THE PALOMAR HOTEL

2.1 CRITICAL OVERVIEW:

My overall experience in the last 4 months working under the team of ZIONARCH ARCHITECTS has been very productive and much impressive. ZIONARCH ARCHITECTS's office is having a wonderful learning environment, where the people are permitted to do their work and correct their mistakes through guidance thus making a practical learning . A very cordial environment to grow along with peers. During this internship period, I could find out my strengths and weaknesses in the field of architecture there by able to discover and adopt new set of skills to excel as well complete the given tasks faster.

I significantly improved my skills in designing, planning, and modelling. I could comprehend and perceive the projects which were in progress before starting the new project works. This has helped to increase my pace of working.

My Chief architect and his team has given me a peaceful working space. This internship training gave me an insight on balance between working and interaction. We were given the freedom to interact between the office hours to do it effectively as well the opportunity was provided always to ask freely about the slightest doubts I had, Which helps to gain more knowledge in the field and they also explained how it actually works during Site visits

At the outset, I would like to thank the Chief architect Ar. A.K. Pandian and the entire ZIONARCH ARCHITECTS team for giving me an opportunity to learn and enhance my skills in all aspects of Architecture
