1.1 ABOUT THE FIRM:

NEST is a multidisciplinary team of young Architects and Designers who believes in Uniqueness in every design involved with creativity satisfying the user's needs. We strongly presume that Architecture Reflects the Way of Living. Our ultimate focus is the user and how they relate to a space, not only in terms of their physical comfort but also their sense of belonging. As budding designers, we intend to integrate aesthetics with functionality.

IMAGINATIONS are not CREATED but built, so here we are NESTED to build your dreams. NEST is a multidisciplinary team of young Architects and Designers who believes Uniqueness in every design involved with creativity satisfying the user's needs. We strongly presume that Architecture Reflects the Way of Living. Our ultimate focus is the user and how they relate to a space, not only in terms of their physical comfort but also their sense of belonging.

As budding designers, we intend to integrate aesthetics with functionality. We wish to design a space wherein walking out prompts the need to enter again. Nest provides Design services in architecture, interior design, master planning, landscape and product design. We design a wide range of residential buildings – Villas, Individual residences, Row houses, Flats, Apartments, Townships, Gated communities – and commercial buildings – School, Showrooms, Hotel and Office complexes, etc. We DESIGN and also EXECUTE all the above buildings as well.

CRITICAL OVERVIEW:

Working in office was a completely different experience compared to how we work in college. From mm to ft.in itself is a big difference, still I was able to adapt to it quicker than I thought with the help of the junior architect and principal architect. I was able to learn a lot of things in a span of three months, from how to draft a proper plan to how to handle a client. I also visited a lot of sites, interacted a lot with people working there and learnt a lot more about the materials. I'm still lagging behind in render softwares but I'm sure I would be able to learn it sooner. Other than that I was able to learn about interior designing which I had no idea on how it works.
