1.1 GENERAL :

As a fresher, I was looking for a company, where I can apply the knowledge, my skills, and insights that, I have gained during my college days. PSP design is well-known that promoting and allowing young minds to grow with a supportive back and encouraging push. Furthermore, it has different working positions which match my abilities and interests, so, I see a good career start in the firm where I could work passionately and with great sincerity.

I've heard of your reputation in the industry, consistently listed as one of the top places to work and I would be proud to work for a company with such an excellent track record and a strong example of leadership in the industry and also I see this opportunity to learn office organization, quality detail drawings and the work flow in an organization.

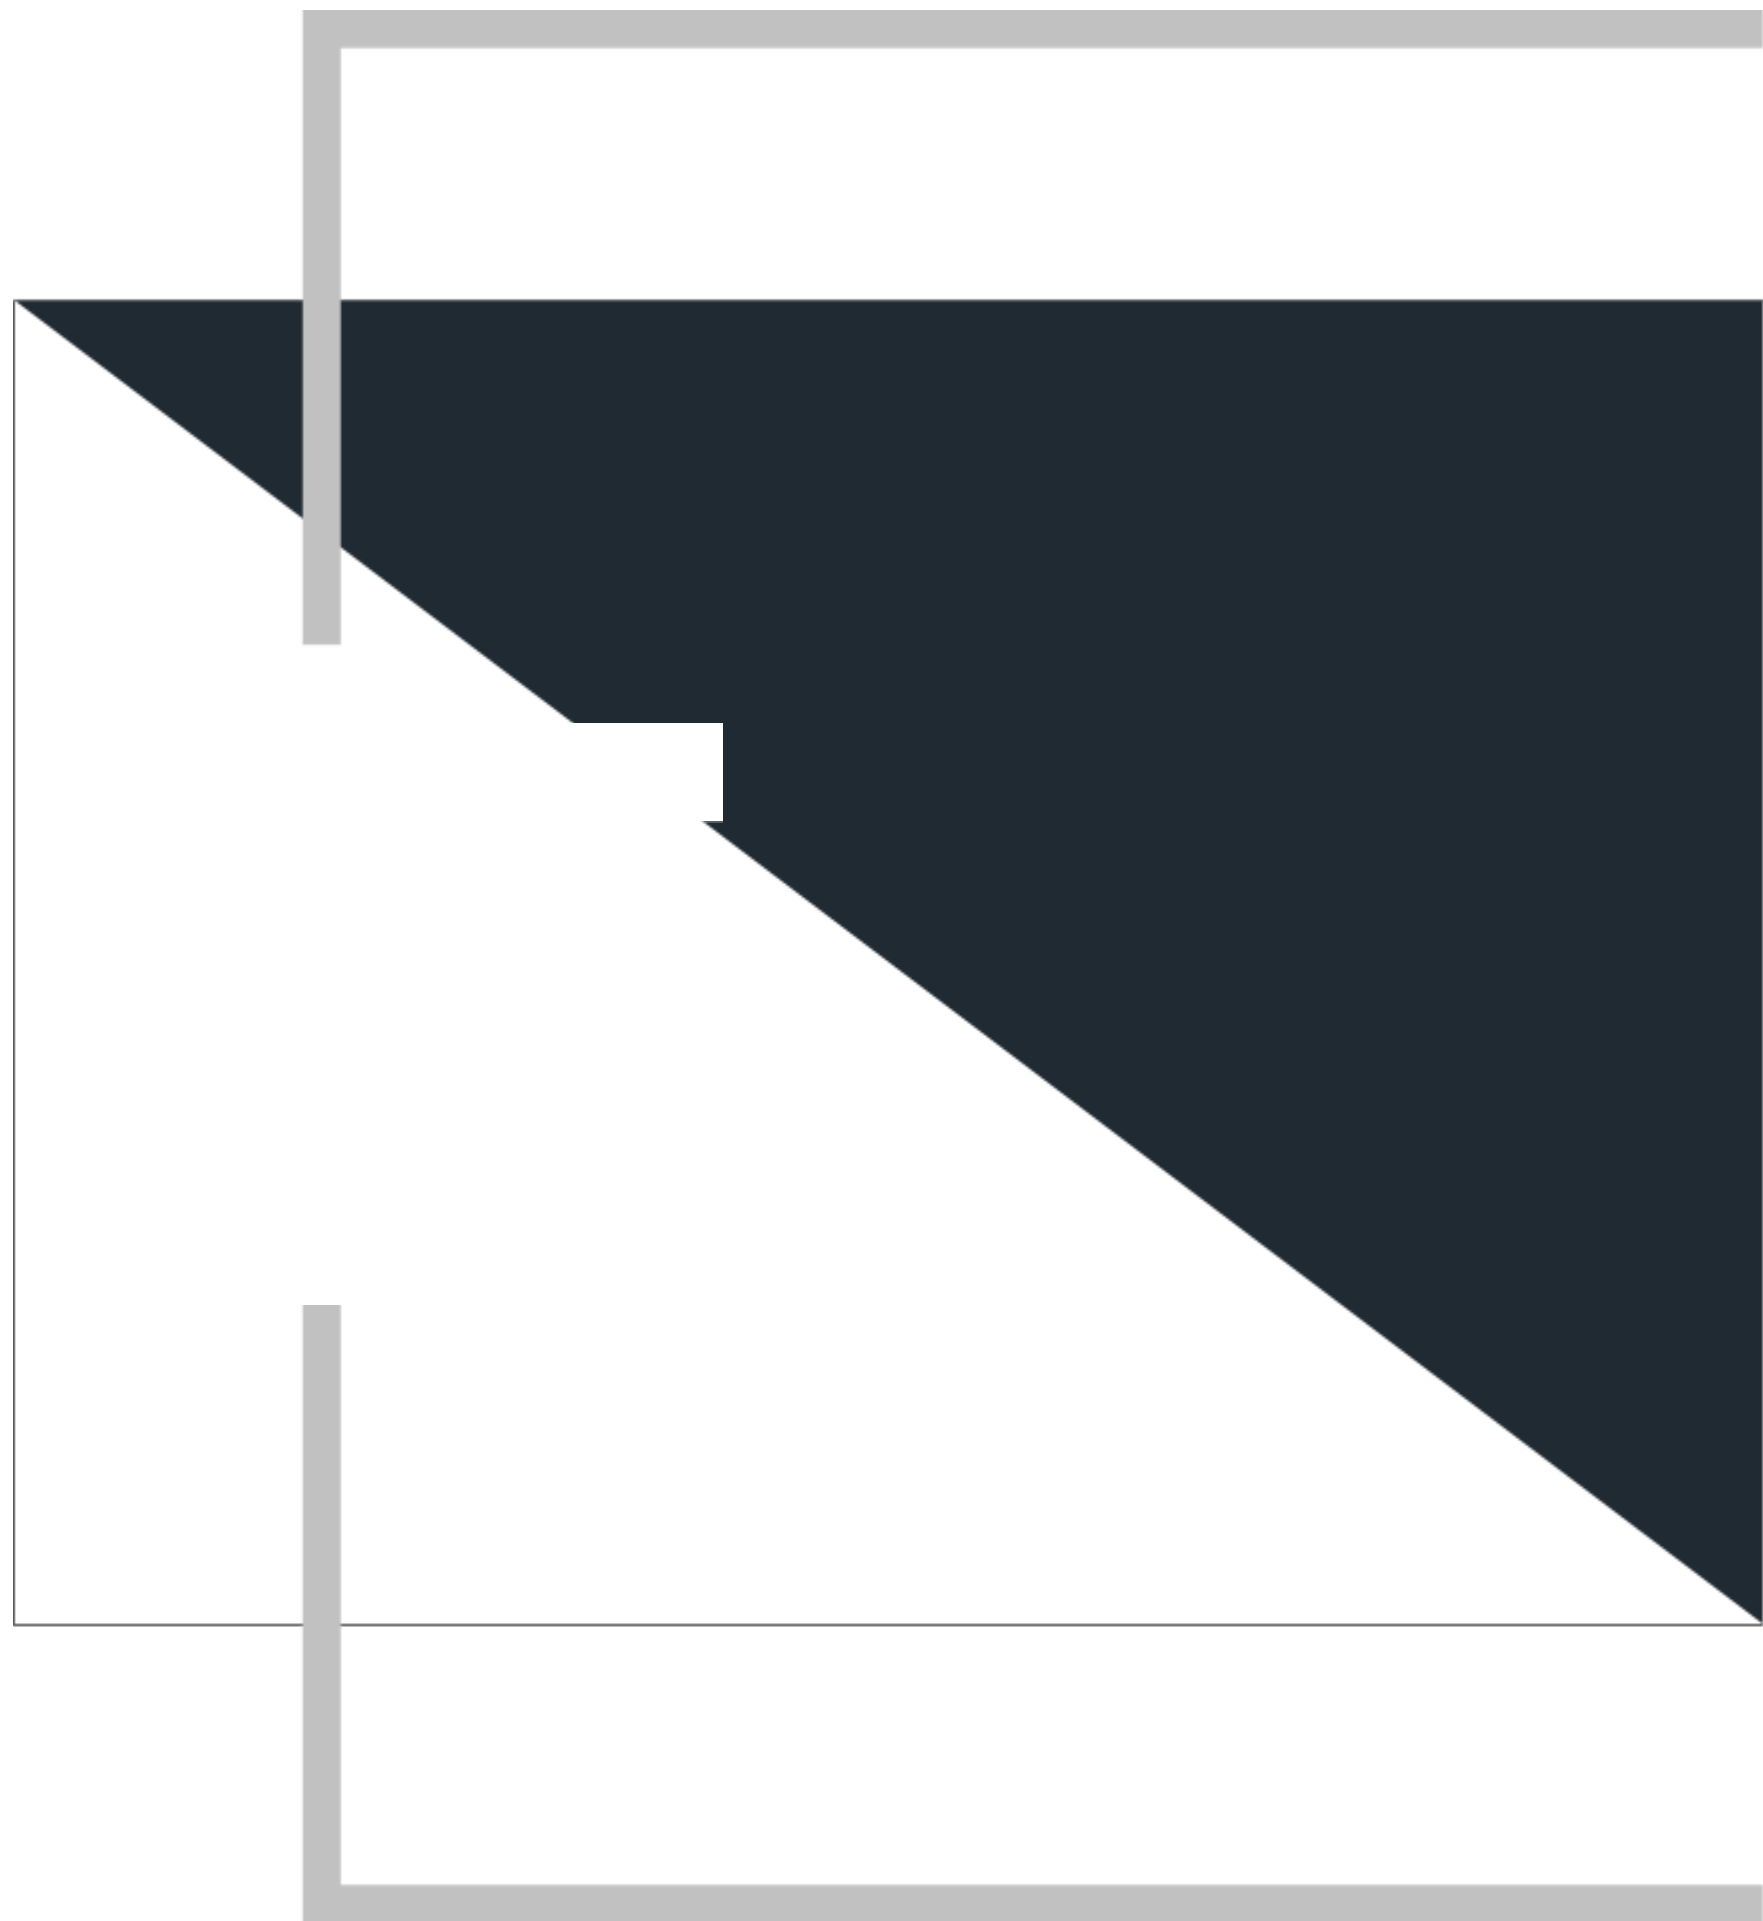

1.2 ABOUT THE FIRM:

PSP Design founded in 2001, is a multi-disciplinary firm of architects in Chennai, with experience in the fields of architecture, interior design and graphic design. The firm is dedicated to developing well designed and creative solutions for residential, commercial and institutional projects. We believe in working with a team of qualified specialists, tailored to the need of each project, that will allow the firm to handle a range of projects while guaranteeing personal attention to every detail.

