ACKNOWLEDGEMENT

I am pleased to acknowledge my sincere thanks to **Board of Management of SATHYABAMA** for their kind encouragement in doing this practical training and for completing it successfully. I am grateful to them.

I convey my thanks to **Dr. Devyani Gangopadhyay**, Dean, School of Building and Environment and **Ar.Sarath Chandra Kanth**, Design Chair, Department of Architecture for having been a constant source of support and encouragement.

I wish to express my thanks to all Teaching and Non-teaching staff members of the Department of who were helpful in many ways for the completion of the project.

I also wish to thank **Ar.SHOBANA** for the experience of interning at their firm.

1.1 ABOUT THE FIRM:

RSA is a one-stop shop for Architecture, Interior Design and allied services. Founded in 1980 by **B.Rajappa** and **Shobana Rajappa**, both Alumni from School of architecture and planning, Chennai, this architecture firm has steadily churned out more than 200 unique projects in Tamil Nadu. With considerable competency in Hospital design, Factory and Institutional design, Residential spaces and Office design, RSA has been one of the most sought after firms in Chennai.

With a strong foundation of the founders' experience and knowledge, RSA's young and talented team headed by **Samyuktha Ayyappan**, also Alumnus from SAP, Chennai, continuously endeavors to create functional yet innovative designs that excite the clients as well as the team.

The team comprising Senior Architects, junior Architects, Architectural interns and Interior designers work with Structural engineers, Landscape artists and other allied service providers to give comprehensive solutions. Perfectly in tune with the customer centric approach of the organization, the personnel at all levels strive to understand the exact need of the customers and give them the advantage of customized and quality solutions under one roof.

We believe that good design stems from the Project requirements as well as the resources available, which is why getting an in depth understanding of our Clients, their lifestyles and the space to be designed is of utmost importance to us. Personal involvement in the projects has not only helped in customer satisfaction, but has also helped build long term relationships with the clients.

This quality has been our biggest asset along with our design capabilities and efficient delivery mechanisms.

"Happy Clients + Happy Workforce = Success" has been our mantra for more than 30 years and this has driven us to approach every project, irrespective of the size and complexity with full commitment and enthusiasm.

CRITICAL OVERVIEW

My overall experience in the firm through the last 4 months working has been great and it has given me the opportunity to grow in the field of Architecture. Given many opportunities to develop my skills and freedom to explore and learn new things in their work space as an Architect.

My Senior Architect gave me a lot of guidance throughout the internship and gave me the liberty to work in any project to learn and improve my skills in different aspects like working drawing, detail drawing, section and got to understand how the work flow in an Architecture firm happens and also how one gets to respond actively to the work that is being appointed to them. Now I have significantly improved understanding on how a project works from the beginning stage till the end of the construction stage and to fulfil exactly what the client wants and design according to the expectations.
