Dear Sai,

I am delighted to offer you admission to the Master of Science in Computer Science within the Graduate School of Arts & Sciences (GRS), beginning in the Fall 2023 semester. Admission into our programs is highly competitive, and you have been selected from among a large number of applicants based on the strength of your academic record and your potential to succeed in our program.

We hope you will strongly consider becoming a member of our incoming class of graduate students. Please respond to our offer of admission by May 11, 2023, through our Applicant Gateway. Instructions for accessing the Gateway will be emailed to you shortly. You will be asked to submit a non-refundable tuition deposit of \$500 to secure your place in the program.

Once you have accepted our offer and submitted your deposit, you will receive a welcome email containing important information to assist you in the transition to your graduate program here at GRS.

Additionally, you will receive, via email, a list of required documentation for international students, as well as instructions on how to submit these materials. This will allow our International Students and Scholars Office (ISSO) to create your I-20.

Congratulations and I look forward to welcoming you to Boston University!

Sincerely

Sai Gubbala

Degree: Master's in Computer Engineering

Term: Fall 2023

Method: In Person

Dear Sai,

NYU Tandon School of Engineering is pleased to offer you a Graduate scholarship of \$7,000 per year, renewable on a semester basis and subject to the renewal criteria listed below.

Disbursement: The scholarship is equally split between Fall and Spring semesters. Summer and Winter terms are not covered.

Renewal Criteria: Eligibility for renewal is reviewed at the end of each Fall and Spring semester. As this award is a merit-based scholarship, in order to be eligible for renewal, you must have a term GPA of 3.33 or higher after your first semester, and a cumulative GPA of 3.33 or higher after each subsequent semester. Additionally, you must earn a minimum of 80% of your attempted credits for the duration of your graduate program.

Continued Progress: A review of your Satisfactory Academic Progress (SAP) will be completed after every semester in which you are enrolled (Fall and Spring only). Should you fail to meet the GPA requirements or should you fail to complete 80% of your total attempted credits, you will no longer receive this scholarship, and you will be ineligible for reinstatement of the scholarship in any subsequent semester.

Other terms of Eligibility: You must maintain full-time status at NYU Tandon School of Engineering. This requires that you register for a minimum of 9 credits each semester. If you drop below 9 credits at any point in the semester, you will lose your scholarship for that semester and going forward. Students are advised to plan their semester schedules accordingly.

For students who are in their final graduating semester, scholarship awards will be prorated for those registered in 3-8.5 credits. Those registered in less than 3 credits will not be eligible to receive a scholarship.

This award may not be combined with any other institutional aid that may be offered to you.
