### To whomsoever it may concern

As a part of the academic requirement and the regulations of Sathyabama Institute of Science and Technology and the Council of Architecture, our student **Bavithravashan.B (38210018)** is required to undergo professional training from the month of January 2023, for a minimum span of 90 working days in his X semester. The students are required to undergo training under a senior registered architect with a minimum of 5 years of professional experience.

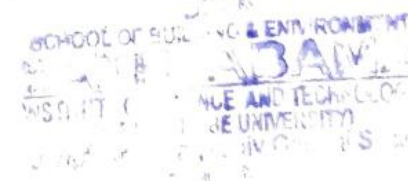

In this regard, we request you that **Bavithravashan.B** may be given an opportunity to undergo training in your Architectural firm. In case the student is found to be suitable and selected for internship at your organisation, we request you to send an appointment letter to the undersigned stating that the student has been selected as a trainee in your esteemed office.

The student is required to submit a documentation report (supported with copies of work done by him, duly attested by the architect) of all the drawings and site related activities undertaken under the supervision of Principal architect at the end of training period to the institution.

Thanking you

**Dr. Devyani Gangopadhyay**

Dean, School of Building and Environment

## CRITICAL OVERVIEW :

- My overall experience during the past four months has been great as I have had the privilege of participating in an architectural internship that provided me with invaluable opportunities to apply theoretical knowledge, develop practical skills, and gain hands-on experience in the field. During these months i got many opportunities to grow and learn new things in the field of work. This internship period gave me a great time to understand the work culture in the office. I have learnt how to deal with client's, Also how materials and cost affects design and more.
- My skills have improved a lot in most aspects from understanding drawings, Designing interior and elevations, Presentation, Time management, Materials, to deal with clients.
- Chief Architect gave me a lot of freedom to do what i see and fits the actual circumstances, allowed me to apply my thoughts and designs. Guided and corrected me whenever i was wrong/unaware of things. This internship training gave me an opprtunity to learn many things.
- **Positive Aspects:**
  1. Exposure to Real-world Projects
  2. Practical Skill Development
  3. Collaborative Work Environment
- **Challenges Encountered:**
  1. Time Management
  2. Dealing with Design Constraints
  3. Communication and Client Interaction
- An invaluable experience gained in my Architectural internship has contributed significantly to my professional growth. The exposure to real-world projects, development of practical skills, and working with Architects and Engineer have enhanced my understanding of the profession. While challenges such as time management, communication, and design constraints were encountered, they served as valuable learning opportunities and improved my personal and professional development. Overall, this internship has provided a very good foundation upon which I can build my future career, equipping me with the necessary skills, knowledge, and strength to tackle the challenges that lie ahead.
- I hearby thank Chief Architect **Ar.P.Gopinath sir** and team for giving me this opportunity to learn and develop my skills that will be more helpful for my future endeavors.
