SCHOOL OF ALLIED HEALTH SCIENCES

MINUTES OF THE BOARD OF STUDIES MEETING (28 SEP, 2020)

The first Board of Studies Meeting was held on 28th September 2020 at 12.00 noon virtually.

Agenda for the BOS meeting:

Newly Proposed Programs – B.Sc. Medical Laboratory Technology and BSc. Clinical Nutrition Dietetics - Expert Review and Comments on the Syllabus.

The BOS meeting has been convened today 28 September, 2020 to frame the new curriculum and syllabi for the Newly Proposed Programs B.Sc. Medical Laboratory Technology and B.Sc. Clinical Nutrition Dietetics implemented from the Academic year 2020 - 21.

1. Dr. Wilson Aruni started the meeting by giving an over view about the University from its inception and various courses being offered by the University. He described about the process of syllabus revision by enumerating various steps that were adopted by the University in bringing out a new syllabus.
2. A new syllabus for a total of 14 theory papers and 13 practical papers in B. Sc Medical Laboratory Technology, 13 theory papers and 14 practical papers in B. Sc Clinical Nutrition & Dietetics has been prepared and being kept before the panel of Board of Studies for their approval.
3. A copy of the syllabi framed by the Internal BOS members was sent a month in advance to the External Members according to their specialization and field of expertise for their review. Their valuable suggestions and comments were received well before the meeting and modifications have been carried out and kept before the members today for further discussions.
4. The suggestions which were received during review by External BOS members were placed before the full board for subsequent modifications were discussed exhaustively in the meeting.

5. The content of syllabus for each subject was discussed in detail, taking into consideration of the prerequisite knowledge, references of syllabi followed in other premier Universities and feedback obtained from Industries, Recruiters and other experts in that subject.
6. The topics in each subject were carefully scrutinized to have relevance to the latest technologies.
7. The members also gave their suggestions of the Text books and Reference books that could be included along with the existing list of books.
8. The importance of gratifying the Industrial needs was stressed and accordingly the concept of Internships has been introduced into the curriculum. This was welcomed and appreciated by all the members.
9. The Board members finally reviewed the changes that have been implemented as per the discussions held.
10. All their suggestions and comments have been noted and corresponding alterations were done in the syllabi.
11. The External Members appreciated the content as well as the depth of syllabi in the curriculum.
12. The Internal marks of 50 and External marks of 50 for each subject has been agreed in total and appreciated by all the members.
