Sub: Completion report for Mr.Jaswanth Sakthi.S.A at Mak Architects during the period of 15th December 2021 to 9th April 2022 (91 Working days).

Dear sir/madam,

This is to certify that “Mr.Jaswanth Sakthi.S.A” of “Sathyabama Institute of Science and Technology” is joined as an Internship Trainee at M/s. **Mak Architects**, on December 15th, 2021. During his internship phase, he focused more on detail drawings and site visits for various residential projects. Further, he worked on various drawings such as Working drawings, Electrical drawings, Elevation drawings, Staircase details and Exterior and Interior 3D views. In addition, he also worked on acoustic panel and diffuser detailing of a home theatre.

In general, Jaswanth is a creative person and showed keen interest towards 3D modelling. We wish him all the best for his future endeavors.

Sincerely,

Dr.R.Kalaiselvi, B.Arch, PhD (IIT-Madras)
Chief Architect and Acoustical consultant

1.1 GENERAL :

I see this opportunity as a way to contribute to a forward thinking firm MAK Architects, which has versatile functioning projects in hand, with my skills associated towards the same, as an enthusiastic intern. I believe we can have a mutually beneficial employment relationship.

I also feel that my skills are particularly well – suited to this position of an intern in this firm and I also have a scope to enhance, grow and gain knowledge especially on site.

I was also excited about the job opportunity, as it would allow me to gain knowledge on the Architectural details, Interiors, on site activities, Meeting with the clients and consultants on all the projects that they deal with and also an additional scope of learning about Acoustic design and lighting in different fields of Architecture.

1.2 ABOUT THE FIRM:

MAK Architects founded in 2013 by Dr.Kalaiselvi, is a firm with creative concepts & excellent designs emphasizing energy efficiency. They emphasize in planning, structural design, interior designing and execution of commercial, residential & corporate buildings. We are specialized in architectural acoustics and lightings for auditoriums, concert halls, lecturer halls, and theatres, home theatres, multiplex and our service is also extended to indoor and outdoor noise control measures.

Dr.R.Kalaiselvi is an architect and acoustic consultant, “ a member of Acoustical society of India and Acoustical society of America”. She did her Bachelor in architecture from Periyar Maniammani university and MS & PhD from IIT-Madras from Building technology and construction management division, Guest faculty for IIT-Madras , IIT-Tirupati, SAP- Anna University, SPA – Vijayawada for the subject of building acoustics. She has published more than 25 papers and filed two patents in the field of acoustics, noise control and product design.

She also won young scientist award from International commission of Acoustics for excellent contribution in the field of Acoustics, in the mega Acoustic event held at Sydney convention center. To name a few projects – NPTEL – Recording studios at IIT-Madras, CLRI – Triple Helix Auditorium, South Indian Film Federation Auditorium, Indian Maritime University Auditorium etc., Further, She designed and implemented Audiology rooms for NIEPMD – National Institute for Empowerment of Persons with Multiple Disabilities this facility is first of this kind in India.

The background of the slide features a photograph of a building's exterior. On the left, there is a brick wall with a mix of dark brown and light tan bricks. To the right of the brick wall is a section of the building with white corrugated metal siding. The sky is a pale, hazy blue. The overall composition is clean and modern.

Points noted

- ELDB, PDB, UDB panel sizes and their routing will be given by the electrical consultant.
- The client suggested DB location should be placed at the lobby/waiting area on every floor.
- The specification and location of the solar systems will be given by the electrical consultant
- The client suggested the location of the stabilizer to be placed under the staircase.
- The location of the fire pump will be placed under the overhead tank as suggested by the client. The scope of the fire pump belongs to the fire hydrant consultant. The consultant should be decided by the client.
- The client suggested the generator be placed under the ramp or other feasible locations.
- The client suggested the location of the AC switch will be placed outside the room.
- The client suggested the ceiling fan be replaced by a wall-mounted fan and its location is placed above the cupboards.
- The client suggested that collecting junction box will be given from the main nurse stations for tv set boxes.
- The client suggested location of charging points in the car parking area will be provided at column 3B
- Architect should discuss the replacement of the OT with the client.
- The fire hose reel is to be placed near the ramp door adjacent to the entrance of the ramp by replacing the double door as a single door. The size of the door should be verified.
- The capacity of the water tank for the fire fighting systems is to be decided.
- The client suggested a nurse calling display will be provided outside above each door and the conduit must be laid by the builder. Wiring / Panel and Switches will be provided by the client.

CRITICAL OVERVIEW :

- ❑ My overall experience with the Firm through the last 3 months working there have been great. It had great work environment, where people aren't only compensated fairly for their work, but given many opportunities to grow and learn new things in there field of work.**
- ❑ My Principal Architect gave me and my team a lot of freedom to do what we see and fits the actual circumstances. I never felt like we are being micromanaged. I got an opportunity to learn from the smallest of the construction details with site visits that happened in coordination with the site engineers.**
- ❑ I also got to understand how the work flow in an office happens and how one gets to respond actively to the work that is being appointed to them respectively. I have significantly improved in understanding the detail drawings and also with the drafting skills. The team had excellent coordination with themselves in completing a task beforehand with necessary coordination with the consultants, clients and site engineers.**
- ❑ I heartily thank Dr.Kalaiselvi ma'am for giving me this opportunity to learn and develop my skills that will be more helpful for my future endeavours, I also thank the entire team in motivating me for the same.**
