CRITICAL OVERVIEW

My experience working at AM+P studios for the past 4 months has been positive. It has given me an opportunity to not only work on developing my skillsets but also to have an insight into the working of a studio.

The office has given me an environment to learn, adapt and develop new skillsets. It has been a window for me to be exposed to many architectural and construction details, terminologies, softwares and production formats while also understanding the various factors into execution like the scheduling of projects, client/ vendor relationships, studio to site discrepancies and such.

In conclusion, the internship was an insightful experience and has helped me understand the field better.
