Date: 29.12.2021

Time: 11.00 AM

Mode: Virtual

Zoom: Meeting ID: 834 1185 8948

Password: 123456

Agenda:

Review of 2019 Curriculum and 2020.2021 Curriculum for regular and specialization courses

The BOS Committee Members discussed the Curriculum for the different programmes and expressed full satisfaction of the curriculum. No changes were proposed.

Convener: Dr.T.Sasikala, Dean School of Computing

External Members:

Academic Expert

- Dr.T.G.Sambanthan, Professor & Head, Department of Computer Science & Engineering NITTTR, Chennai. *T. Sambanthan*
- Dr.RiyazAhamed, Senior Lecturer, School of computer science and Engineering, Taylor's University, Malaysia *Riyaz*

Industry Experts

- Mr.Rajan Thiagarajan, Delivery Head, Blitzscale Software Solutions Pvt Ltd. *Rajan*
- Mr.Pugalenth, Head of Engineering, TrustFour Technologies. *ym*

Internal Members:

- Dr.L. Lakshmanan, HoD, CSE *L. Lakshmanan*
- Dr.S.Vigneshwari, HoD, CSE *S. Vigneshwari*
- Dr. B. Bharathi, Professor, CSE *B. Bharathi*
- Dr.Prince Mary, Associate Professor, CSE *P. Mary*
- Dr.A.MaryPosonia, Associate Professor, CSE *A. MaryPosonia*
- Dr. Usha Nandhini, Associate Professor, CSE *Usha*
- Ms. Ramya Franklin, Asst. Professor, CSE *R. Franklin*

Minutes of Board of Studies Meeting

Date: 21.5.2021

Time: 11.00 AM

Mode: Virtual

Zoom: Meeting ID: 834 1185 8948

Password: 123456

Agenda:

1. Approval of curriculum and syllabus for the newly introduced programmes.
 - B.E – CSE with specialization in Artificial Intelligence and Robotics
 - B.E – CSE with specialization in Cyber Security
 - B.E – CSE with specialization in Block Chain Technology
 - B.E – CSE with specialization in Artificial Intelligence and Machine Learning
 - B.Sc – CS with Artificial Intelligence
 - M.Sc– CS
2. Review and approval of the course contents for the following courses –
 - Design Thinking and Innovation.
 - Universal Human Values
 - Programming for IOT boards Lab for B.E-CSE-IOT
 - Open Elective has been introduced in 5th semester for regular computer science and specialization courses from 2021.

BOS/ Item No. 1

The HOD deliberated the contents of the syllabus devised for new programmes introduced in the department during the academic year 2021-2022.

- B.E – CSE with specialization in Artificial Intelligence and Robotics
- B.E – CSE with specialization in Cyber Security
- B.E – CSE with specialization in Block Chain Technology
- B.E – CSE with specialization in Artificial Intelligence and Machine Learning
- B.Sc – CS with Artificial Intelligence
- M.Sc – CS

BOS/ Item No. 2

- Mr. Singaravelu and Dr. T. G. Sambantham suggested that the inclusion of Design Thinking and Innovation course for the second year students that could help the students to understand the prototypes of business models.
- The head of the department suggested the inclusion of Universal Human Values for the second years to inculcate moral ethics and values.

Action Taken

- The courses such as Design Thinking and Innovation and Universal Human Values are included.

General Recommendations:

- There should be some commonality in the semesters where the common papers are present.
- We can bring in industry experts and hold special sessions to incorporate functional programming.
- Fundamental concepts should not be disturbed in any way.

Convener: Dr.T.Sasikala, Dean School of Computing

Minutes of Board of Studies Meeting

Date: 29.6.2020

Time: 11.00 AM

Mode: Virtual

Zoom: Meeting ID: 834 1185 8948

Password: 123456

Agenda:

1. Discussion of curriculum and syllabus for the following programmes
 - B.E – CSE with specialization in Artificial Intelligence
 - B.E – CSE with specialization in Data Science
 - B.E – CSE with specialization in Internet of Things
2. Review of 2015 curriculum and 2019 curriculum.
3. Updating the course contents of Python and problem solving techniques
4. Updating the course contents of problem solving techniques lab
5. Revision of the Programming with C and C++ course contents.
6. Approval of Society 5.0 course.

