1.4 PROJECT 2

PROJECT NAME: Arulmigu Lakshmi Narasimha Swamy Temple

TEAM: Ar.Ravikumar Narayan, Ar.G.P.Jebalin, Ar.Jolinshia, Sanjeev Sivakumar, Shakthi.k.

SITE LOCATION: Sholinghur, Vellore, Tamil Nadu

PROJECT STATUS: Design Development and on-going Construction

WORK DONE: 1. Schematic Design Drawings

3D Modelling

Views

HUDCO Competition Presentation and Study.

INTRODUCTION

PROJECT

The site for this Temple project is situated in the hills of Sholinghur, where the auspicous shrine of Lakshmi Narasimha Swamy is located.

The site's natural landscape consisted of rocky terrains and shrub vegetation, devoid of mature trees.

The design and landscape redevelopment of this temple is derived from its local elements to enhance the existing development as a sustainable approach with water management at its core and introduce green strategies that compliments the site with significance and reverence to the deities.

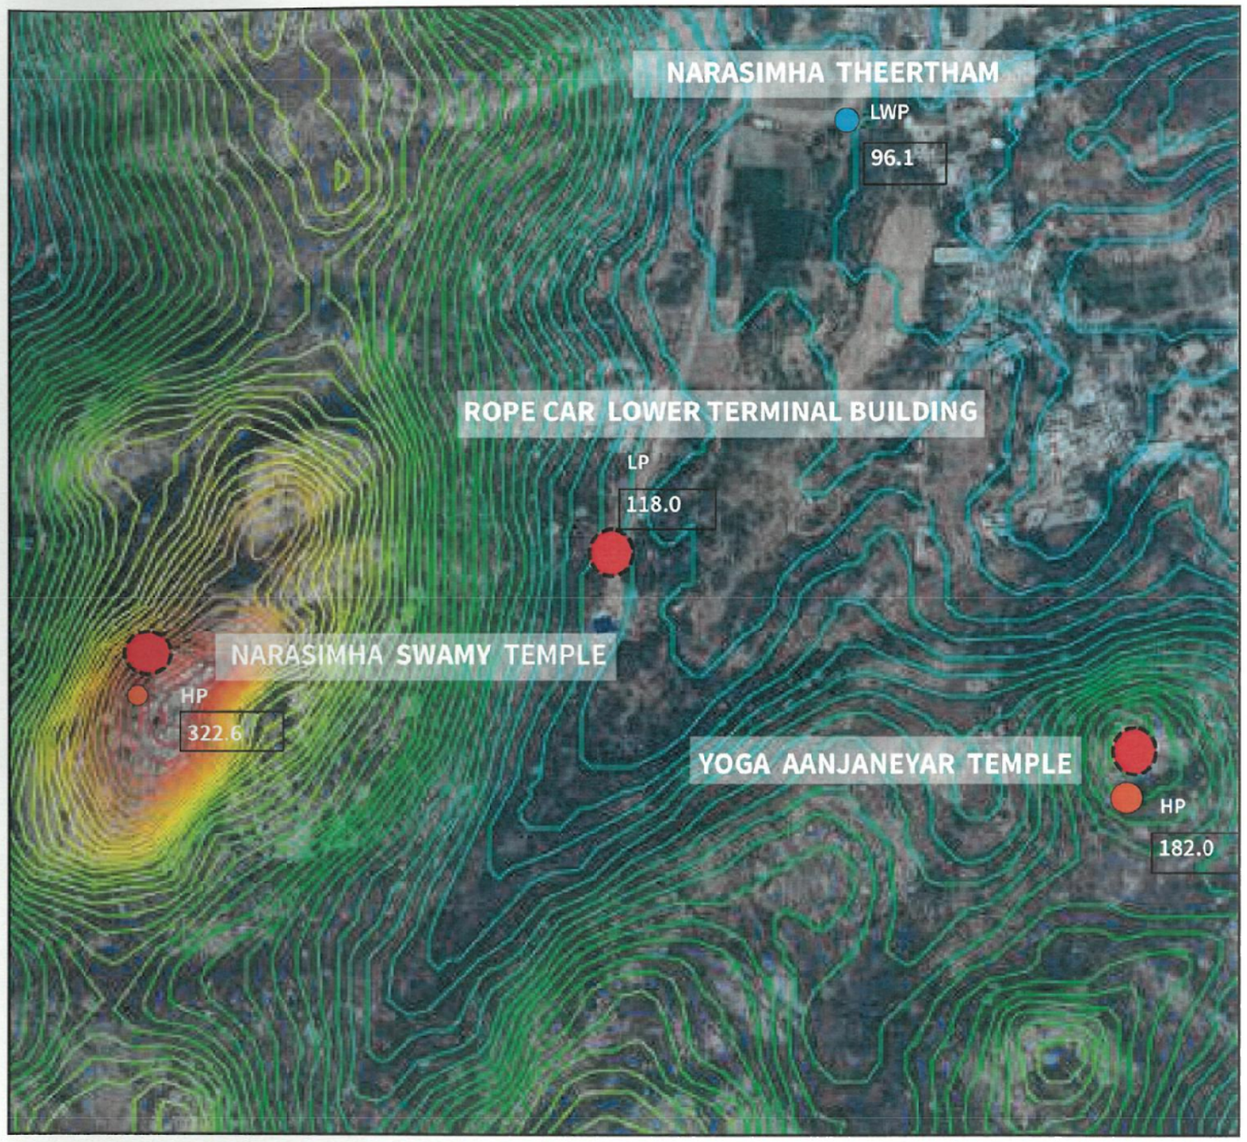
CONTOUR ANALYSIS

TERRAIN MAP



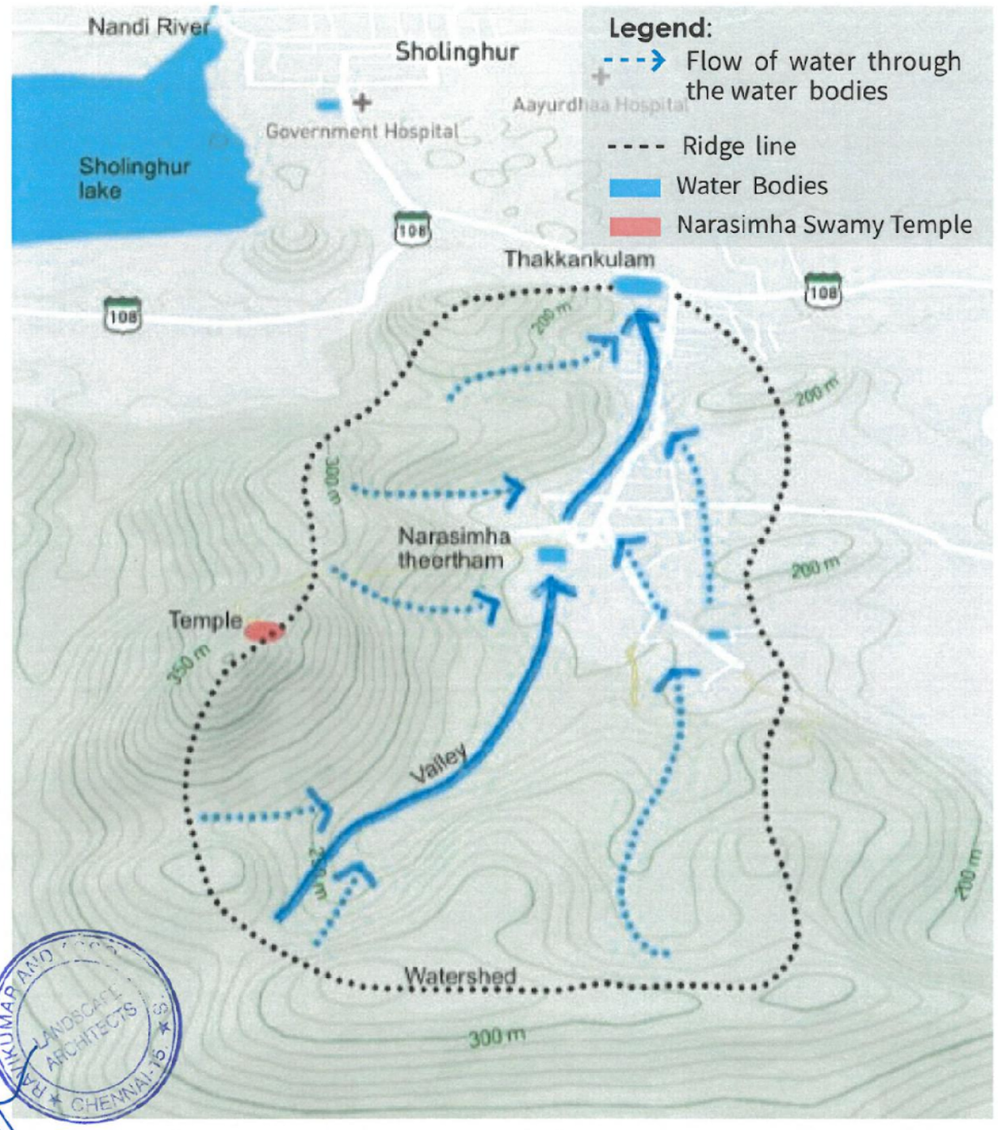
Legend:

