MEDICAL ETHICS

Duration:30 Hrs.

Objectives:

- Achieve familiarity with some basic ethical frameworks and understand how these ethical frameworks can help us think through contemporary questions in medical ethics.
- Think clearly and carefully through your own positions on important issues in contemporary medical ethics and the compatibility of these positions with broader philosophical commitments (i.e. what is a person, what rights do persons have, what constitutes human flourishing etc.)
- Express your own views clearly in class discussion and engage the views of your classmates.
- Craft well---argued, well---written papers that show understanding of and analytical engagement with the subject matter.