Prof.Dr.T.Sasikala, Convener, BOS gave the introductory comments. The members reviewed the 2015 curriculum and 2019 curriculum and the following decisions were taken.

Bos-Item-No:1

- Based on the feedback given by students and faculty members, Programming in C and C++ was shifted from second semester to the first semester and Python programming was shifted from the first semester to the second semester.
- The "Programming in C and C++" content was revised to include problem solving concepts.
- Python Programming course content was also revised.
- The course contents of Society 5.0 was approved by the members. This subject will replace Industry 4.0 in the 2019 curriculum.

- The following comments were received about the three new programmes.

Course/ Semester	DATA SCIENCE	IOT	ARTIFICIAL INTELLIGENCE
Sem1	PST with C and C++ Lab: PST Lab	PST with C and C++ Lab: PST Lab	PST with C and C++ Lab: PST Lab
Sem2	Data Structures and Algorithms	Data Structures and Algorithms	Data Structures and Algorithms
Sem 3	Python for Data Analytics can be changed as Python Programming	Computer Communications-> DCN+Basic analog merged Embedded system, Theory +Lab incorporated. Java Programming Theory+Lab removed from sem3 Discrete Mathematics Database Management Systems Computer Communication Software Engineering Database Management Systems Lab	Design thinking syllabus need to incorporate Framework + Basic design thinking principles Computer Communications-> DCN+Basic analog merged Discrete Mathematics Database Management Systems Database Management Systems Lab Theory of Computation Introduction to Robotics Robotics Lab
Sem 4		Software Engineering To be moved to sem 3 SDN Moved to Sem 4 Machine Learning Essentials Theory and Lab to be introduced. Iot and its Architecture shifted from sem 6 to Sem 4 Image processing to be moved to next semesters Data Communication and Computer Networks can be combined together with Basic Analog and digital communication (Subject name: Computer networks and Communication credit - 3) moved to sem 3 Probability and Statistics Industry 4.0	Operating System and operating system lab moved to 5th semester Industry 4.0 is added Microprocessor and computer architecture combined as one subject Machine Learning Essentials to be introduced+Lab Introduction to IoT +IoT Lab is moved from 5th semester Probability statistics Industry 4.0 Machine Learning Essentials Machine Learning LAB foundations of Artificial Intelligence Microprocessor and computer architecture Introduction to IoT IoT lab

Sem 5	Deep Learning course can be moved to elective	, IoT Architecture and its Protocols moved to Sem 4 from Sem 5 , Privacy and Security in IoT to be removed and introduce Cryptography and Network Security Image Processing Theory and Lab shifted from Sem4 to Sem5 Mobile Application Development for IoT Theory and Lab shifted from Sem 6 to Sem 5 Fog & Cloud Computing Moved to Sem 5 from Sem 7 Wearable Computing moved to Sem5	big data and analytics combined together human computer interaction added with revised syllabus Fog & Cloud Computing in Sem 5 knowledge management system moved from elective to core Data Analytics for AI operating systems operating systems lab fog and cloud computing human computer interaction big data analytics lab knowledge management system
Sem 6	Natural Language processing to be moved from 7th sem to 6th sem	Mobile Application Development can be moved to sem 5 Computational intelligence introduced in sem6 IoT for Multimedia Technology moved from Sem4 to Sem6 Java Programming for IoT + lab introduced	Compiler Design moved to elective Deep Learning & Machine Learning to be in Semester 4 Computational intelligence introduced in sem6 - moved from elective robotics automation and simulation predictive and advanced analytics robotics automation lab natural language processing natural language processing lab
Sem 7	Principles of Management and Professional Ethics-common subject	Principles of Management and Professional Ethics - Common subject Wearable Computing moved to sem 5 Cyber Physical System Theory and Lab introduced in sem7	Principles of Management and Professional Ethics common subject cyber physical systems with lab is shifted from semester 6 computer vision is shifted from elective to core
Sem 8	Resource Management Technique as a common subject	Resource Management Technique as a common subject	Resource Management Technique as a common subject

Elective		Instead of Unix internals, Windows/Linux internals can be suggested. Cryptography and Network Security Computational Intelligence To be made as mandatory subject in sem 7 or sem 8	Deep learning moved to elective compiler design moved to elective knowledge management system moved from elective to core
----------	--	--	--

General recommendations:

- There should be some commonality in the semesters where the common papers are present.
- We can bring in industry experts and hold special sessions to incorporate functional programming.
- Fundamental concepts should not be disturbed in any way.

