To whomsoever it may concern

As a part of the academic requirement and the regulations of Sathyabama Institute of Science and Technology and the Council of Architecture, our student **Gayathiri.K.K (38210028)** is required to undergo professional training from the month of January 2023, for a minimum span of 90 working days in her X semester. The students are required to undergo training under a senior registered architect with a minimum of 5 years of professional experience.

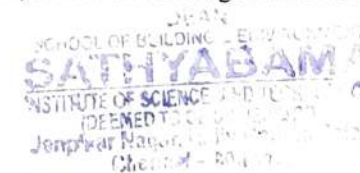

In this regard, we request you that **Gayathiri.K.K** may be given an opportunity to undergo training in your Architectural firm. In case the student is found to be suitable and selected for internship at your organisation, we request you to send an appointment letter to the undersigned stating that the student has been selected as a trainee in your esteemed office.

The student is required to submit a documentation report (supported with copies of work done by him, duly attested by the architect) of all the drawings and site related activities undertaken under the supervision of Principal architect at the end of training period to the institution.

Thanking you

Sub: Confirmation of Internship 2023 for Jan 2023 – April 2023

Dear sir/madam,

Ms. Gayathiri. K. K of the Vth year 10th semester from your college has applied for internship with our firm. We have accepted her application and taken her as an intern. Kindly treat this as a confirmation letter appointing her as intern for period Jan 2023 – April 2023.

During this training period they will be exposed to a variety of projects and site visits and to various aspects of architectural practice including and not restricted to design conceptualization, Working drawings, Services, and structural coordination etc.

They would receive a remuneration of Rs 3000 (Rupees three thousand only) per month for the duration of their training with us. We will keep an attendance of their presence here and send you monthly reports of their performance. In case there is a fixed format for the report, we would be highly obliged if you could have the same forwarded to us.

Thanking you,

Yours Sincerely,

CRITICAL OVERVIEW

ABOUT THE FIRM:

DESIGN TECH, A well renowned architectural firm in Saidapet, Chennai, established by Ar. U. Sarath Chandra kanth and Ar. Yalini Chandra kanth, in January 1999, having field experience for over a period of 20 years.