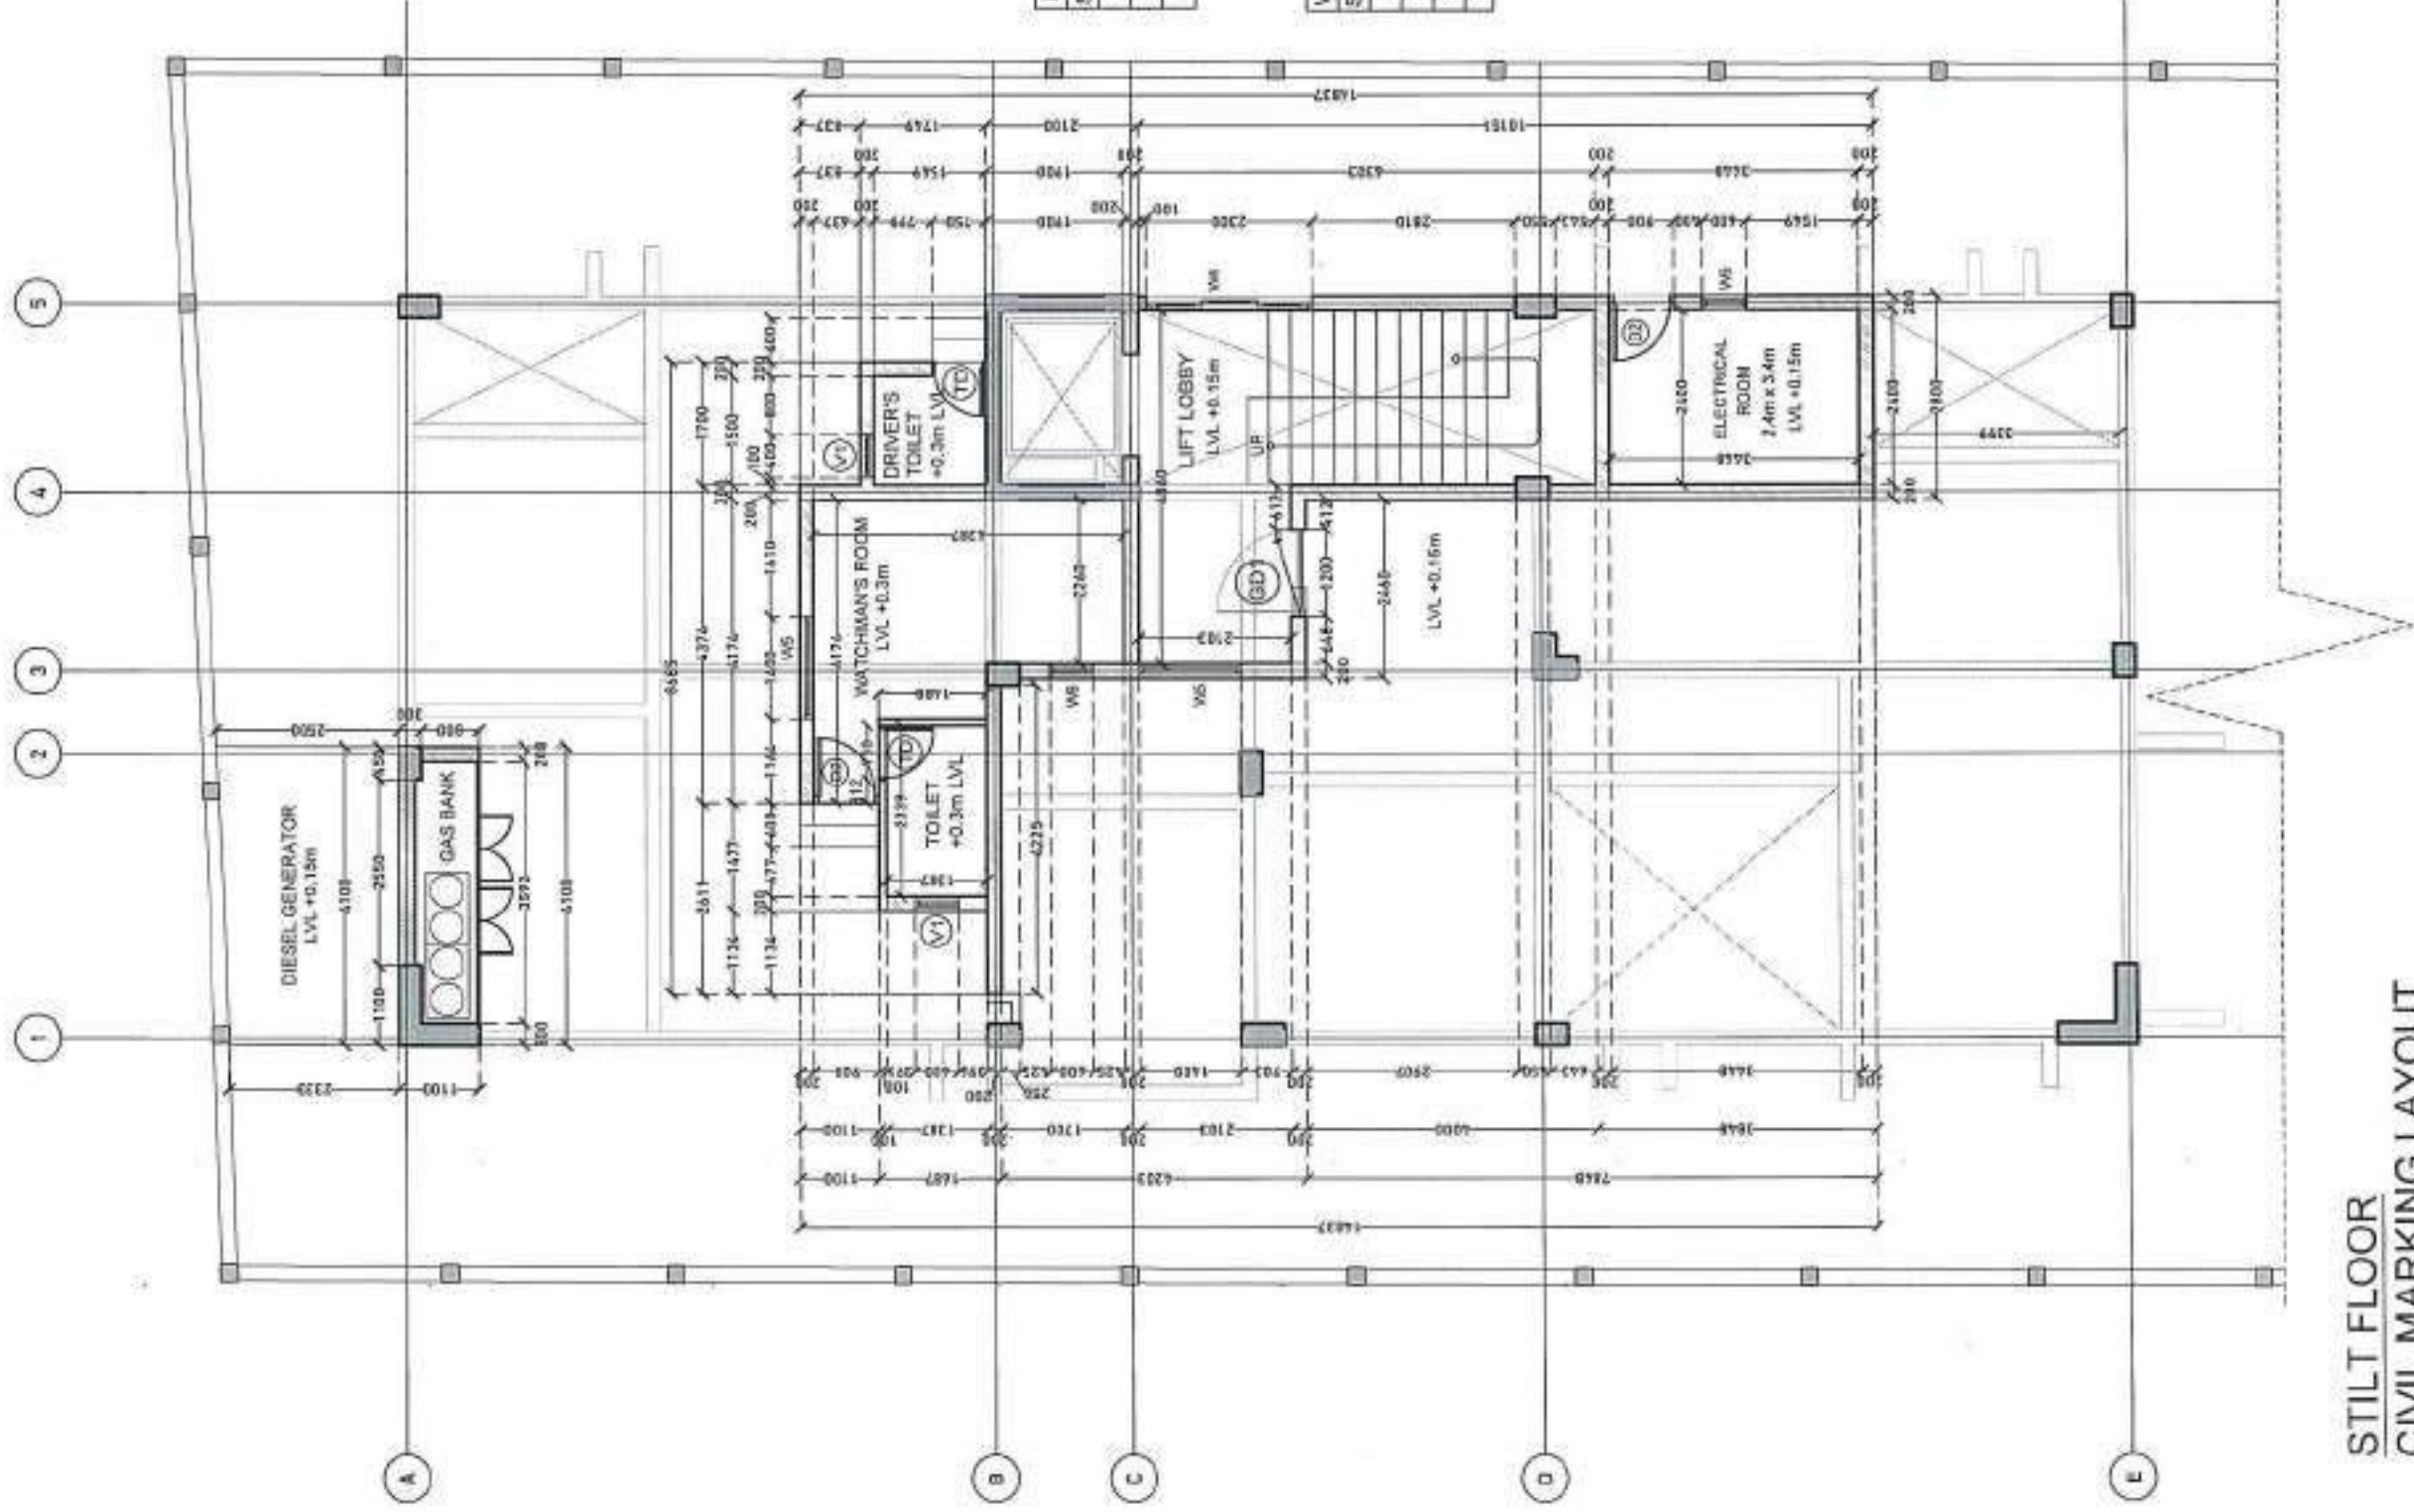

Our works seek to minimize the negative environmental impact of buildings by working on efficiency and moderation on the use of materials, energy and development space. Energy efficiency over the entire life cycle of a building is the most important goal of sustainable architecture and this is achieved by different techniques to reduce the energy needs of the building and capture or generate their own energy.

PSP DESIGN has also secured second prize in global competition for the National War Memorial, Delhi and several other awards related to various fields in architecture.

1.10 CRITICAL OVERVIEW

PSP DESIGNS are known for their various designs in residential and commercial projects. The firm gave the freedom in designing and exploring new ideas which made me to understand the possibilities of a design.

Every discussion with the principle architect was a new learning in various fields of the design. The work culture and organization of the firm was impressive.

The firm thought me the process of a project from designing to the completion of project. The standard of my drawing has increased after working in this firm. I got to work under professionals with minimum experience of 3 years which paved way for me to get a clear understanding about the detail drawings as well as the office work flow.
