Date: 23 December 2022

## To whomsoever it may concern

As a part of the academic requirement and the regulations of Sathyabama Institute of Science and Technology and the Council of Architecture, our student **Kiruthika.E (38210038)** is required to undergo professional training from the month of January 2023, for a minimum span of 90 working days in her X semester. The students are required to undergo training under a senior registered architect with a minimum of 5 years of professional experience.

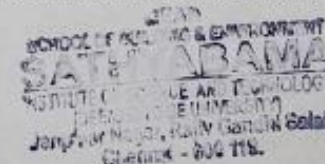

In this regard, we request you that **Kiruthika.E** may be given an opportunity to undergo training in your Architectural firm. In case the student is found to be suitable and selected for internship at your organisation, we request you to send an appointment letter to the undersigned stating that the student has been selected as a trainee in your esteemed office.

The student is required to submit a documentation report (supported with copies of work done by him, duly attested by the architect) of all the drawings and site related activities undertaken under the supervision of Principal architect at the end of training period to the institution.

Thanking you

**Dr. Devyani Gangopadhyay**

Dean, School of Building and Environment

## DECLARATION

I, E. KIRUTHIKA hereby declare that the Training Report **JANUARY 2023 to MAY 2023** done by me under the guidance of **Ar. KHWAIDAM** is submitted in partial fulfillment of the requirements for the completion of practical training session.

DATE : 08.06.2023

PLACE : CHENNAI

SIGNATURE OF CANDIDATE

## ACKNOWLEDGEMENT

I am pleased to acknowledge my sincere thanks to the **Board of Management of SATHYABAMA** for their kind encouragement in doing this practical training and for completing it successfully. I am grateful to them.

I convey my thanks to **Dr. Devyani Gangopadhyay**, Dean, School of Building and Environment and **Ar.Sarath ChandraKanth**, Design Chair, Department of Architecture for having been a constant source of support and encouragement.

I wish to express my thanks to all Teaching and Non-teaching staff members of the Department who were helpful in many ways for the completion of the project.

I wish to express my sincere and deep sense of gratitude to **Ar. Khwaidam Mohammad Almashani** , **TAMEER Engineering Consultancy, Salalah, Sultanate of Oman** for his valuable guidance, support and constant encouragement which paved the way for successful completion of my Practical training session. I also wish to express my gratitude to the entire team who gave me complete freedom to explore and experiment my ideas.

## 1.1 ABOUT THE FIRM:

TAMEER Engineering Consultancy is founded in 2007, in Oman. TAMEER provides services for engineering and architectural consulting services for designing, planning and construction. It assists for both the public and private sector Clients. They work in a practical and progressive manner along with the quality and responsive services with their team of highly professional and competent staffs.

### **Professional Affiliation**

The Member of the company is professionally registered with the Oman Society of Engineer (OSOE) and has membership with the Indian Institution of Engineers and Council of Architecture.

### **Professional Associations**

The company has developed professional associations with several progressive professional engineering institutions.

- **Class A registration** from the Ministry of Commerce and Industry.
- Government Tender Board Committee (OMAN)
- Port of Salalah, Salalah Free Zone, Salalah Industrial Area
- Business Gateway.
- Dhofar Municipality
- Muscat Municipality
- Regional Municipality

**TAMEER** is led by a very experienced hands on civil engineering professional with a wide range of skills in the built environment. The Member has previously worked as senior executives in numerous civil engineering consulting / construction / real estate firms in the past forty years. Thus the Member gained extensive experience in the industry.

## 1.2 CRITICAL OVERVIEW:

My overall experience in the last 4 months working under the team of TAMEER has been very productive and much impressive. TAMEER's office is having a wonderful learning environment, where the people are permitted to do their work and correct their mistakes through guidance thus making a practical learning . A very cordial environment to grow along with peers. During this internship period, I could find out my strengths and weaknesses in the field of architecture there by able to discover and adopt new set of skills to excel as well complete the given tasks faster.

I significantly improved my skills in designing, planning, and modelling. I could comprehend and perceive the projects which were in progress before starting the new project works. This has helped to increase my pace of working.

My Chief architect and his team has given me a peaceful working space. This internship training gave me an insight on balance between working and interaction. We were given the freedom to interact between the office hours to do it effectively as well the opportunity was provided always to ask freely about the slightest doubts I had.

At the outset, I would like to thank the Chief architect Ar. Khwaidam Mohammad Almashani and the entire TAMEER team for giving me an opportunity to learn and enhance my skills in all aspects of Architecture.