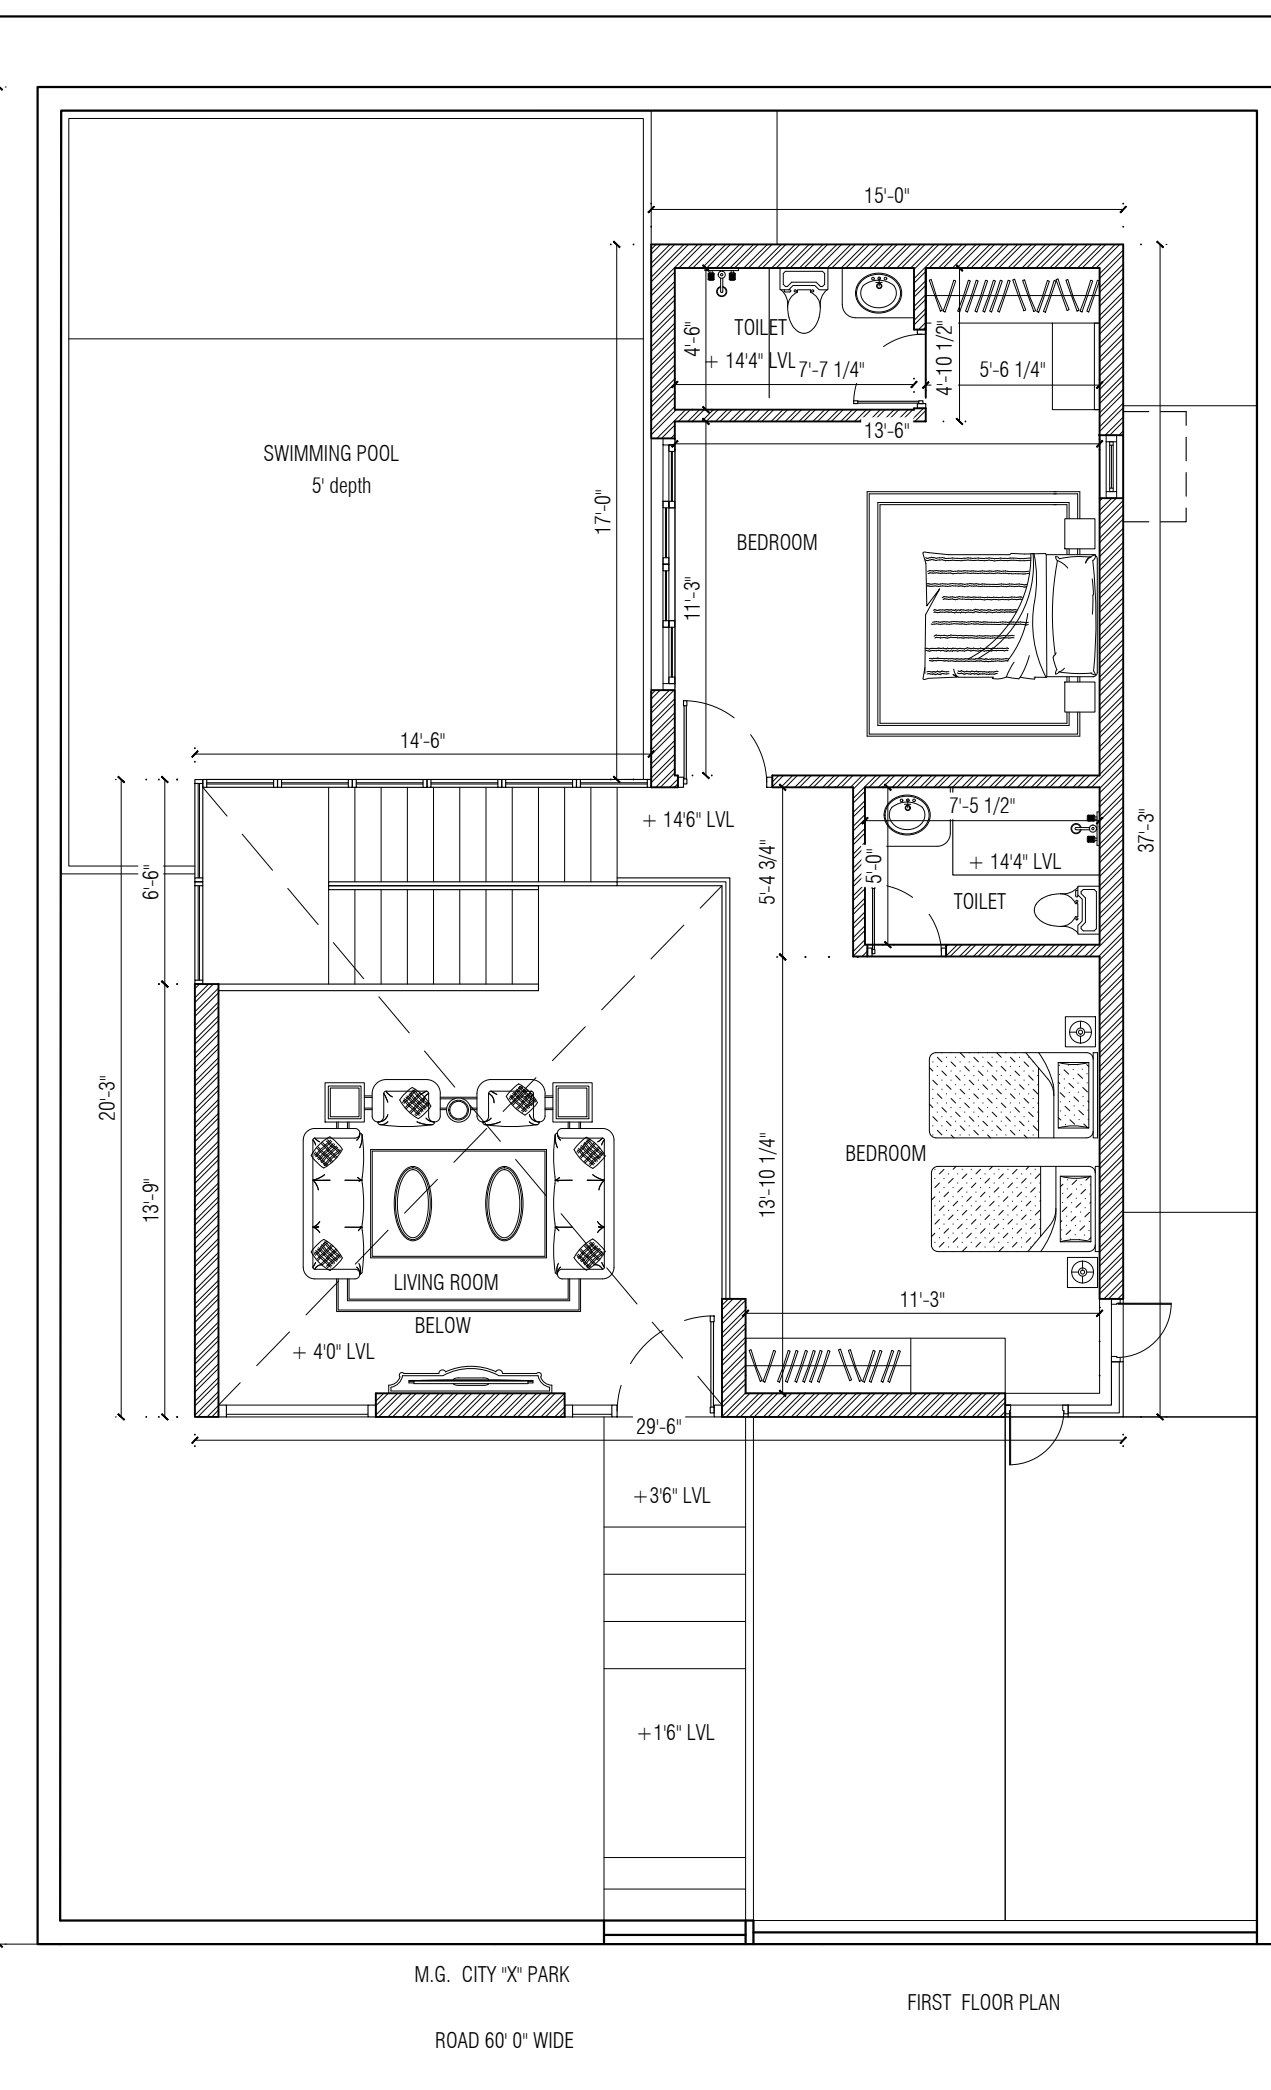

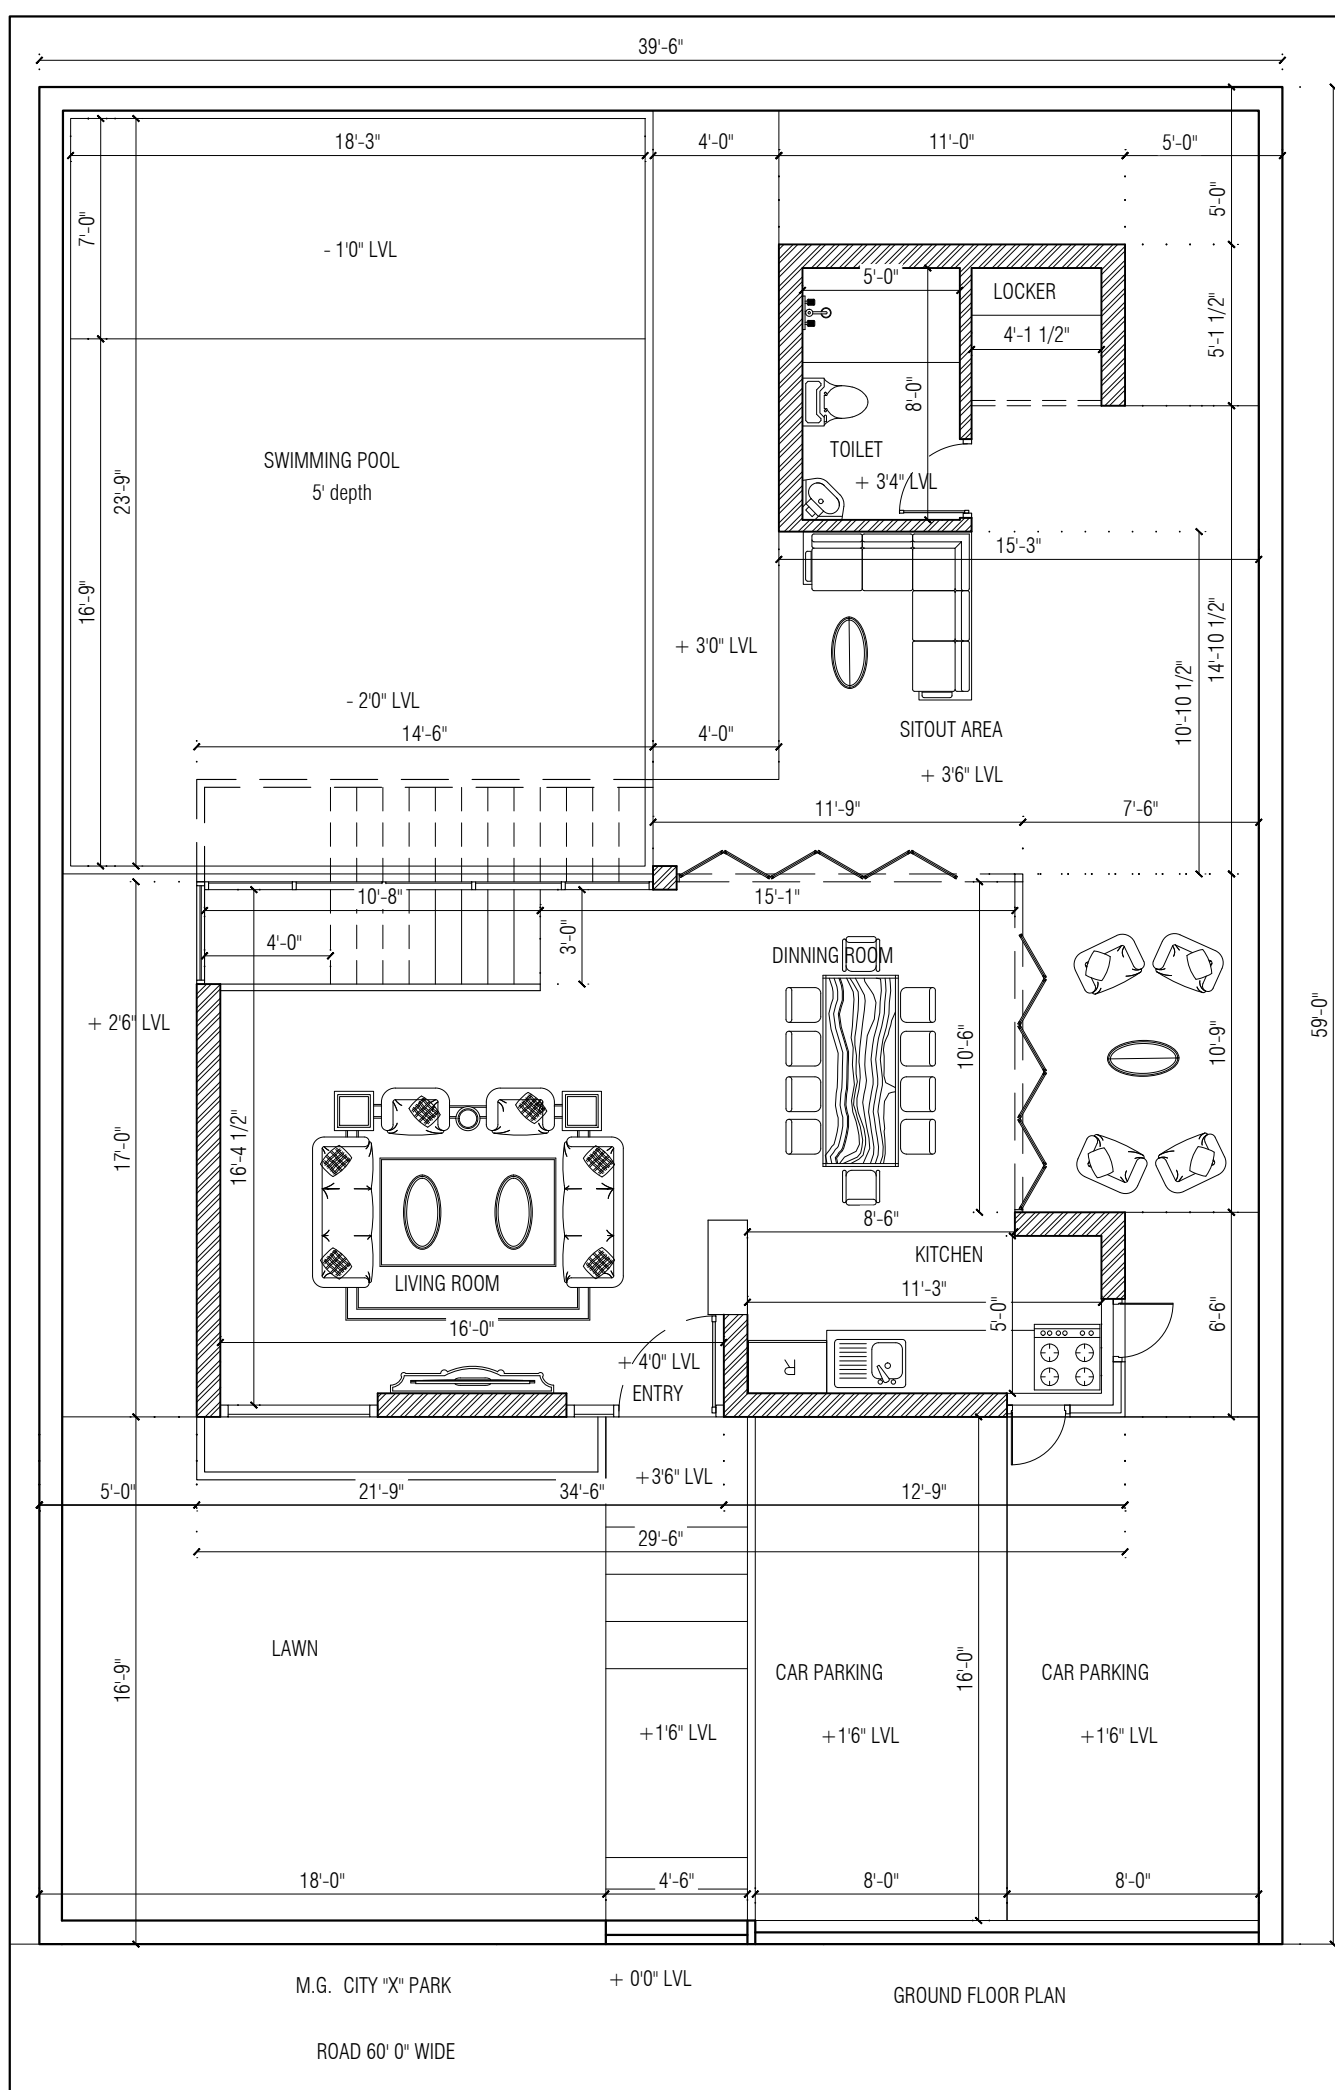

The firm handles various project typologies ranging from Hospitals, Industrial, Institutional, Commercial, Religious, Residential to Interiors.

Design tech have taken the designing of homes and infrastructure to a new level by giving the customers a home that is known for its efficiency and conscious use of energy and resources, making the overall project cost-efficient. Their goal is to give the users a dream home that are Long-time-lasting with the use of low-cost impacting material.

