Dear Sharan Mahalingam,

I am pleased to inform you that the University of Wisconsin-Madison Information School (iSchool) has admitted you to our Master of Science (MS) Information program for Fall 2023. Congratulations! We have recommended your admission to the University of Wisconsin-Madison. After the UW Graduate School processes your admission, you will receive an official letter of admission directly from the Graduate School.

Once you receive the letter from the Graduate School, you are required to accept or decline the offer of admission. To do so, login to your application and check the accept or decline button on your status page by April 15, 2023. Login here: <https://apply.grad.wisc.edu/Account/Login>

Prior to accepting, please review the 2023 MS Information Handbook for program requirements and course planning guide:

2023 MS Information Handbook: <https://uwmadison.box.com/s/55bnz2vibk5odsfnfziy39hxndv1r50ue>

Course Planning guide: <https://uwmadison.box.com/s/n97iwl64jhjaweznqi9456hsvx8caed>

To help you make your decision, watch for our UW-Madison iSchool e-mail messages to read information on living in Madison, student job opportunities, funding your education and more. The iSchool will communicate important information via e-mail.

Mark your calendar with these important dates:

Last week of June: New graduate students are eligible to enroll in Fall 2023 courses. You will access your exact enrollment date and time via the MyUW Madison Student Center website at least a week in advance. The iSchool will send you information about fall course enrollment in June and will offer a virtual advising Q&A session prior to registration for fall.

First week of September: Mandatory Orientation for all incoming MS Info students.

Wednesday, Sept. 7: Classes officially begin.

Funding Resources

Funding your education is likely a top concern.

If you are eligible to do so, apply for U.S. federal financial aid with the UW Office of Financial Aid, <https://financialaid.wisc.edu>

There are many ways to fund your education, including scholarships, and hourly campus employment.

Students in this program are eligible to be hired for teaching, research, or project assistant positions at UW-

Madison, however they will not receive tuition remission from these positions. More information can be found at, <https://grad.wisc.edu/funding>

The iSchool will send out merit based scholarship information to all applicants selected to receive a scholarship by February 28, 2023.

Learning Accommodations

The iSchool values diversity and supports an accessible learning environment for every student. If you anticipate requiring accommodations, please contact the UW-Madison McBurney Disability Resources Center, <https://mcburney.wisc.edu/>

QUESTIONS? Jenny Greiber serves as coordinator for admissions and internal scholarships, jgreiber@wisc.edu

Once again, congratulations! We hope you will join us.

Sincerely,

Dr. Alan Rubel

Professor and Director
