book is prepared by the Bank (here by cash book we mean three column cash Book). But as both the books are related to one person and same transactions are recorded in both the books so the balance of both the books should match i.e. the balance as per Pass Book should match to balance at bank as per cash book. But many a times these two balances do not agree then, it becomes necessary to reconcile them by preparing a statement which is called Bank Reconciliation Statement. A BANK RECONCILIATION STATEMENT may be defined as a statement showing the items of differences between the cash Book balance and the pass book balance, prepared on any day for reconciling the two balances.

### **CAUSES FOR DIFFERENCES**

A transaction relating to bank has to be recorded in both the books i.e. Cash Book and Pass Book but sometimes it happens that a bank transaction is recorded only in one book and not recorded simultaneously in other book this causes difference in the two balances. The causes for difference may be illustrated in detail as follows:

	Causes	Cash Book	Pass Book
1.	Cheques issued but not yet presented for payment	Entry is made  Balance = Decreased	No entry is made till the cheques are presented for payment.  Balance = Same as before
2.	Cheques paid into the bank but not yet cleared.	Entry is made  Balance = Increased	No entry is made till the cheques are cleared  Balance = same
3.	Interest allowed by the Bank	No entry is made till the Pass Book is checked  Balance = Same	Entry is made  Balance = Increased
4.	Interest and Expenses Charged by the Bank	No entry is made till the Pass Book is	Entry is made

		checked Balance = Same	Balance = Decreased
5.	Interest and dividends collected by Bank	No entry is made till the Pass Book is checked Balance = Same	Entry is made  Balance = Increased
6.	Direct payments by the bank	No entry is made till the Pass Book is checked Balance = Same	Entry is made  Balance = decreased
7.	Direct payments into the bank by a customer	No entry is made till the Pass Book is checked Balance = Same	Entry is made  Balance = Increased
8.	Dishonor of a bill discounted with the bank	No entry is made till the pass Book is checked Balance = Same	Entry is made  Balance = decreased
9.	Bills collected by the bank on behalf of the customer	No entry is made till the Pass Book is checked Balance = Same	Entry is made  Balance = Increased
10	Errors committed either in Cash Book or Pass Book		

### **NEED AND IMPORTANCE OF BANK RECONCILIATION STATEMENT**

The need and importance of the bank reconciliation statement may be given as follows:

1. The reconciliation process helps in bringing out the errors committed either in cash Book or Pass Book.
2. Bank reconciliation statement may also show any undue delay in the clearance of cheques.

3. Sometimes the cashier may have the tendency of cheating like he may made entries in the Cash Book only but never deposit the cash into bank. These types of frauds by the entrepreneur's staff or bank staff may be detected only through bank reconciliation statement. So this way bank reconciliation statement acts as a control technique too.

### PROCEDURE FOR PREPARATION OF BANK RECONCILIATION STATEMENT

A. bank reconciliation statement is prepared to reconcile the two balances of Cash Book and Pass Book. So, when you will prepare a bank reconciliation statement you will start it with one balance make adjustments and then you will reach to the other balance. This way both the balances will agree. The way the adjustments should be made may be illustrated as follows:

Particulars		Amount
		Rs.
Balance at Bank as Per Cash Book		Xxx
Add		
(i)	Cheques issued but not yet presented for payment Xx	
(2)	Interest allowed by the bank Xx	
(3)	Interest and dividend collected by the bank Xx	
(4)	Direct payments into the bank by a customer Xx	
(5)	Bills collected by the bank on behalf of the customer <u>Xx</u>	(+) xx
Less :		
(1)	Cheques paid into the bank but not yet cleared Xx	
(2)	Interest and expenses charged by the bank Xx	
(3)	Direct payment by the Bank Xx	
(4)	Dishonor of a bill discounted with the bank <u>Xx</u>	(-) xx
Balance as per Pass Book		<u>Xxx</u>

Note: If you start the question with balance as per pass book all the adjustments will be reversed.

**Example :**

From the following prepare a bank reconciliation statement on 31<sup>st</sup> March 2005.

