Founded in 2016, KMV Spaces' has only one vision: to revolutionise the way spaces are built in India. For the world's fastest growing country, far lesser concentration has been placed on the kind of dwellings that are being erected across the nation. Under the wing of KMV Group, spearheaded by Prudhvi Ram K, KMV Spaces started out in the city of Vijayawada, establishing a highly credited name with its luxury project KMV Vivaan in 2016, building world class apartments and villas designed by WOW! Architects of Singapore. The homes have introduced spacious and futuristic living to the emerging city of Vijayawada, with large green terraces and sustainable systems.

The Parent Company

From humble beginnings more than 100 years ago, KMV is now one of the leading engineering and construction company operating in eleven states across India.

Headquartered in Hyderabad, Telangana, KMV Group has undertaken many prestigious projects, including Pondicherry Airport, IIM Indore, IIT, ICFAI (Bangalore and Jaipur), AIIMS (Nagpur, WB, Mangalgi), NTPC Solapur, Bangalore Medical College, Metro Stations Jaipur, and many more hospitals, educational institutions, irrigation projects, roads and important infrastructure for the nation, with the latest being Delhi Airport's Elevated Taxiway. Providing quality construction has been at the core of KMV Projects and its what has been bringing clients back to us.

NOTES (continued)
For general notes refer drawing.
All dimensions and levels are in millimeters, the drawing is to be read and understood.
This drawing is a copyright property of the architect. It is to be used for the project only and not for any other purpose without the written consent of the architect.
The contractor must check all dimensions on site and be responsible for the same. Any discrepancy should be brought to the attention of the architect.
For all specified materials and details refer to the architect's specifications.
The contractor must provide all necessary shop drawings for the architect's approval prior to construction.
The drawing shall be read in conjunction with all relevant documents and specifications. Any discrepancy referred shall be brought to the attention of the architect and a written order shall be issued as soon as possible, but always prior to commencement of work.
All work shall remain until the building is sold in its final form.