Minutes of Board of Studies Meeting

Minutes of the BOS Meeting -2020 combined Board of Studies (UG and PG) Meeting held on 11th November, 2019 at 10:00AM, Placement Conference Hall, Sathyabama Institute of Science and Technology, Chennai.

Agenda:

1. Review of 2015 curriculum and 2019 curriculum.
2. Updating the course contents of Python and Problem Solving Techniques lab.
3. Revision of the Fundamentals of Python Programming syllabus for the Other departments.
4. Inputs for framing of 2020 B.Sc. Computer Science Curriculum.
5. Interchange of Problem solving technique using python programming in I Semester and Programming in C and C++ in II Semester of 2019 Curriculum for B.E-CSE

Prof.Dr.T.Sasikala, Convener, BOS gave the introductory comments. The members reviewed the 2015 curriculum and 2019 curriculum and the following decisions were taken.

- The revised course contents of Python and Problem Solving Techniques lab course for School of Computing and Fundamentals of Python Programming for School of Bio and Chemical were also approved.
- The members approved the Interchange of Problem solving technique using python programming in I Semester and Programming in C and C++ in II Semester of 2019 Curriculum for B.E-CSE .
- The BOS members discussed the 2020 B.Sc curriculum and gave their valuable inputs regarding the same.

Members Present:

Convener

SCHOOL OF COMPUTING

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Minutes of Board Of Studies Meeting

Board of Studies meeting held on 30th March, 2019 at 11:00 AM, at Conference Hall, Vice Chancellor's Office, Sathyabama Institute of Science and Technology, Chennai.

The BOS meeting was convened on 30th March, 2019 to frame the new curriculum and syllabi of School of Computing for the academic year 2019-2020.

Agenda:

1. The syllabus revision was done for the B.E. CSE.
2. The syllabus of B.Sc CS was discussed
3. The contents of the syllabus for each subject was discussed in detail taking into consideration the relevance to the latest technologies
4. New subjects with credits of 15 have been introduced in curriculum 2019.

The Dean, Dr.T.Sasikala greeted and welcomed all the Board of Studies members. The HOD and the faculty members of the School of Computing attended the meeting and interacted with the expert members.

The Dean, Dr.T.Sasikala gave a brief introduction of the School and the various courses being offered. The Dean further described the process of syllabus revision by enumerating the various steps that were adopted in framing the new syllabus.

BOS/Itemno.1

The BOS Committee Members discussed the Curriculum 2019 and suggested the following inputs that incorporate in the Curriculum 2019.

Mr. T.G. Sambanthan suggested the following key points for drafting 2019 curriculum

- Include OOPS concepts in Programming Languages.
- Aurdino, IoT hardware structure can be included in the unit 4 and 5 of the Microprocessor & Microcontroller course.
- Web Design and development can change from 6th semester to 5th semester and could be renamed as Customer interface design and development. UX and UI also are a part in this subject.

Dr.Raymond stressed to modify

- The Basics of Web design and development need to be included as an Add on course in Semester 3 (along with code optimization and debugging-I).
- Computer Graphics Course to include in 5th semester.
- Unix internals to be included in Operating Systems subject

BOS/Itemno.2

Mr.Singaravelu Ekambaram , Prof. Banshidhar Majhi, Mr. Somasundaram suggested the following keypoints fro drafting 2019 curriculum.

- Testing to be included in Software Engineering syllabus.
- The Quality Engineering elective to be include in 5th Semester
Where in integrated development and testing need to be taught(An alternate for SQAT)
- Tutorials to be introduced for almost all the subjects which initiates self regulated learning.
- Computational Complexity could be included in 7th Semester as a departmental elective.
- Programming languages could be renamed as Programming with C and C++

The closing meeting was chaired by the Vice Chancellor of Sathyabama Institute of Science and Technology and the vote of thanks was given by the Dean, School of Computing.

BOS/Itemno.3

Mr.Nagaveer suggested that Mathematical paper is suggested in M.E curriculum. (Advanced Optimization techniques) In PG Curriculum

General Suggestions:

1. Tutorial hours suggested
2. Course outcomes to be redesigned

Members Present:

Convener

Dr.T.Sasikala, Dean, School of Computing.