> 1:20	1:2.5 -1:5	HP	High Point
1:10 -1:20	1:1.5 -1:2.5	LP	Low Point
	<1:1.5	LWP	Lowest Point

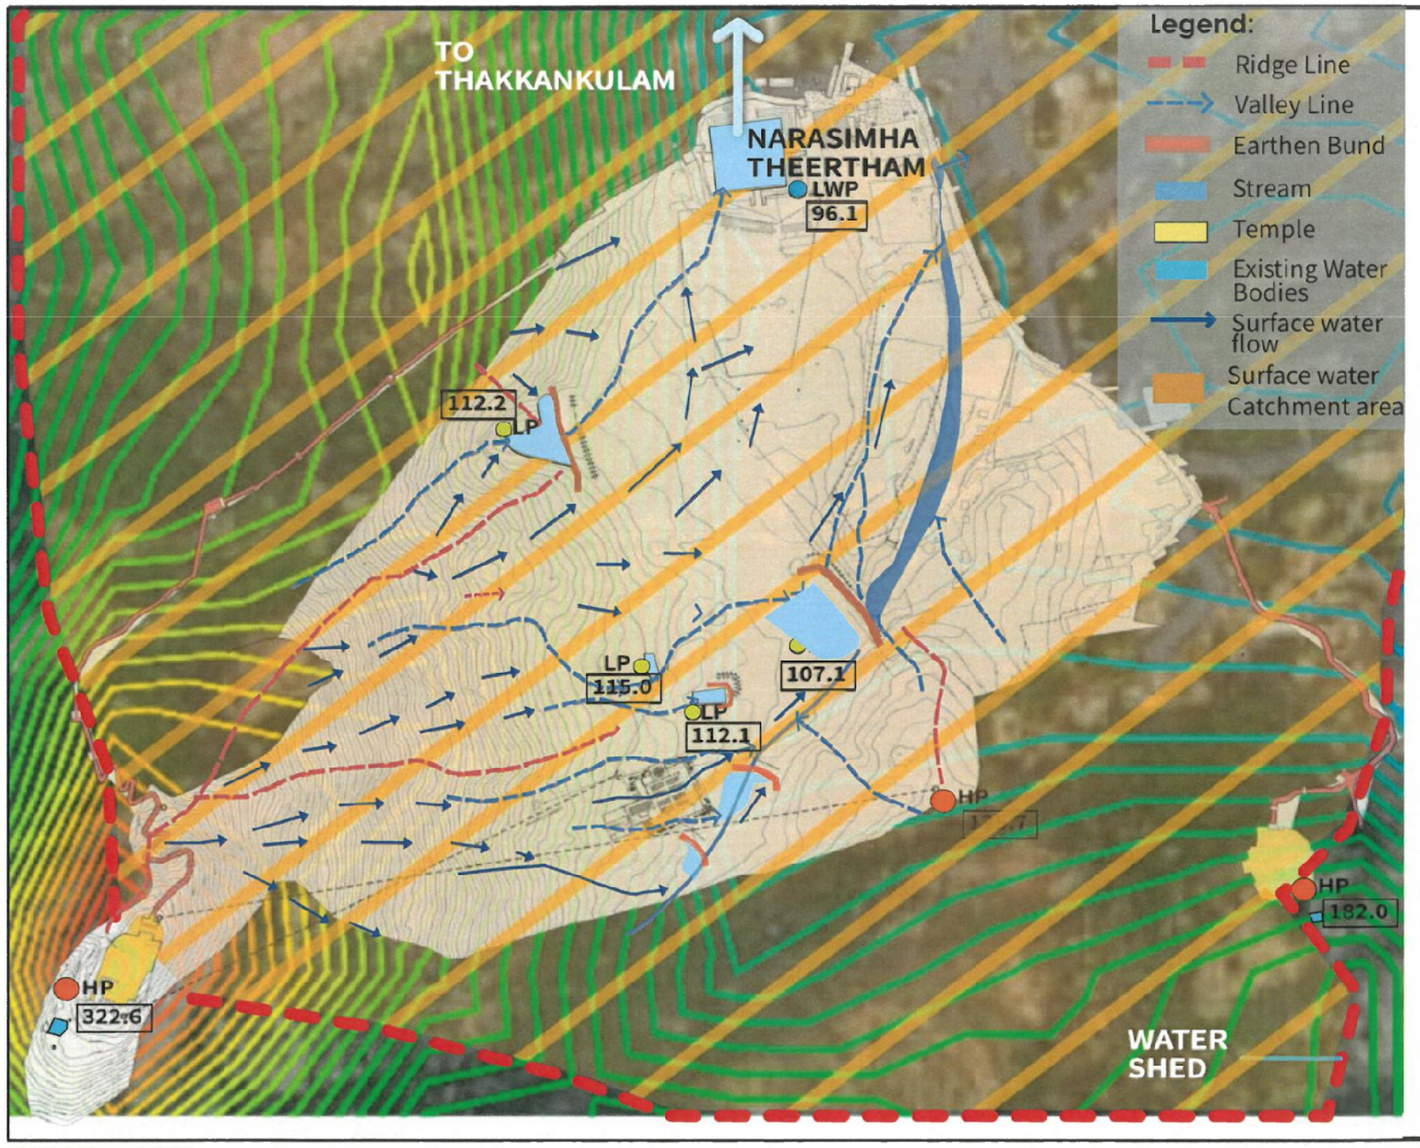
The two highest points / hillocks of the site are where the Narasimha Swamy temple and Yoga Anjaneyar Temple are located. The rope car lower terminall is at a relatively low point and the Narasimha Theertham (Tank) at the point of the site.

