7.	CONCLUSION & EXPERIENCE	

1. GENERAL:

I see this opportunity as a way to contribute to a forward thinking firm **Shiva's architects & planners(p).ltd** which has versatile functioning projects in hand, with my skills associated towards the same, as an enthusiastic intern. I believe we can have a mutually beneficial employment relationship.

I also feel that my skills are particularly well – suited to this position of an intern in this firm and I also have a scope to enhance, grow and gain knowledge especially on site.I

was also excited about the job opportunity, as it would allow me to gain knowledge on the Architectural details, Interiors, on site activities, Meeting with the clients and consultants on all the projects that they deal with and also an additional scope of learning about Acoustic design and lighting in different fields of Architecture

2.FIRM HISTORY:

Shiva's Architects & Planner's formed in the year 1989 and incorporated as Pvt. Ltd , Under the company Act 2003-2004

We served more than 500 Unique distinctive projects of Residential , Commercial Buildings ,Corporate Buildings, Gated Communities, Recreational Centres , and Public Buildings.....

Whether it's Architecture, Interior Designing or Project Management, we are specific in each of them. Having years of expertise in providing the best architectural services, our experience is very right in this ground to provide right solutions as per client demand.

Shiva's Architects & Planner's is an abode for artistic, motivating and aesthetic interior and architectural designs. It is a place where the work speaks more than anything. Shiva's Architects & Planner's has made a place for itself in the architectural and interior designing field within a short span of time.

FIRM PHILOSOPHY:

Our philosophy is based on the creation of a total environment satisfying the various aspects of social, economical and aesthetic considerations. We adopt an 'integrated' approach in solving design problems- we do not subscribe to a single medium of architectural expression. We believe that the eventual built form must be an appropriate response to the context of the problem.

7. CONCLUSION & EXPERIENCE:

My overall experience with the Firm through the last 4 months working there have been great. It had great work environment, where people aren't only compensated fairly for their work, but given many opportunities to grow and learn new things in field of work. My Principal Architect gave me and my team a lot of freedom to do what we see and fits the actual circumstances. I never felt like we are being micromanaged. I got an opportunity to learn from the smallest of the construction details with site visits that happened in coordination with the site engineers. I also got to understand how the work flow in an office happens and how one gets to respond actively to the work that is being appointed to them respectively. I have significantly improved in understanding the detail drawings and also with the drafting skills. The team had excellent coordination with themselves in completing a task beforehand with necessary coordination with the consultants, clients and site engineers. I heartily thank Principal architect **AR.EDWARD K.RAJARATNAM** & Junior architect **M.Laasya sri** for giving me this opportunity to learn and develop my skills that will be more helpful for my future.
