TRAINEE INDUCTION LETTER

Ref: Bonafide dt 30.11.2021
Date: 03.01.2022

From:
Mrs. Ekta Agarwal / Ar. Parul Agarwal
FOAID DESIGNS
Chennai – 600 010

To,
The Head of Department- Architecture
Sathyabama Institute of Science & Technology
Chennai

We take pleasure in accepting **AISHUWARYA. V.** V Year (B.Arch – 10th Sem – Reg.No.37210002) as trainee under this firm from 3rd January 2022 to 30th June 2022, until her evaluation in the university. We are confident that she will exhibit good development and show high dedication from our brief interaction.

During her training period we intend to involve her in

1. Developing Conceptual Designs
2. On site experience
3. Promote team player and lead attitude with colleagues.

We eagerly look forward to having Aishuwarya with us and hope to be an integral part of her curriculum and goal of becoming an architect.

Yours Faithfully,

Mrs. Ekta Agarwal / Ar. Parul Agarwal

LETTER OF CONDUCT & COMPLETION

Date: 06/05/2022

From:
Mrs. Ekta Agarwal/ Ar. Parul Agarwal
FOAID DESIGNS
Chennai – 600 010

To Whomever It May Concern

We certify that AISHUWARYA. V. V Year (B.Arch – 10th Semester – Reg.No.37210002) has successfully completed her period of internship for this semester for VIVA purpose at FOAID Designs between 3rd January 2022 and 6th May 2022 out of her committed internship period from 3rd January to 30th June 2022. Aishuwarya has shown a high level of dedication and we are glad to have had her as a part of our team.

The student was punctual, followed general office procedure and was dedicated and decorous towards the office at all times. Her conduct is exemplary and her architectural skills are good. It was a pleasure having her with us for this brief period.

Thanking You

Yours Faithfully

Mrs. Ekta Agarwal/ Ar. Parul Agarwal

1.1 GENERAL

FOAID Designs, one of the most influential page in instagram. Their projects are mostly eye catchy and my interest towards interior designing made me to apply to the firm, and I got selected for internship program for 6 months. I believed that it would be a great opportunity to me to experience the livelihood of designing the executed projects and seeing its outcome.

The firm does Architecture, Interior Designing and Landscape designing. I was given opportunity to design and detail out all 3 typology during my internship period which was a good learning experience.

1.2 ABOUT THE FIRM

FOAID, "Fraternity of Architecture & Interior Design", is a design studio that brings about a concoction of different perspectives under a single roof. Founded in **2006** by Ekta Agarwal, the company has grown ever since with every new projects to a great height. It has 3 verticals being, Design, Turnkey and a Modular furniture Factory. The company believes in designing by the site, as each site lays a new challenge in itself. It's what the site needs more than anything else. Contemporary would describe our design sense.

As quoted by Mies Van Der Rohe – "Less is more", our designs are approached with a minimalistic touch. Each project sets a new bench mark for the company, where our aim is to constantly evolve. Each challenge is met with a burst of experiment, until we find the right solution. Our focus is understanding the grit behind the project and inducing environs which would assist activity. Though design cannot be bought or sold, it's the effort that has value. Understanding the grit behind the project and inducing environs which would assist activity is our focus.

Over the years, the company has worked on several projects where the typologies of the buildings have been many from Hospitality, commercial & residential. The company not only specializes in Interiors, but also architecture, product design and she even runs a factory of her own to take care of all productions in house. The firm has managed to handle about 100 and more sites on a turnkey basis for which she has won several awards in best interiors category.

Major learning that she got through her profession - *"Be patient, Listen and understand, always be excited and just let go. The right times comes for all, until then don't give up at any moment"*
Advice to all - *"Understand the requirements of client and their budget so that we don't overshoot it while designing and give them always the best."*

1.13 CRITICAL OVERVIEW OF THR FIRM

Each and every project is a learning experience at FOAID. The friendly culture there gave me to explore so much. The project completion, Deadlines, Detailing all these gave me the best knowledge in practical field.

Talking about the practical field, Unlike academics project there are much more criteria that we would be looking before proceeding into a design. We would to checking for the availability of the material and check for the budget and then the design would be executed. “Design is an back and forth process” this is the statement which I heard during all my academic projects and never properly followed the statement. But during my internship period I have seen directly that the statement is the only thing that works in designing field.

After plenty of client visit, Vendor visit and Site visits the final outcome of the design seems to be a master piece. Working on a project for designing and detailing it. After looking into reality, executed properly gives us a good confidence in the field. FOAID gave me an opportunity to experience those good vibes and finish my internship period.
