Course Outcome:

BLS is a simple life-saving protocol following a cardiac arrest. It is an integral part of emergency resuscitative care that aims to retain sufficient ventilation and circulation until the cause of the arrest is detected and eliminated. As health care professionals, dental practitioners encounter life-threatening medical emergencies. It is recommended that all Dental students and staff, who are exposed to patients, must be trained to offer basic life support. It has been reported that knowledge and practice of BLS increase the survival of patients after cardiac arrest. Dentistry is a health Professional that should provide complete medical care and treat the whole patient rather than focusing on the oral cavity.

2. TRU-BASICS (LEC- DEMO-HANDS ON-IMPALNTS)

The Department of Prosthodontics, Crown Bridge and Implantology organized a value added program for the current CRRI's at Sathyabama Dental College and Hospital on the current concepts of Implants. The program was titled TRU-BASICS (LECTURE AND DEMO – HANDS ON – IMPLANTS) which was conducted on 19/7/22,-22/7/22 July 2022. The program was inaugurated by our Dean, Dr. Shahul Hameed Faizee.

The program was conducted for 4 days. The day 1 program included a series of lecture on various topics of implants covering the basics to Current Concepts, Surgical Applications, Post Implant Restoration, Complications and Management. The lecture was taken by the faculties of Department of Prosthodontics.

LECTURE 1 – INTRODUCTION, HISTORY OF IMPLANTS by DR.R.HARIBABU

LECTURE 2 – ANATOMY, PHYSIOLOGY OF BONE by DR. JOHARA MARIA CRUZ

LECTURE 3 – RADIOGRAPHIC EVALUATION by DR. SRIKANTH

LECTURE 4 – SURGICAL PHASE AND COMPLICATIONS by DR. BALAKUMAR

LECTURE 5 – RESTORATION PHASE by DR. SANKARA KRISHNAN

At the end of every lecture, we had an Q and A session which helped the participants of clarify all their doubts.

The day 2 program comprises of a live surgery of placement of Implants. Few participants were assisting the surgeon and the other participants were observing the live surgery through display. This was highly beneficial for the participants as they all had an overview of how an Implant is placed in a patient. Also the participants had an idea of how to handle the patient and implant. Post surgery we had an Q and A session which was more like an interactive session relating the theory and practical of day 1 and day 2.

The day 3 and day 4 program comprises of hands on with the latest gadgets of placing an implant on a Styrofoam mandible model which gave all the participants a good practical experience. Each and every participants was guided by our well experienced faculty of Department of Prosthodontics by one on one basis.

Hence, the program was concluded with the distribution of certificates for speakers and participants.

Course Outcome:

The students will have the basic knowledge of bone physiology, anatomy, parts of the implants, various systems of implants available. The students have upgraded the knowledge about placement and prosthetic restoration. The students have exposure to case selection for implants, planning the implant work flow and can assist the stage I and stage II procedures confidently and handling the specific implant instruments. They have insight into complications and management of implant failures.

---	--	---	--

The Department of Prosthodontics, Crown Bridge and Implantology organized a value added program for the current CRRI's at Sathyabama Dental College and Hospital on the current concepts of Implants. The program was titled TRU-BASICS (LECTURE AND DEMO – HANDS ON – IMPLANTS) which was conducted on 23.01.23, 24.01.23, 25.01.23, 27.01.23 of January 2023. The program was inaugurated by our Dean sir Dr. Shahul Hameed Faizee.

The program was conducted for 4 days. The day 1 program included a series of lecture on various topics of implants covering the basics to Current Concepts, Surgical Applications, Post Implant Restoration , Complications and Management. The lecture was taken by the faculties of Department of Prosthodontics.

LECTURE 1 – INTRODUCTION , HISTORY OF IMPLANTS by
DR.R.HARIBABU

LECTURE 2 – ANATOMY, PHYSIOLOGY OF BONE by DR. JOHARA
MARIA CRUZ

LECTURE 3 – RADIOGRAPHIC EVALUATION by DR. SRIKANTH

LECTURE 4 – SURGICAL PHASE AND COMPLICATIONS by DR.
BALAKUMAR

LECTURE 5 – RESTORATION PHASE by DR. SANKARA KRISHNAN

At the end of every lecture, we had an Q and A session which helped the participants of clarify all their doubts .

The day 2 program comprises of a live surgery of placement of Implants. Few participants were assisting the surgeon and the other participants were observing the live surgery through display. This was highly beneficial for the participants as they all had an overview of how an Implant is placed in a patient. Also the participants had an idea of how to handle the patient and implant. Post surgery we had an Q and A session which was more like an interactive session relating the theory and practical of day 1 and day 2. The day 3 and day 4 program comprises of hands on with the latest gadgets of placing an implant on a Styrofoam mandible model which gave all the participants a good practical experience .Each and every participants was guided by our well experienced faculty of Department of Prosthodontics by one on one basis . Hence, the program was concluded with the distribution of certificates for speakers and participants.

List of Participants:

S. No.	Reg. No.	Name of the Student
1.	38900099	VINOTHINI S
2.	38900097	VASATH KUMAR T
3.	38900038	KEERTHANA P
4.	38900040	LAHARI K

5.	38900041	KOWSIA S
6.	38900088	SUSHANTHIKA A
7.	38900047	MOHAMED JAVED
8.	38900048	MOHAMED NIZAMUDDEN FAIZEE
9.	38900052	NITISH TN
10.	38900096	TRINITA H
11.	38900094	SWETHA THARESAN A
12.	38900100	VYASHAKH KRISHNA
13.	38900035	KANIMOZHI A
14.	38900034	JITYA R
15.	38900031	JAYASRI NP
16.	38900029	JAYANTHI STEFFI J
17.	38900079	SIVA SANTHANA LAKSHMI G
18.	38900055	PONMANI K
19.	38900082	SUBASHINI MUTHAIAH
20.	38900083	SUBASHINI M

Course Outcome:

The students will have the basic knowledge of bone physiology, anatomy, parts of the implants, various systems of implants available. The students have upgraded the knowledge about placement and prosthetic restoration. The students have exposure to case selection for implants, planning the implant work flow and can assist the stage I and stage II procedures confidently and handling the specific implant instruments. They have insight into complications and management of implant failures.

SATHYABAMA