1. Balance as per Cash Book 1,80,000
2. Cheques paid into Bank March 2005 but credited by the 7,900 bank in April 2005
3. Cheques issued in March 2005 but cashed in April 2005, 11,000
4. Cheques entered in the Cash Book in March 2005 but 1,000 paid into bank in April 2005
- 5 Interest allowed by the bank 2500
- 6 Interest charged by the bank 500

Solution

**Bank Reconciliation Statement**

As on March 31, 2005

Particulars		
	Balance as per Cash Book	1,80,000
Add. 1.	Cheques issued but not cashed	11,000
2.	Int. allowed by bank	<u>2500</u> + 13,500
		1,93,500
Less: 1.	Cheques paid into bank but not yet cleared	7,900
	2. Cheques entered into Cash Book	1,000
3.	Interest charged by Bank	<u>500</u> 9,400
	Balance as per Pass Book	1,84,100

## SCHOOL OF MANAGEMENT

### UNIT IV - FINANCIAL ACCOUNTING- I - SBAA1102

# **DEPRECIATION**

## **MEANING AND DEFINITION**

Depreciation is the reduction in the value of the assets due to constant use. This is a process of spreading the cost of fixed assets is termed as depreciation.

L.C. Cropper defines depreciation as, “the diminution in the financial value of an asset owing to wear and tear, effluxion of time, obsolescence’s or similar causes”.

## **NEED FOR PROVIDING DEPRECIATION**

The need for providing depreciation in accounting records arises due to any one or more of the following reasons.

### **1. To ascertain correct profit / loss**

For proper matching of cost with revenues, it is necessary to charge depreciation against revenue in each accounting year, to calculate the correct net profit or net loss.

### **2. To present a true and fair view of the financial position**

If the amount of depreciation is not provided on fixed assets in the books of accounts, the value of fixed assets will be shown at a higher value than it’s real value in the balance sheet. As such it will not reflect the true and fair financial position of the business, it is necessary that depreciation must be deducted from the book value of the assets in the balance sheet.

### **3. To ascertain the real cost of production**

Ascertaining the real cost of production, it necessary to provide depreciation.

### **4. To comply with legal requirements**

As per Section 205(1) of the Companies Act 1956, it is compulsory for companies to provide depreciation on fixed assets before it declares dividend.

### **5. To replace assets**

Depreciation is provided to replace the assets when it becomes useless.

## **CAUSES OF DEPRECIATION**

Causes of depreciation may be divided into

1) Internal causes

2) External causes

### **1) Internal causes**

#### **a) Wear and tear**

It arises due to constant use of the assets. It arises mainly in case of fixed assets like buildings, machines, furniture, etc.,

## **b) Depletion**

It arises due to the extraction of assets. It arises mainly in case of wasting assets like mines, quarry, oil, well, etc.,

## **2) External causes**

### **a) Obsolescence**

It arises due to new invention, change of style, legislation, etc.,

### **b) Effluxion of time**

Some assets decrease in the value due to passage of time. Example leasehold property, patents, copy rights.

## **OBJECTIVES (OR) PURPOSE OF PROVIDING DEPRECIATION**

### **1. To find out correct cost of production**

If a machine is used to manufacture an article, the depreciation of the machine should also be added with the cost of calculate correct cost of production.

### **2. To calculate proper profits**

The correct profit can be calculated only after providing for depreciation.

### **3. To show the asset at reasonable value**

If the depreciation is not provided the assets will not show the real value.

### **4. To replace the old asset**

Provision of depreciation is made to replace the old plant with the latest model available.

### **5. To declare the dividend properly**

If the depreciation is not provided, dividend cannot be declare properly.

## **FACTORS INFLUENCING THE TOTAL AMOUNT OF DEPRECIATION**

The following three factors are to be considered for the determining the total amount of depreciation.

- 1) Total cost of assets
- 2) Scrap value
- 3) Estimated useful life of the assets

### **1) Total cost of assets**

It includes invoice price less cash discount.

### **2) Scrap value**

It is an estimated value of the assets at the end of the economic life of the assets.

### 3) Estimated useful life of the assets

It can be calculated in terms of time or output.

#### a) Depreciation and Depletion

Depreciation is the gradual diminution in the value of assets due to wear and tear and / or lapse of time. But depletion is the decrease in the value of assets due to extraction.

Depreciation is used for fixed assets where as depletion is used for wasting assets.

