SIGNATURE OF CANDIDATE

ACKNOWLEDGEMENT

I am pleased to acknowledge my sincere thanks to **Board of Management of SATHYABAMA** for their kind encouragement in doing this project and for completing it successfully. I am grateful to them.

I convey my thanks to **Dr. Devyani Gangopadhyay**, Dean, School of Building and Environment and **Dr. SURESH KUPPUSAMY**, Design Chair, Department of Architecture for having been a constant source of support and encouragement.

I wish to express my thanks to all Teaching and Non-teaching staff members of the Department of who were helpful in many ways for the completion of the project.

I would like to express my sincere and deep sense of gratitude to **Ar. PAVITRA SRIPRAKASH, SHILPA ARCHITECTS, L20, VSI Estate, OMR, Thiruvanmiyur, Chennai, Tamil Nadu 600041** for her valuable guidance, support and constant encouragement which paved way for the successful completion of my Practical training session. I also wish to express my gratitude to the entire SHILPA ARCHITECTS team who gave me complete freedom to explore and experiment my ideas.

CONFIRMATION LETTER

21st December 2021

To:

The HOD

Sathyabama Institute of Science and Technology,
Semmancheri, Chennai,
Tamil Nadu – 600 119

Sub: Confirmation of Internship for **Sneha C N**, of **Sathyabama Institute of Science and Technology, Chennai** at **SHILPA ARCHITECTS PLANNERS DESIGNERS PVT LTD.**

Dear Sir/Madam,

This is to inform that **Sneha C N** – Architecture 4th year student has been selected to undergo Internship at **SHILPA ARCHITECTS PLANNERS DESIGNERS PVT LTD., Chennai.**

The Internship period will start from 3rd January 2022 to 30th June 2022 (**Irrespective of the Minimum working days as prescribed by your curriculum**). Candidates will get a Provisional Certificate and a Final Completion Certificate at the end of the term.

Please note that Shilpa Architects does not take the responsibility to support students for VIVA or with any forms/print-outs if they do not stay for the stipulated period.

Please sign this letter and return to our office to confirm the candidate's internship position.

Thanking You,

Sincerely

SHILPA ARCHITECTS PLANNERS DESIGNERS PVT LTD

shilpa

Architects Planners Designers Pvt. Ltd.

Architects Planners Designers.

1. GENERAL:

ABOUT THE FIRM:

Shilpa Architects Planners Designers is an international, award-winning Architectural Design firm headquartered in India. The firm's portfolio spans the entire range of the real estate industry. They have always had a focus on green and sustainable architecture and have been a steering member of the Indian Green Building Council (IGBC). With its own LEED Certified professional in house, Shilpa is in the advantageous position of designing and simultaneously facilitating the process for LEED Certification.

PHILOSOPHY:

Their design philosophy is to consciously be responsive to the ecology and address the concerns of consumption of resource scarcity that challenge the sustainability of humanity.

FIRM HISTORY:

The firm was founded in 1979 and is acclaimed for pioneering work in Environmentally and Socioeconomically sustainable design. Designers from Shilpa have represented India at several International forums as speakers and have been invited participants / members of the World Economic Forum, US Green Building Council (USGBC), The World Bank and The Confederation of Indian Industry (CII).

2. FIRM SELECTION:

Shilpa Architects follow a unique approach to Architecture & Urban Design that blends imagination, Indo-centric design thinking. They try to create a positive societal impact through sustainable ideas initiating a 360-degree approach to transformation of spaces.

My Interest has been to explore and branch into the depth of opportunities through the field of Architecture. I was excited about the opportunity, as I felt that my skills are particularly well – suited to this firm as an intern and I also have a scope to enhance, grow and gain knowledge on different fields of Architecture. I saw this as an opportunity to contribute to this forward-thinking firm, which has versatile functioning projects in hand. I believed that we can have a mutually beneficial employment relationship. The various range of services provided here with top professionals result in extensive experience.

