

Congratulations Vijay Kumar!

On behalf of the administration, faculty, and staff, I am pleased to inform you of your admission to the University of Illinois at Springfield for Spring 2024 in the Cybersecurity Management (MS) program! Your admission is an invitation to join the world-class U of I family. We are proud of your accomplishments and look forward to your contributions to U of I Springfield!

All students in the University of Illinois system are assigned a University Id Number (UIN); your UIN is 673316164. You will need this number to access your personal information at UIS. You have been admitted as "International, Out-of-State" for tuition purposes.

You will receive an activation token to set up your UIS account within three days. Be watching your email for this important item.

You have been assigned the following program advisor:
Neetu Singh

Admission is contingent upon certain conditions, including, but not limited to, successful completion of a criminal history review and all college coursework. You must formally accept our offer of admissions by completing the online Intent to Enroll form before you will be able to register for classes. Please see our next steps for admitted students <<https://www.uis.edu/admission-aid/admitted-students>>, where frequently asked questions are addressed and check your application status page often for any outstanding requirements.

We pride ourselves on the close relationship of our students and faculty. You are encouraged to contact your chosen academic program office to arrange advising at mis@uis.edu.

Again, Vijay Kumar, welcome to the University of Illinois at Springfield! Please contact us if we may be of additional assistance to you in any way. We look forward to hearing from you soon.

Congratulations and Best wishes,

Kathryn Kleeman
Director of Admissions

UIS