External Members

Academic Experts

1. Dr.T.G.Sambanthan, Professor & Head, Department of Computer Science & Engineering NITTTR, Chennai.

SCHOOL OF COMPUTING

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Minutes of Board of Studies Meeting

Minutes of the Board of Studies (UG and PG) Meeting held at CSE Ground Floor LAB on December 17, 2018 at 10:00 A.M.

Date: 17.12.2018

Time: 10.00 am

Venue: CSE Ground Floor LAB

Agenda:

Approval for inclusion of new course in the 2015 curriculum

- SCS4305-Python Programming with Machine Learning Lab.

Review the Course content

- Programming in java to be converted into 100 mark theory instead of 50 mark theory- 50 mark lab.

Dr.T.Sasikala, the Dean, School of Computing welcomed the members and detailed on the action taken report of the previous meeting held on 21/05/2018.

BOS/Item no.1

- Santhi Thilagam and Dharanipragada Janakiram suggested to update the syllabus of Python Programming with Machine Learning Lab for the current batch of students. The members also accepted the same.
- The syllabus Programming in java was reviewed by the industry members Mr.Somasundaram and Mr.Ekambaram. They approved the syllabus and appreciated the topics covered in the syllabus.

Action Taken

- The syllabus for course Machine Learning Lab was included after approval from members.
- The syllabus of Programming in java was reviewed after approval from members

Convener: Dr. T. Sasikala, Dean School of Computing

External Members:

Academic Expert

- Dr.Dharanipragada Janakiram, Professor, Department of CSE, IIT Madras. *SM*
- Dr.P. Santhi Thilagam, Professor & Head, Dpartment of Computer Science and Engineering, NITK, Surathkal. *Santhi*

Industry Experts

Minutes of Board of Studies Meeting

Minutes of the Board of Studies (UG and PG) Meeting held on May 21, 2018 at 10:30 A.M, Placement Conference Hall, Sathyabama Institute of Science and Technology, Chennai.

Agenda:

- Review and approval of the course content for 2015 curriculum
 - SCS1608- Software Quality Assurance and Testing
- Inputs towards drafting of new syllabus for 2019 curriculum

Professor Dr.M.Lakshmi, Convener, BOS welcomed the academic and industry experts and gave the introductory comments.

BOS/Item no.1

- Banshidhar Majhi and Mr. Ramkumar Ramamoorthy have reviewed the existing SQAT Syllabus and suggested to retain the Existing SQAT course. The BOS members also agreed to retain SQAT.

BOS/Item no.2

- Mr. Somasundaram, Mr.Nagaveer and other Members appreciated the drafting of 2019 curriculum

Action taken

The syllabus for the following courses were reviewed by the member and introduced in the current semester.

- SCS1608- Software Quality Assurance and Testing

Convener: Dr.M.Lakshmi, Dean School of Computing

Minutes of Board of Studies Meeting

Minutes of the Board of Studies (UG and PG) Meeting held at Conference Hall, Central Library on May 23, 2017 at 11:00 A.M.

Date: 23.05.2017 **Time:** 09.00 am **Mode:** Conference Hall, Central Library

Agenda:

- Approval of curriculum and syllabus for the newly introduced Programme.
 - B.Sc., – CS (Computer Science)
- Review and approval of the course contents for the following Elective course in 2015 Regulation
 - SCS1619-Python Programming
- Review of the course contents and inclusion of few topics for the following course
 - SCS1303-Compiler Design
- Review of 2010 and 2015 Regulation

Dr. M. Lakshmi, the Dean School of Computing welcomed the members. She detailed on the action taken report of the previous meeting held on 15/12/2017.

BOS/Itemno.1

HOD suggested that the employers recommended the updating of syllabus with Compiler Design for the current batch of students. The syllabus designed for Compiler Design reviewed by the industry members. Mr. Somasundaram and Mr. Prakash Arunachalam approved the syllabus and appreciated the topics covered in the syllabus.

BOS/Itemno.2

Mr. Rajan Govind Ramakrishnan was very pleased with the introduction of "Python Programming". Dr. Hema A Murthy gave inputs on the topics that can be included Python Programming course.

Action Taken

1. The syllabus for course "Python Programming" was included after approval from members.
2. The contents for "compiler Design" was revised after approval from members.

Convener: Dr. M. Lakshmi, Dean School of Computing

External Members:

Academic Expert

Dr. Hema A Murthy, Professor, Department of CSE, IITM, Chennai