#### b) Depreciation and obsolescence

Depreciation is the gradual diminution in the value of assets due to wear and tear and / or lapse of time. But obsolescence is the loss in the value of asset due to new invention.

Depreciation arises due to internal or external causes whereas obsolescence arises due to external causes.

## METHODS OF DEPRECIATION

### 1. Straight Line Method (or) Original Cost Method (or) Fixed Installment Method

Under this method a fixed percentage is calculated on original cost and written off as depreciation every year during the life time of the assts.

$$\text{Depreciation Amount} = \frac{\text{Original cost} - \text{Scrap value}}{\text{No. of years or Life of the assets}}$$

$$\text{Depreciation Rate} = \frac{\text{Depreciation Amount}}{\text{Cost of the Assets}} \times 100$$

This method is simple to adopt. But his method does not consider the seasonal fluctuations. The total charge in respect of an asset is not equal from year to year through the depreciation is the same for all the years.

#### Illustration:

ABC company purchased machinery for Rs. 10,00,000. Its installation costs amounted to Rs. 1,00,000. It's estimated life is 5 years and the scrap value is Rs. 5,000. Calculate the amount and rate of depreciation.

#### Solution:

$$\text{Total cost} = \text{Purchase price} + \text{Installation charges}$$

$$\begin{aligned}
&= 10,00,000 + 1,00,000 \\
&= \text{Rs. } 11,00,000 \\
\text{Amount of depreciation} &= \frac{\text{Total cost} - \text{Scrap value}}{\text{Estimated life}} \\
&= \frac{11,00,000 - 50,00,000}{5} \\
&= \frac{10,50,000}{5} \\
&= \text{Rs. } 2,10,000 \\
\text{Rate of depreciation} &= \frac{\text{Amount of depreciation}}{\text{Original cost}} \times 100 \\
&= \frac{2,10,000}{11,00,000} \times 100 \\
&= 19.09\%
\end{aligned}$$

2.

### **Diminishing balance method (or) Reducing balance method (or) Written down value method**

Under this method depreciation is charged at fixed rate on the reducing balance (cost depreciation) every year.

#### **Illustration:**

XYZ Limited assets purchased for machinery of Rs. 5,00,000 and depreciation is to be provided 10% p.a. on reducing balance method. Calculate the three year depreciation.

#### **Solution:**

##### **First year depreciation**

$$\begin{aligned}
&= \text{Rs. } 5,00,000 \text{ on } 10\% \\
&= 5,00,000 \times \frac{10}{100} \\
&= \text{Rs. } 50,000
\end{aligned}$$

##### **Second year depreciation**

$$\begin{aligned}
&= \text{Rs. } 4,50,000 \text{ on } 10\% \\
&\quad (5,00,000 - 50,000) \\
&= 4,50,000 \times \frac{10}{100} \\
&= \text{Rs. } 45,000
\end{aligned}$$

##### **Third year depreciation**

$$\begin{aligned}
&= \text{Rs. } 4,05,000 \text{ on } 10\% \\
&\quad (4,50,000 - 45,000) \\
&= 4,05,000 \times \frac{10}{100} \\
&= \text{Rs. } 40,500
\end{aligned}$$

#### **Demerits**

- Asset is never reduced to zero.
- This method can be applied only when there is some residual value of assets.

### **3. Annuity method**

Under this system the amount of total depreciation is determined by adding the cost of the asset and interest there on at an expected rate. The annual amount of the depreciation is determined with the help of annuity table.

#### **Illustration:**

A trader takes a lease for five years for Rs. 4,00,000. He decides to write off lease by annuity method presuming the rate of interest at 5% p.a. The annuity table show that the annuity amount necessary to write of Re. 1 in 5 years at 5% is Re. 0.230975. Calculate amount of depreciation

#### **Solution:**

$$\begin{aligned}
\text{Depreciation} &= \text{Cost price} \times \text{Annuity table value} \\
&= 4,00,000 \times 0.230975 \\
&= \text{Rs. } 92,390
\end{aligned}$$

### **4. Depreciation fund method**

Under this system, the amount written off as depreciation should be debit aside and invested in government securities. The securities accumulate. When the life of the asset expires, the securities are sold and a new asset is purchased with the help of sale proceeds. So this system incorporates the advantages of deprecating the asset as well as accumulating the necessary amount for its replacement.

