1.1 GENERAL

I see this opportunity as a way to contribute to a forward thinking firm Genesis Habitat Pvt Ltd, which has versatile functioning projects in hand, with my skills associated towards the same, as an enthusiastic intern. I believe we can have a mutually beneficial employment relationship.

I also feel that my skills are particularly well – suited to this position of an intern in this firm and I also have a scope to enhance, grow and gain knowledge especially on site.

I was also excited about the job opportunity, as it would allow me to gain knowledge on the Architectural details, Interiors, on site activities, Meeting with the clients and consultants on all the projects that they deal with and also an additional scope of learning about Acoustic design and lighting in different fields of Architecture.

1.2 ABOUT THE FIRM

GENESIS HABITAT (GHPL) is a turnkey Design, construction and Development firm established in 1992. Their projects have changed the skyline of Chennai and their passion for unique architectural concepts ensures that the Clients enjoy a sophisticated standard of living. 1.12 CRITICAL OVERVIEW

My overall experience in the Firm through the last 4 months working have been great. It had great work environment, where people aren't only compensated fairly for their work, but given many opportunities to grow and learn new things in there field of work.

My Principal Architect gave me and my team a lot of freedom to do what we see and fits the actual circumstances. I got an opportunity to learn from the smallest of the construction details with site visits that happened in coordination with the team.

I also got to understand how the work flow in an office happens and how one gets to respond actively to the work that is being appointed to them respectively. I have significantly improved in understanding the working drawings and also with the drafting skills. The team had excellent coordination with themselves in completing a task beforehand with necessary coordination with the consultants, clients and site engineers.

I heartily thank Ar.Karunakaran Raju sir for giving me this opportunity to learn and develop my skills that will be more helpful for

my future endeavors, I also thank the entire team in motivating me for the same.