RAVIKUMAR AND ASSOCIATES LANDSCAPE ARCHITECTS CHENNAI-15

REGIONAL LEVEL



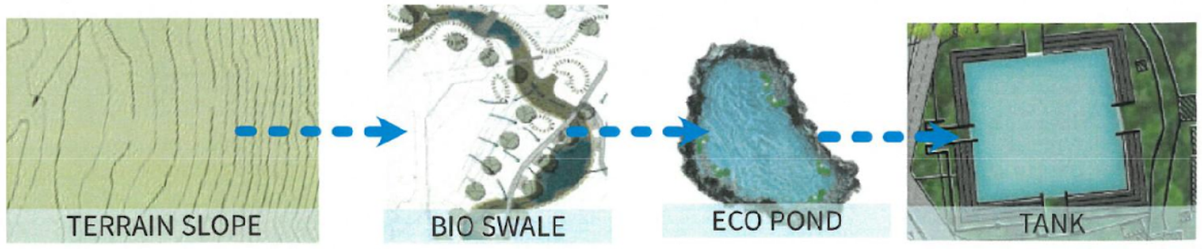
SITE LEVEL

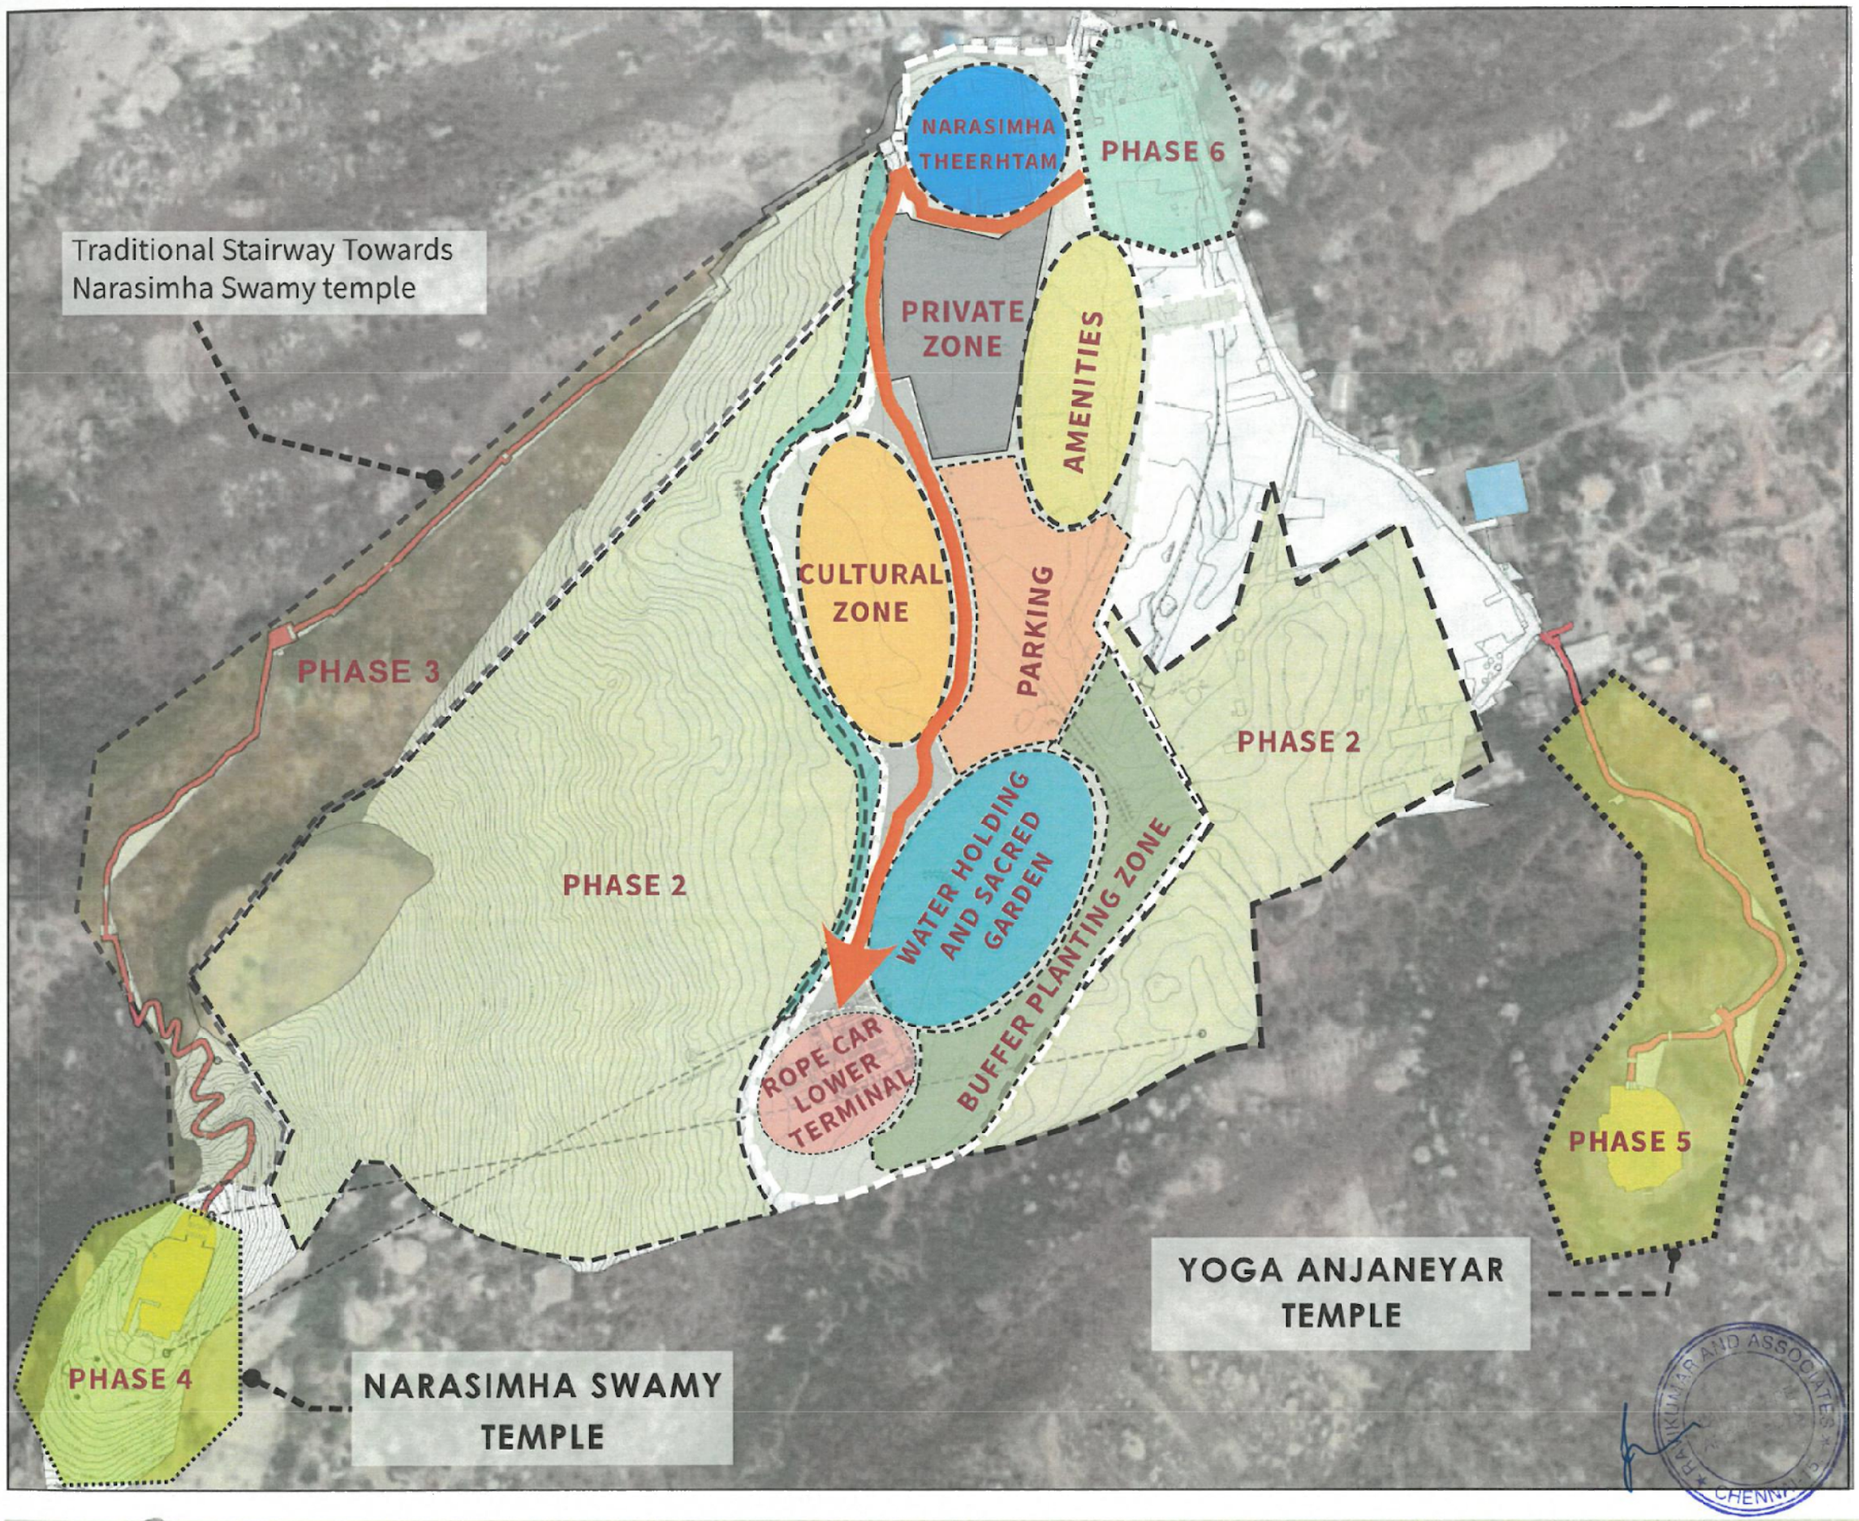


The temple is surrounded by 8water bodies, That comprises of Ponds, Check Dams and Temple tanks. The storm water flow analysis aids the depiction of flow of water through the Neighbouring tanks and ponds of the temple, descending to a series of lakes and streams networked together.

Most of the watershed area (around 600 acres) is in slope covered with rock outcrops, boulders and gravel. Hence most of the storm water (90%) runs off on surface, which amounts to 2259 million litres per annum. Hence it becomes very ethical to catch the run off through bio swales, ponds and tanks and use this for irrigation and other purposes.

SEQUENTIAL WATER MANAGEMENT





Legend:

PHASE 1 Proposed area for the Rope Car Lower Terminal and Narasimha Theertham Temple Tank.

AREA: 15.6 ACRES

Major Zones:

