To whomsoever it may concern

As a part of the academic requirement and the regulations of Sathyabama Institute of Science and Technology and the Council of Architecture, our student **ASWIN SURIYA.K (38210012)** is required to undergo professional training from the month of January 2023, for a minimum span of 90 working days in his X semester. The students are required to undergo training under a senior registered architect with a minimum of 5 years of professional experience.

In this regard, we request you that **ASWIN SURIYA.K** may be given an opportunity to undergo training in your Architectural firm. In case the student is found to be suitable and selected for internship at your organisation, we request you to send an appointment letter to the undersigned stating that the student has been selected as a trainee in your esteemed office.

The student is required to submit a documentation report (supported with copies of work done by him, duly attested by the architect) of all the drawings and site related activities undertaken under the supervision of Principal architect at the end of training period to the institution.

Thanking you

CRITICAL OVERVIEW:

Introduction:

As an intern at Nanda Green Associates, I had the opportunity to immerse myself in the world of architecture and gain valuable insights into the industry. While my experience had its share of challenges, I would like to provide a constructive critique of Nanda Green Associates, focusing on the positive aspects and the valuable lessons I learned during my internship.

Exposure to Real-World Projects:

Working at Nanda Green Associates allowed me to be part of real-world architectural projects. I had the chance to witness the entire design process, from initial client meetings to final project delivery. This exposure provided me with a firsthand understanding of the practical aspects of architecture, such as project timelines, coordination with contractors, and the importance of effective communication with clients. It was a valuable learning experience that helped me bridge the gap between theoretical knowledge and real-world application.

Collaborative Work Environment:

Nanda Green Associates fostered a collaborative work environment where teamwork and open dialogue were encouraged. Despite the challenges, I had the opportunity to work closely with experienced architects who were willing to share their knowledge and insights. Collaborating with fellow interns and professionals from different disciplines allowed me to appreciate the importance of interdisciplinary collaboration in creating holistic architectural solutions.

Understanding Client Needs:

Nanda Green Associates demonstrated a commendable focus on understanding client needs and translating them into architectural solutions. The firm actively engaged with clients, ensuring their voices were heard and their preferences were integrated into the design process. I had the opportunity to participate in client meetings, witnessing firsthand the importance of effective communication and listening skills in establishing strong client relationships.

Conclusion:

My internship at Nanda Green Associates provided me with a mixed experience, offering valuable lessons and growth opportunities despite some challenges. The exposure to real-world projects, the collaborative work environment, the attention to detail, the emphasis on understanding client needs, and the commitment to deadlines were all positive aspects that contributed to my professional development. While there were areas that could be improved, I am grateful for the constructive critique that allowed me to learn and grow as an aspiring architect. Overall, my internship at Nanda Green Associates provided a solid foundation for my future career in architecture.