### **5. Insurance policy method**

Under this method the business take a policy form an insurance company. The objective is to replace the asset when it is workout. Every year premium is paid (equal to the amount of depreciation) to the insurance company. On the date of maturity the insured sum will be received from the insurance company, with this sum, new asset will be purchased.

### **6. Revaluation method**

According to the method assets are revalued at the end of each year. The difference between the past estimated (as per the past balance sheet) and at the present estimated value represents depreciation. It is followed in the case of small items such as loose tools etc.,

### **7. Depletion method**

This method is applied in recording the extraction of natural resources. It is used in case of mines, quarries etc., where an estimates of total quantity of output likely to be calculated.

#### **Illustration:**

It a mine is purchased for Rs. 2,00,000 and its estimated that quantity taken from the mine is 50,000 tonne.

$$\text{Depreciation} = \frac{\text{Cost of the mine}}{\text{Total quantity}}$$

$$\text{Depreciation} = \frac{2,00,000}{50,000}$$

$$= 4$$

### **8. Sum of years digit method**

In this method, the amount of depreciation goes no decreasing in the future years.

The rate of depreciation is determined by the fraction, where the denominator (it does not change) is the sum of the digits representing the life of the asset and the numerators are individual digits used in the life of the asset taken in the reverse order.

### **9. Machine hour method**

This method taken into consideration the life time of the asset in terms of machine hours for the purpose of calculating the amount of depreciation.

$$\text{Depreciation per service hour} = \frac{\text{Cost of the asset} - \text{Scrap value}}{\text{No. of hours}}$$

### **Difference between straight line method & Diminishing balance method**

S. No.	Straight Line Method	Diminishing Balance Method
1.	The total amount of depreciation is fixed	The amount of depreciation decreases as the asset value decreases.
2.	The depreciation is calculated on the original cost of the asset.	Depreciation is calculated on the diminishing balance of the asset.
3.	The system is not accepted by the income tax authorities.	The system is accepted by income tax authorities.

#### **Difference between annuity method and depreciation fund method**

S. No.	Insurance Policy Method	Sinking Fund Method
1.	The amount received is certain	The amount received depends on the quality of investments and market conditions.
2.	The premium is paid in the beginning of the year.	The investment is made at the end of the year.

#### **Differences between a provision and a reserve**

- 1) A reserve is an amount which is set aside for any unknown liability whereas a provision is an amount set aside for a known liability.
- 2) The purpose of creating a reserve is to strengthen the financial position of a business whereas the purpose of creating a provision is to meet out a specific loss or a specific liability or to replace an asset.
- 3) A reserve is created only when there is sufficient profit whereas a provision is created even if there is a loss.
- 4) The amount which is kept in a reserve may be utilized to distribute dividend to the shareholders. But the amount which is kept in a provision may not be used like reserve.
- 5) Reserve is an appropriation of profits. So it is recorded in the profit and loss appropriation account.  
A provision is charge against profits. Therefore, it is recorded in the profit and loss account.

### Recording Depreciation

Depreciation is directly charged against the asset by debiting depreciation account and crediting the asset account. Depreciation account is closed by transferring to profit and loss account at the end of the year. The entries will be as under.

#### 1) For the amount of depreciation to be provided at the end of the year

Depreciation a/c	Dr.	(With the amount of
To Assets a/c		depreciation)

#### 2) For transferring the amount of depreciation at the end of the year

Profit and Loss a/c	Dr.	(With the amount of
To Depreciation a/c		depreciation)

Asset account will be shown at cost less depreciation i.e. written down value at the end of the year in the balance sheet.

### Illustration:

Rahavan& Co., purchased a fixed asset on 1.4.2010 for Rs. 2,50,000. Depreciation is to be provided @ 10% annually according to the Straight line method. the books are closed on 31<sup>st</sup> March every year.

Pass the necessary journal entries, prepare fixed asset account and depreciation account for the first three years.

**Solution:**

**Amount of Depreciation**

$$= 4,50,000 \times \frac{10}{100}$$

$$= \text{Rs. } 25,000$$

**In the books of Rahavan& Co.,

#### Illustration:

Deepak manufacturing company purchased on 1<sup>st</sup> April 2012, Machinery for Rs. 2,90,000 and spent Rs. 10,000 on its installation. After having used it for three years it was sold for Rs. 2,00,000. Depreciation is to be provided every year at the rate of 15% per annum on the fixed instalment method.