- NARASIMHA THEERTHAM
- CULTURAL ZONE
- AMENITIES AND PARKING ZONE
- WATER HOLDING AND SACRED GARDEN
- LOWER TERMINAL

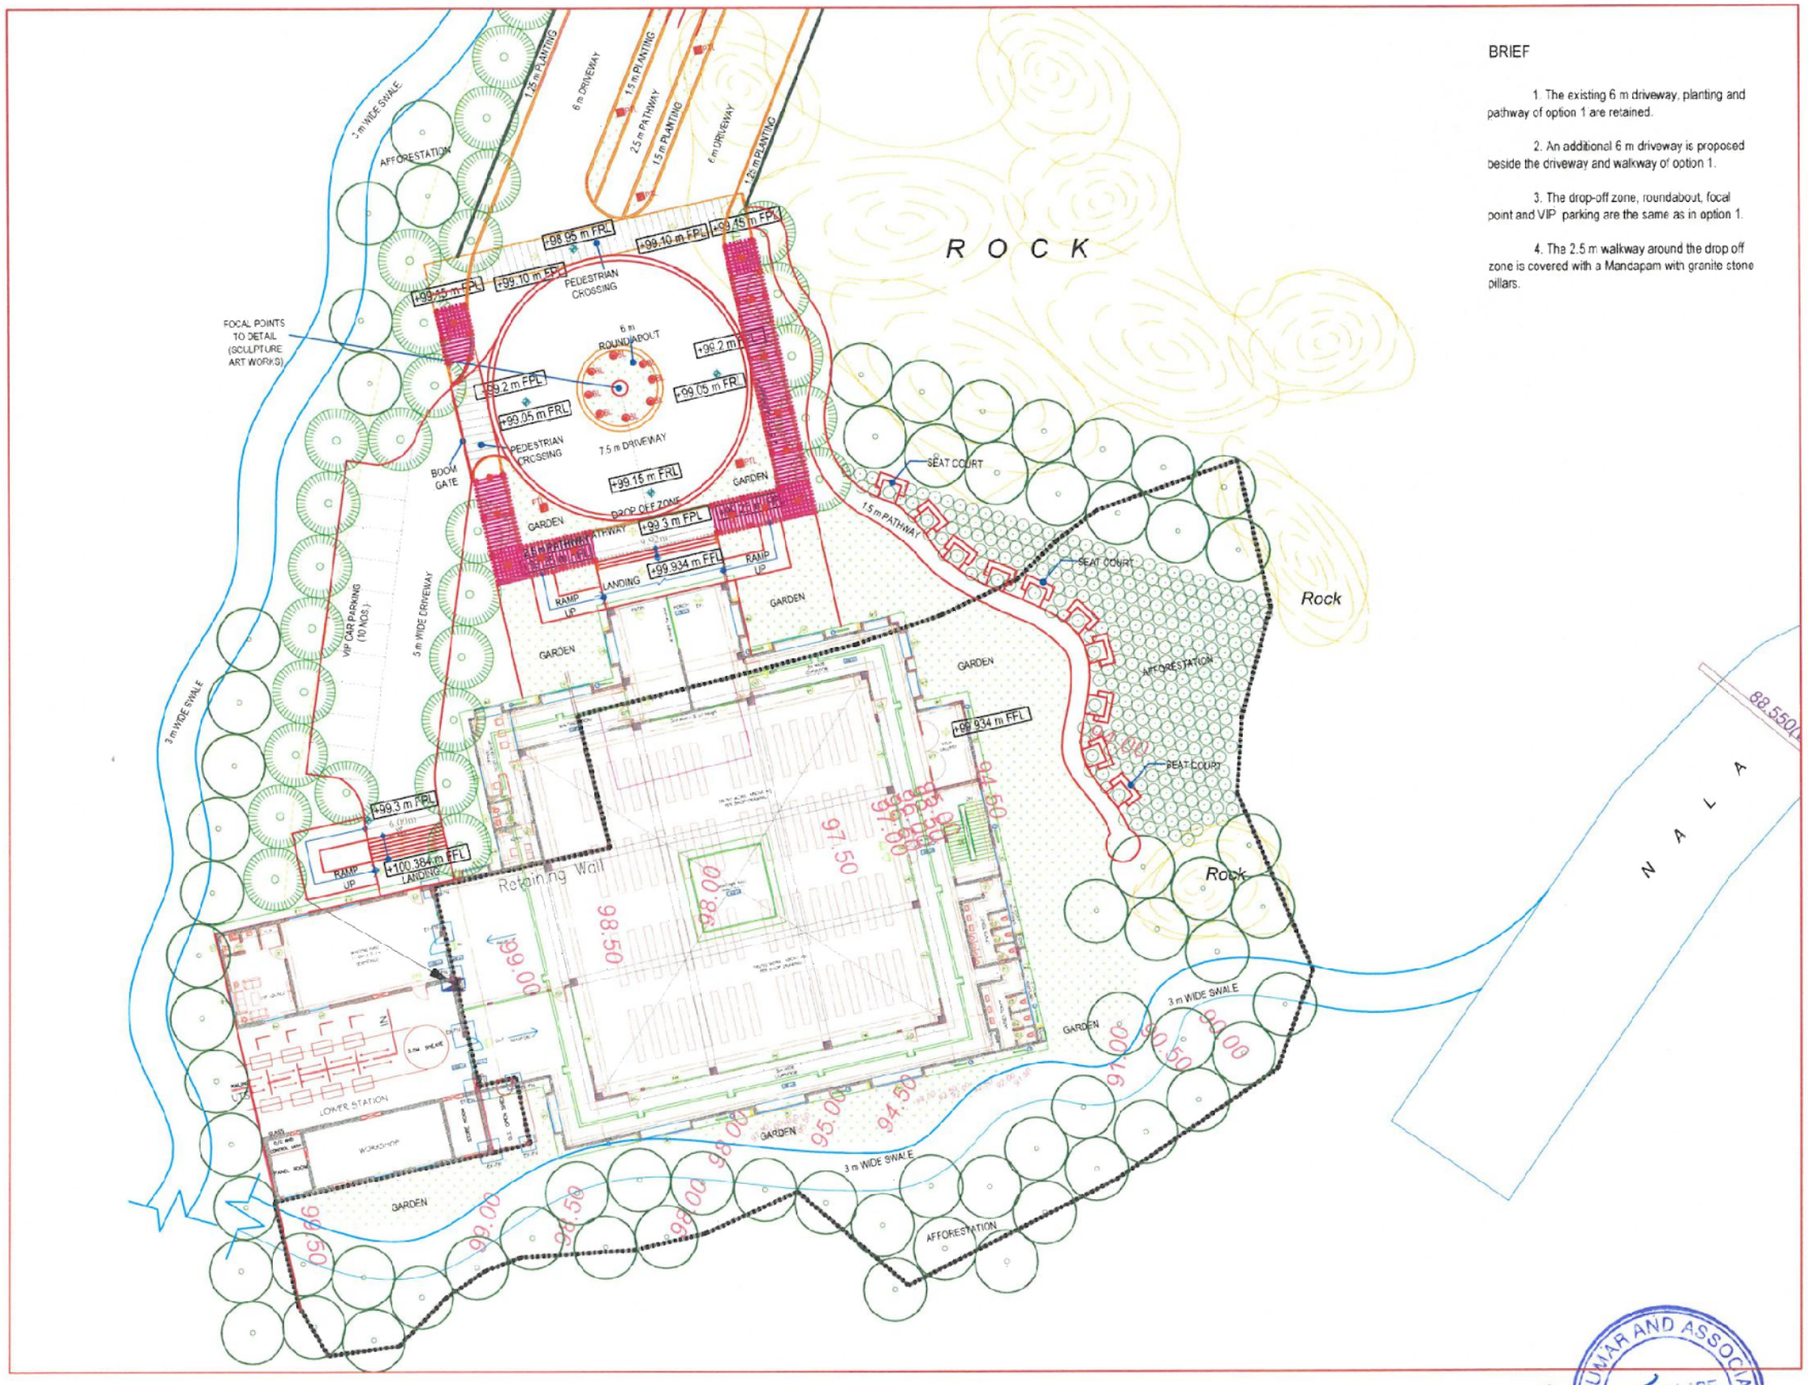
PHASE 2 Other Areas (Afforestation and Water systems).
AREA: 50.3 ACRES

