ABOUT THE FIRM:

At S Squared Architects, they work with a progressive approach that allows them to maximize the efficiency of even the most complicated sites. They do climate responsive buildings in traditional architecture, classical buildings, and minimalistic designs that exude an elegant allure as well as provide energy efficiency. Their contemporary designs are also incorporated with environment-friendly materials, rendering the ideal balance of style and sustainability. Their award-winning green buildings have been very popular amongst both conglomerates and dwellers alike.

Shaji Vempanadan Varughese and Sumi Shaji, co-founders of S Squared Architects, set the ball rolling in the year 2009. The duo aims to provide contemporary designing services combined with energy efficient architecture to render stylish and environment-friendly projects. Over the years, they have built a staunch team that has efficiently executed many national and international projects.

Vision

We at S Squared Architects thrive to make the lives of people better through the spaces we design.

Mission

To hone our skills and be the masters of our profession, by challenging ourselves to constantly evolve with every new project that we take up.

CRITICAL OVERVIEW:

The internship time frame has been extremely helpful. A number of distinct tasks have been completed, comprehended, and will be applied in future work situations. The experience along with the information assembled, has prepared me to go into the architecture field after graduation. I have gained some significant experience about project advancement, association between colleagues, new things about everyday software and proper work management.

In addition to the process of learning, the people around me gave me many more valuable experiences. I was inspired by the people around me, not just as someone to learn from but also as people, their ideology, philosophy, and way of life, what they see as an architect, and how they see even the simplest things in life.