Pass the necessary journal entries, prepare machinery account and depreciation account for three years ends on 31<sup>st</sup> March every years.

#### Solution:

### Calculation of profit or loss on sale of machinery

	Rs.
Cost price (Rs.2,90,000 + Rs. 10,000)	3,00,000
<b>Less:</b> Depreciation for (2012 – 13) @ 15%	45,000
	<hr/> 2,55,000
<b>Less:</b> Depreciation for (2013 – 14) @ 15%	45,000
	<hr/> 2,10,000
<b>Less:</b> Depreciation for (2014 – 15) @ 15%	45,000
<b>Book value as on the date of sale</b>	<hr/> <b>1,65,000</b> <hr/>
As book value is less than selling price the difference is profit.	

	Rs.
Machinery selling price	2,00,000
<b>Less:</b> Book value as on the date of sale	1,65,000
<b>Profit</b>	<hr/> <b>35,000</b> <hr/>

**Solution:**

### Illustration:

Machinery account showed a balance of Rs. 80,000 on 1<sup>st</sup> April 2011. On 1<sup>st</sup> October 2013, another machinery was purchase for Rs. 48,000. On 30<sup>th</sup> September 2013, a machinery which has book value Rs. 80,000 on 1.4.2011 was sold for the Rs. 48,000. Depreciation is to be provided at 10% per annum on written down value method. The accounting year ends on 31<sup>st</sup> March.

Prepare machinery account and depreciation account for three years.

### Solution:

#### Calculation of profit or loss on sale of machinery

	Rs.
Cost of machinery (1.4.2011)	80,000
<b>Less:</b> Depreciation for 2011 – 12	8,000
	<hr/> 72,000
<b>Less:</b> Depreciation for 2012 – 13	7,200
	<hr/> 64,800
<b>Less:</b> Depreciation till the date of sale (30.9.13)	3,240
<b>Book value as on the date of sale</b>	<hr/> <b>61,560</b> <hr/>

As book value is greater than selling price the difference is loss.

	Rs.
Book value as on the date of sale	61,560
<b>Less:</b> Machinery selling price	48,000
<b>Loss</b>	<hr/> <b>13,560</b> <hr/>

## SCHOOL OF MANAGEMENT

### UNIT V - FINANCIAL ACCOUNTING- I - SBAA1102

## **SINGLE ENTRY SYSTEM**

### **INTRODUCTION**

Generally tiny organizations, do not have any knowledge of accounting. They do not want to follow any systematic or scientific methods of accounting. They prefer to maintain only few accounts. To ascertain profit or loss of their business, they prepare only the statement of profit or loss.

They record two transactions according to their desire. At the end of the year, with the help of the available data, the profit or loss of the business are ascertained through a system known as single entry system. In this chapter, an attempt is made to ascertain the profit or loss under single entry system.

### **SINGLE ENTRY SYSTEM – MEANING AND DEFINITION**

Under this system, cash book and personal accounts are maintained. This system does not totally follow the principles of Double Entry System. According to R.N.Carter, Single Entry system cannot be termed as a system, as it is not based on any scientific system like Double Entry System. For this purpose, Single Entry System is now a days known as preparation of accounts from incomplete records. Particularly this system is followed by those firms whose transactions are limited and at the same time, who maintain only the essential records. There is no hard and fast rule for maintaining records under this system, i.e. it depends on the circumstances and the necessity of the firm.

### **FEATURES OF SINGLE ENTRY SYSTEM**

- Books according to this system can be kept only in sole trader or partnership firm organizations. Limited companies, because of legal provisions, cannot keep books on Single Entry System.
- In this system it is very common to keep only personal accounts and to avoid real and nominal accounts. Therefore, this system is defined as a system where only personal accounts are kept.
- It is very common in this system to keep one cash book which mixes up business as well as private transactions.
- It is also quite often seen that for information, one has to depend on original vouchers. For example, in case of credit sales, proprietor may keep the invoice without recording

it anywhere and at the end of year the total of the invoices gives an idea of total credit sales of the business.