DESIGN TECH offers clients a contemporary style of design that are inclusive of nature. Modern architecture is a beautiful medley of organic designs which keeps a fair balance between nature and human existence. These projects are attractive to the eye and environment friendly. The team masters in keeping a keen eye to maintain the beauty and semblance between mother earth and architecture in one single frame.

CRITICAL OVERVIEW:

This entire internship period was so beneficial and eye-opener for me, showing a new perspective of architecture.

I thank my Principal Architect Sarath Chandra kanth, for not only making me work on various projects, but also teaching on every small details, and making sure that understood the entire context and the design of every project.

The entire staff team was so supportive and always open to clarify the doubts. The firm also gave a freedom of expressing my design ideas and helped me achieve that in reality.

During this entire internship period of 5 months at **DESIGN TECH**, I was exposed to various design works, from the concept stage to the completion stage, which gave a practical knowledge on design process.

To gain a better understanding on the design process, I was given an particular residential project, in which I worked on all the drawings required for construction from approval, working drawings to civil drawings.

In this internship period, I learnt more new ways and perspectives of approaching a design with a concept based on the client needs.

The design projects helped me to understand and correlate the regulations, site context and environment in the design.

Each and every work gained me a lot of knowledge and new informations. I learned the various practical aspects to be considered and monitored during any design.

I was also given the opportunity to speak to vendors, to get to know about various materials in field.

The site visits helped me understand the work of other consultants and few problems that occur during the design process.
