# CONSOLIDATED CERTIFICATE

Aspirations ...  
architects engineers

22<sup>nd</sup>, October'2022

## TRAINING COMPLETION CERTIFICATE

This is to certify that **Ms. Kayal Vidarrshana R**, student of **SATHYABAMA INSTITUTE OF SCIENCE AND TECHNOLOGY**, has worked for **ASPIRATIONS ARCHITECTS AND ENGINEERS** as an intern for a period from 13.06.2022 To 22.10.2022 (95 working days). Her responsibilities included design development, presentation, submission drawings, etc on architectural practice.

During internship she demonstrated good design skills with self-motivated attitude to learn new things, she handled projects with sincerity and efficiency. Her interpersonal skills are outstanding and has been highly appreciated by her seniors.

With her enthusiasm to work, learn and progress, she would make a great employee to any enterprise.

We wish her all the Best for her future prospects.

For Aspirations Architects and Engineers

  
(B. Sanjay - B. Arch.)

## 1.1 ABOUT THE FIRM:

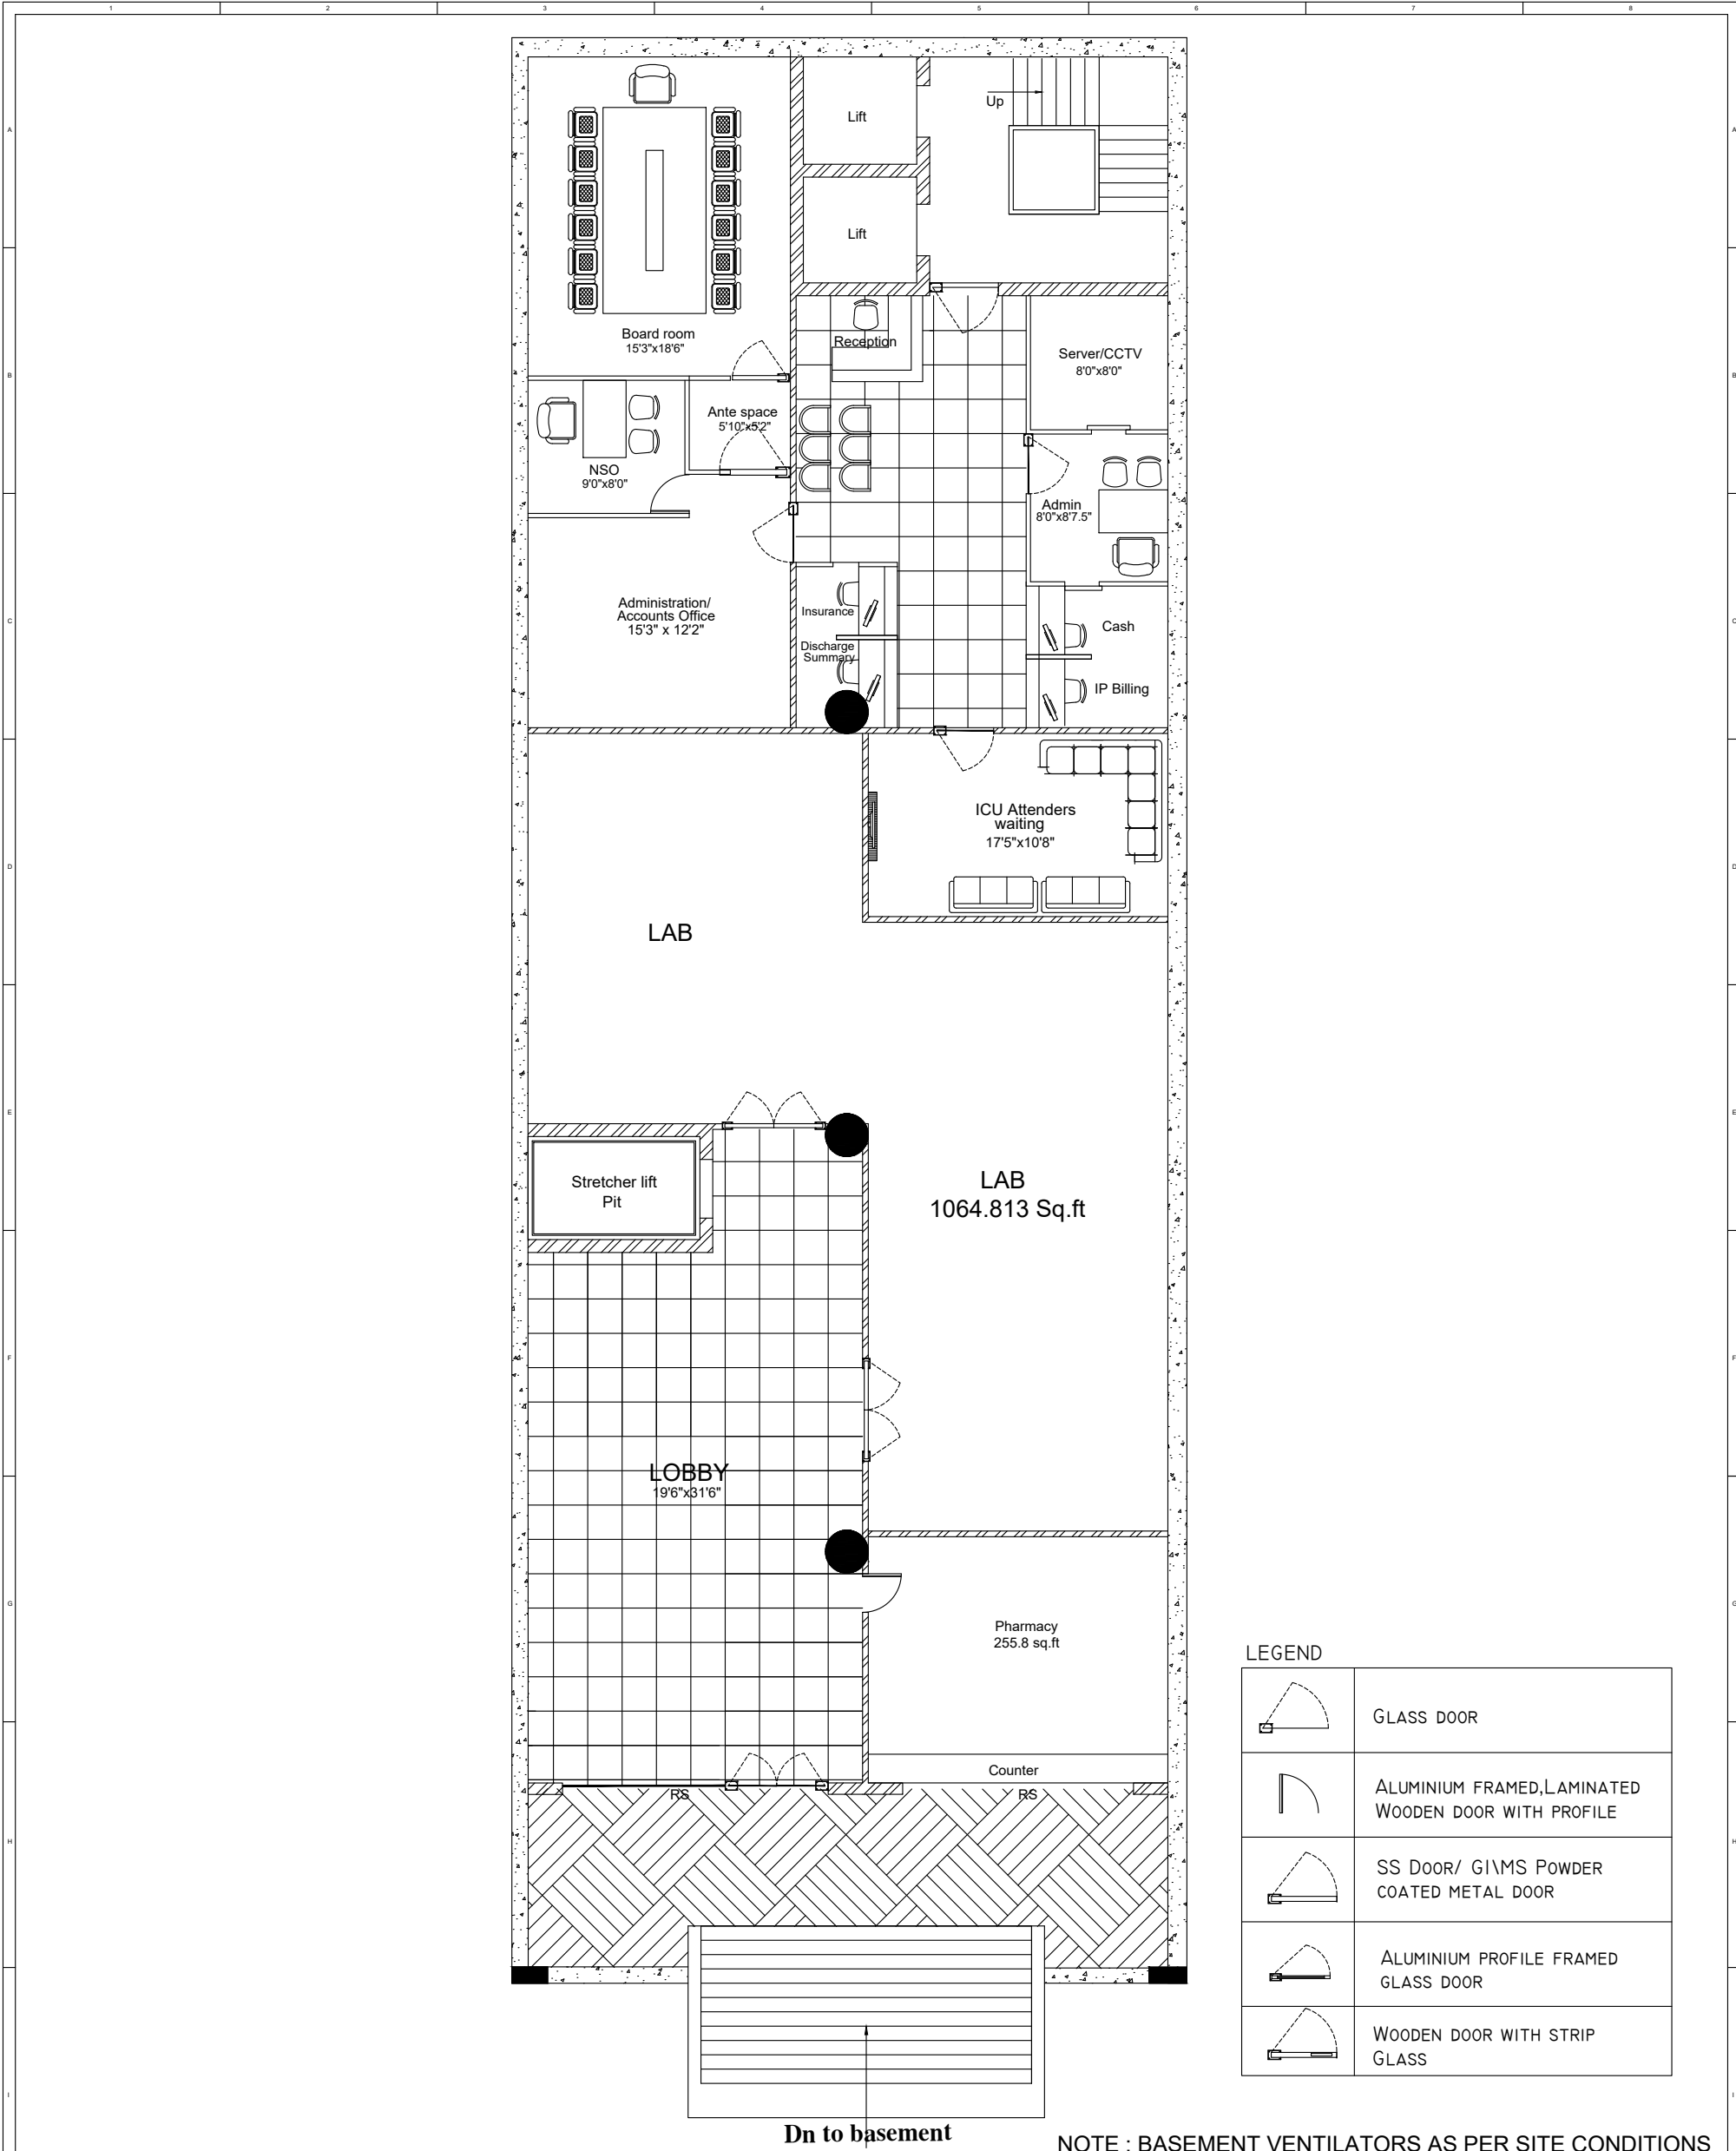

The firm in which I had undergone my internship was, **Aspirations Architects and engineers**. It is established and owned by architects B.Sanjay and S.Jayaprakash. The firm has been running for 24 years. I was guided and mentored by Ar. Sanjay.

The firm has done many projects such as residence, commercial spaces and hospital works. they specialize in hospital projects and have done many projects. They specialize in interior designing too.

# PROJECT 1

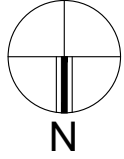

## HITECH HOSPITAL , Kilpauk

(An existing building had been proposed to be converted into a BMT specialty hospital by HITECH group. I've worked on floor plans with requirements from the clients.)

## **1.11 CRITICAL OVERVIEW :**

At the end of my internship period, I've worked on different projects such as hospitals and residences and have learned many new things.

Working on hospital projects , which is a large scale project was interesting as it was a new subject to work on. Learnt on how hospitals works, and design's impact on its spaces and how to plan the space, with its need.

Working on residence projects, were familiar yet each residence was different and unique and worked on different spaces like elevation and electrical layout.