- This system lacks uniformity as it is a mere adjustment of double entry system according to the conveniences of the person.

### **MERITS OF SINGLE ENTRY SYSTEM**

1. Since this system is very simple, anyone can maintain it without any adequate knowledge of accounting.
2. Limited accounts are to be opened under this system since the transactions relating to only personal accounts are recorded.
3. Since the numbers of books are limited, expenses relating to the keeping of records are also nominal.
4. In the case of accounting for an event, i.e. household, social and festival, etc., it is very helpful.

### **LIMITATIONS OF SINGLE ENTRY SYSTEM**

- a. Arithmetical accuracy of the books of account is not found out since the Trail Balance cannot be prepared under this system.
- b. It is also not possible to ascertain the correct amount of profit or loss of the firm, (i.e. results from operation) since the nominal accounts are missing under this system,
- c. Similarly, Balance Sheet cannot be prepared since the real accounts are not recorded. Therefore, the real financial position cannot be known at the end of the accounting period.
- d. As the arithmetical accuracy is not possible, the possibility of committing fraud or manipulation is greater in comparison with Double Entry System.
- e. Any statistical information relating to the business or the comparison between the two firms or the interim accounts, etc. which help the management to take decision or to formulate policy in future is not possible under this system.
- f. Outsiders (e.g. Income-tax authorities, Bank, etc.) do not rely on this system.

## METHODS OF ASCERTAINMENT OF PROFIT OR LOSS UNDER SINGLE ENTRY SYSTEM

Under Single Entry System, the following two methods are followed to ascertain profit or loss

(1) Statement of affairs method/Increase in Net worth Method and

(2) Conversion method.

### STATEMENT OF AFFAIRS METHOD / INCREASE IN NET WORTH METHOD

Under this method, Profit or Loss made by the business is ascertained by comparing the capital at the end of the trading period with that at the beginning. If the Capital at the close is higher, the increase is the measure of Profits and if the Capital at the close is lower the decrease is the measure of loss. The Capital either at the beginning or at the close- can be ascertained by preparing a statement of affairs at the opening and also as at the closing date.

#### Statement of Affairs

A statement of affairs, like Balance Sheet, is a statement of all assets and liabilities. One should consider different adjustments, like depreciation on assets, outstanding and prepaid expenses, etc. at the time of preparing a statement of affairs. **Capital = Assets – Liabilities**

**Statement of Affairs as on .....**

Liabilities	Amount Rs.	Assets	Amount Rs.
Sundry creditors	***	Cash in hand	***
Bills payable	***	Sundry debtors	***
Outstanding expenses	***	Fixed assets	***
Bank overdraft	***	Bills Receivable	***
Capital (Opening / Closing)	***	Prepaid expenses	***
		Stock	***
	***		***

**Specimen Profit and Loss**  
**Profit and Loss for the year ended.....**

<b>Particulars</b>	<b>Amount Rs.</b>
Closing capital	***
<b>Add: Drawings</b>	***
	***
<b>Less: Additional Capital</b>	***
	***
<b>Less: Opening Capital</b>	***
<b>Profit / Loss</b>	***

**Difference between Double Entry System and Single Entry System**

<b>No.</b>	<b>Basis Distinction</b>	<b>Double Entry System</b>	<b>Single Entry System</b>
1.	Principle	For every debit there is a corresponding credit and vice versa.	Debit and credits do not agree.
2.	Recording of transaction	Debit and credit aspects of all transactions are recorded	Debit and credit aspects of all transactions are not recorded.
3.	Nature of accounts maintained	Maintains complete record of personal, real and nominal accounts.	All incomplete record. Only personal and cash accounts are maintained.
4.	Trial balance	Arithmetical accuracy of the records can be checked by preparing a trial balance.	Trial balance cannot be prepared.
5.	Determination of profit or loss and financial position	A profit and loss account and balance sheet can be conveniently prepared since the book of accounts present a complete picture.	A profit & loss account and balance sheet cannot be conveniently prepared since the accounting records are incomplete.
6.	Suitability	It is suitable for all types of traders.	It is suitable for only small traders.
7.	Dependability	It is the only scientific system of keeping books of accounts.	It not a system. It is incomplete and unscientific.