PHASE 3 Traditional Stairs To Main Temple
AREA: 20.7 ACRES

PHASE 4 Narasimha Swamy Temple Premises
AREA: 3.6 ACRES

PHASE 5 Yoga Anjaneyar Temple Premises
AREA: 7.75 ACRES

PHASE 6 Arrival Zone
AREA: 2.6 ACRES



BRIEF

1. The existing 6 m driveway, planting and pathway of option 1 are retained.

2. An additional 6 m driveway is proposed beside the driveway and walkway of option 1.

3. The drop-off zone, roundabout, focal point and VIP parking are the same as in option 1.

4. The 2.5 m walkway around the drop off zone is covered with a Mandapam with granite stone pillars.

This copy is the property of RAVIKUMAR AND ASSOCIATES and shall not be passed on to any person or authority or to someone else. It shall not be used, modified, in part or full without our prior permission. The drawing is not to be used for any purpose other than the PROJECT only.

CRITICAL OVERVIEW

Each and every project is a learning experience at RaA. Their friendly culture there gave me to explore so much in their firm. The project completion, Deadlines, Detailing all these gave me the understanding of the practical field.

Talking about the practical field, Unlike academic projects there are much more research and background work that we would be doing before proceeding into the design and execution. We would to checking for the availability of the material and check for the budget and then the design would be executed.

“Design is a back and forth process” this is the statement which was practiced during all the projects and the output is true to the statement which I was able to witness during my Internship period.

After a handful of client and Site visits, the final outcome of the design is delivered to be a master piece. Working on a project for designing and detailing it to execute it properly gives us a great pre-experience before we step into the actual feild. RaA gave me an opportunity to experience all areas of a complete design to complete my internship period in a wholesome manner.