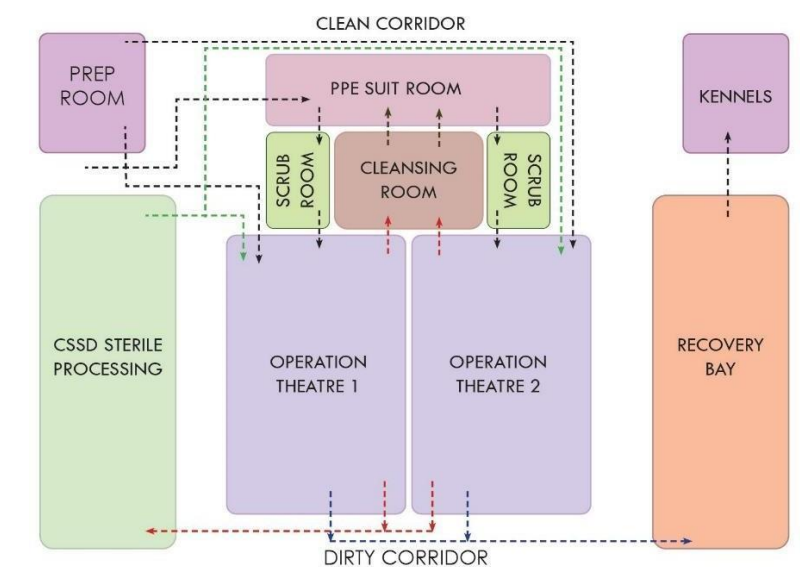

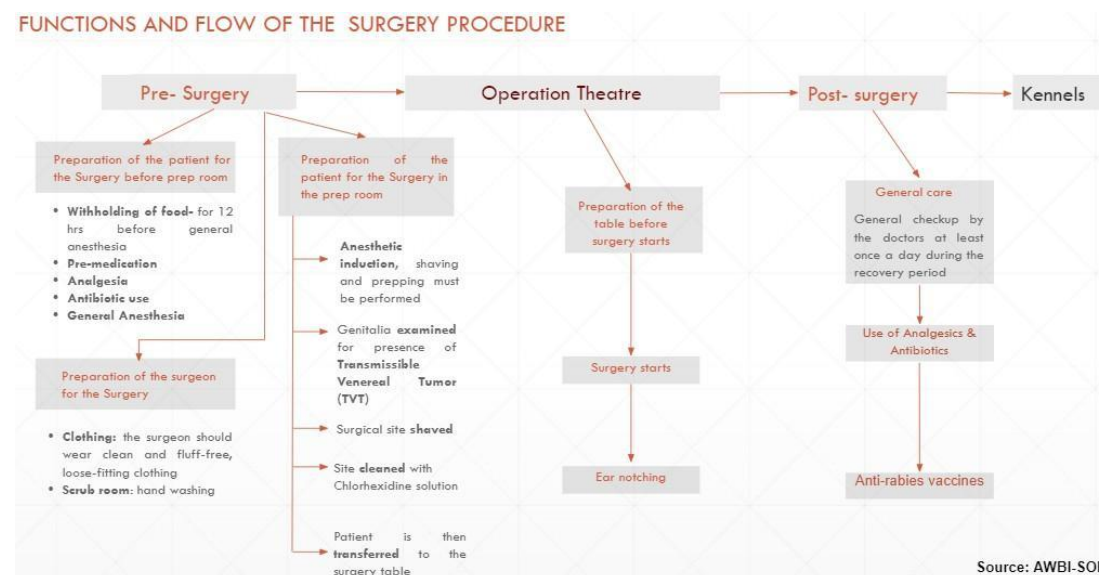

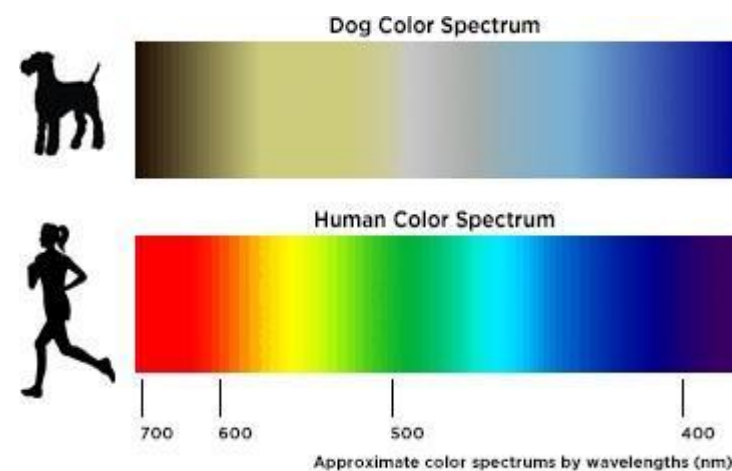

ANIMAL WELFARE PROJECT:

This project involved designing Animal Birth Control Centers for stray dogs in three locations. These ABC's aim to check exponential growth in stray dog population. The solution of the overgrowing population of strays is sterilization and vaccination of street dogs.

Sterilization basically involves spaying of females and castration of male dogs so that they do not reproduce. Vaccination involves giving the dogs an anti-rabies shot. After sterilization, the dogs do not reproduce and hence their population becomes stable. As they are vaccinated against Rabies and other diseases, they do not pose any health hazard and live out their natural lives healthily and harmlessly.

6. HYDERABAD RESIDENCE

This project is spread across 6.23 acres that includes, high-rise luxe apartments, sky villas, clubhouse & other supporting recreational spaces. It has 5 Sky-high Towers with 32 Floors each.

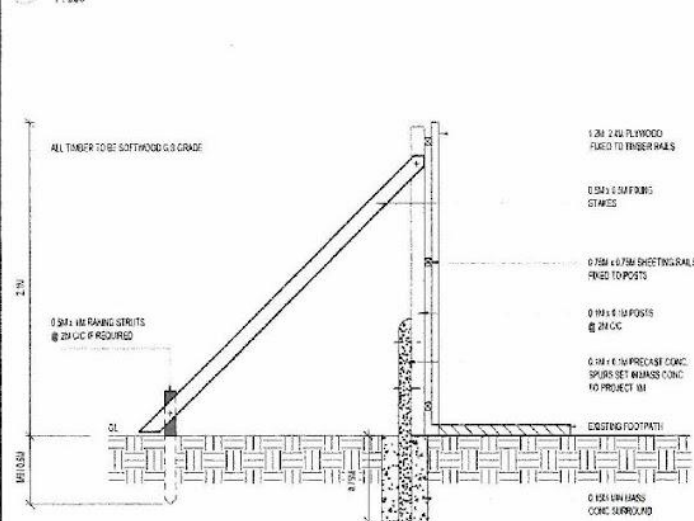

This project incorporates elements inspired from neo-classical style of Architecture. Working on this project helped me gain knowledge on a wide range of topics through research, analysis and understanding. I got to learn about the design considerations, client's requirements & how to deliver them.

Though this it has elements that are significant of neo-classical style, I learnt how to effectively use them according to the site conditions. I got to work on designing the site hoarding that gave me the freedom to think out of the box. I also got the opportunity to work on designing the façade of an existing container that is soon to be used as a marketing office.

shilpa
ARCHITECTS PLANNERS DESIGNERS PVT. LTD.

"To create one must first question everything."

- Eileen Gray

Working as an intern at Shilpa Architects gave me an opportunity to meet with some of the best and most experienced professionals in this field. Every project was a new learning experience here and the work culture was very friendly and helped me to explore so much.

During the internship period I was involved in several tasks from concept evolution, presentations, project development, tender drawings to working drawings. This helped me understand the requirements, deliverables, software skills and work management in the practical field. Apart from these technical skills, I also developed soft skills such as teamwork, accepting constructive criticism and effective communication that will help in the future work situations.

I was inspired by the people around me, their ideology, philosophy and way of life. What they see as an architect and their outlook towards even the simplest things in life. I am extremely happy to have been a part of a great team, where my opinions were equally valued, though I was just an intern. The team made sure that I learned the nooks of the field and taught me a lot both directly and indirectly. I am grateful to everyone who helped me learn during this period.