8.	Acceptability	Records are acceptable for the purpose of tax, loans, etc.,	Records are not acceptable for the purpose of tax claims, loans, etc.,
9.	Internal check	Internal check is possible	Internal check is not possible.

### **Difference between Statement of Affairs and Balance Sheet**

Balance Sheet is also a statement of assets and liabilities just like that of statement of affairs. But there are some differences between these two. Let us now see that differences between Statement of affairs and Balance Sheet.

No.	Statement of Affairs	Balance sheet
1	It is drawn under the Single Entry System	It is drawn under the Double Entry System
2	It is drawn from the incomplete and unsystematic records.	It is compiled out of the ledger balances as disclosed in complete and systematic records.
3	It cannot be relied upon since the preparation of Trial Balance is not Possible	It is arithmetically proved since it is drawn after the Trial Balance has proved arithmetical accuracy.
4	It shows the financial position without any explanation.	It shows the financial position with some explanations.

### **Differences between Profit and Loss account and Statement of the profit or Loss**

No.	Profit and Loss account	Statement of Profit (Or) Loss
1	Gross Profit and Net profit can be found out	Only Net profit can be found out.
2	The performance of the business can be measured.	The performance of the business cannot be measured properly
3	It helps the users in taking important decisions.	The users cannot rely this system because the profit is ascertained from incomplete records.
4	It helps to ascertain the income from the business and income from other sources	No such allocation is possible under this system.
5	Expenses are divided into direct and indirect.	There is no such division of expenditure.

**Illustration:**

The capital at the beginning of the year is Rs.30,000 and that at the end is Rs.38000. Calculate the amount of profit earned during the period, assuming that there is no additional capital introduced or no drawings.

Solution:

**Statement of profit or Loss**

<b>Particulars</b>	<b>Amount Rs.</b>
Capital at the end	38,000
<b>Less:</b> Capital in the beginning	30,000
<b>Profit</b>	<b>8,000</b>

Mrs. Revathi Started business with Rs.1,20,000 as capital on 1.4.2013. During the year for his personal use, withdrawn at the rate of R.1,000 per month. He introduced Rs.20,000 as additional capital. His position on 31.3.2014 was as follows:

	<b>Rs.</b>
Bank balance	8,000
Stock	80,000
Sundry Debtors	50,000
Furniture	2,500
Cash in hand	2,000
Sundry Creditors	25,000
Expenses outstanding	1,000

She keeps her books under single entry system. Determine his profit or loss for the year 2013-14

**Solution:****Statement of affairs of Mrs. Ravathi as on 31.3.2013**

<b>Liabilities</b>	<b>Amount Rs.</b>	<b>Assets</b>	<b>Amount Rs.</b>
Sundry Creditors	25,000	Stock	80,000
Outstanding expenses	1,000	Sundry Debtors	50,000
Capital (Balancing figure)	1,16,500	Furniture	2,500
		Cash in hand	2,000
		Bank balance	8,000
	<b>1,42,500</b>		<b>1,42,500</b>

**Statement of profit of Mrs. Ravathi for the period ended 31.3.2014**

<b>Particulars</b>	<b>Amount Rs.</b>
Closing Capital	1,16,500
<b>Add:</b> Drawings (1000 X 12)	12,000
	1,28,500
<b>Less:</b> Additional Capital	20,000
	1,08,500
<b>Less:</b> Opening Capital	1,20,000
<b>Loss</b>	<b>11,500</b>

**Illustration:**

Mr. Gundurao keeps his books under single entry system, Assets and liabilities on 31.3.2009 and 31.3.2010 stood as follows:

	31.3.2009 (Rs.)	31.3.2010 (Rs.)
Sundry creditors	15,000	30,000
Furniture	15,000	15,000
Sundry Debtors	75,000	1,00,000
Stock	35,000	50,000
Cash Balance	5,000	60,000

He introduced an additional capital of Rs.15,000 during the year. He withdrew Rs.35,000 for domestic purpose. Find out the profit or loss for 2009-10

**Solution:**

**Statement of affairs of Mr. Gundurao as on 31.3.2009**

<b>Liabilities</b>	<b>Amount Rs.</b>	<b>Assets</b>	<b>Amount Rs.</b>
Sundry Creditors	15,000	Furniture	15,000
