PLACE : CHENNAI

SIGNATURE OF CANDIDATE

ACKNOWLEDGEMENT

I am pleased to acknowledge my sincere thanks to the **Board of Management of SATHYABAMA** for their kind encouragement in doing this project and for completing it successfully. I am grateful to them.

I convey my thanks to **Dr. Devyani Gangopadhyay**, Dean, School of Building and Environment, and **Dr. SURESH KUPPUSAMY**, Design Chair, Department of Architecture for having been a constant source of support and encouragement.

I wish to express my thanks to all Teaching and Non-teaching staff members of the Department who were helpful in many ways for the completion of the project.

I would like to express my sincere and deep sense of gratitude to **Ar. Parthsarathi Dutta Gupta, partner of Pithavadian and Partners, Arunachalam Rd, Chitra Nagar, Kotturpuram, Chennai, Tamil Nadu 600085** for his valuable guidance, support, and constant encouragement which paved way for the successful completion of my Practical training session. I also wish to express my gratitude to the entire Pithavadian and Partners team who gave me complete freedom to explore and experiment with my ideas.

13: CRITICAL OVERVIEW OF THE FIRM	60

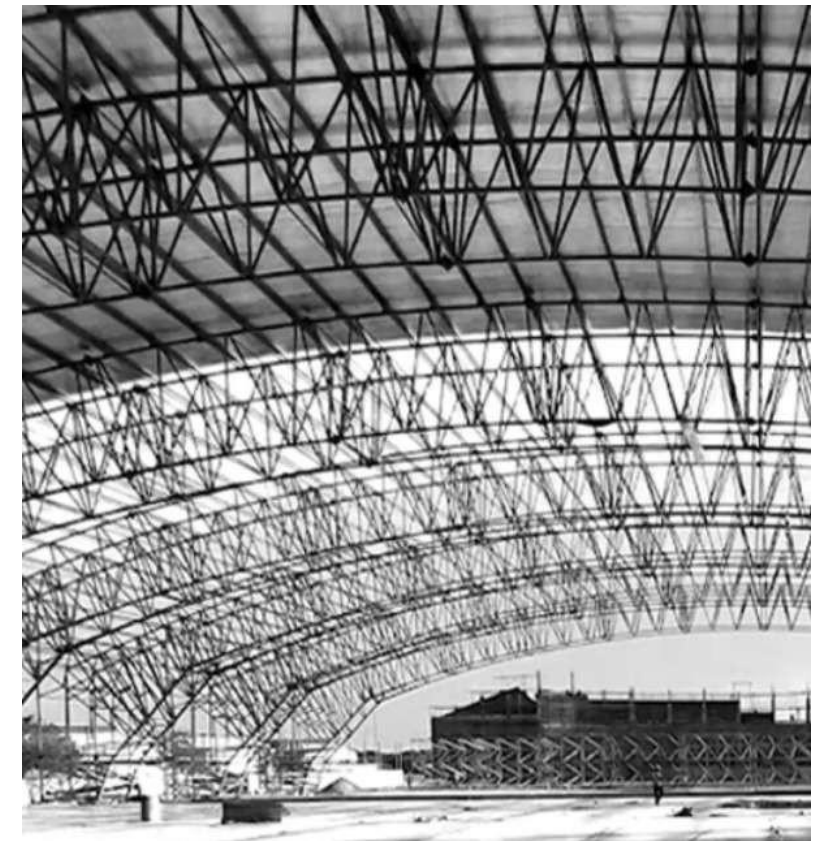

1.1 GENERAL:

I see this opportunity as a way to contribute to a well-experienced firm Pithavadian and Partners, which has versatile functioning projects in hand, with my skills associated with the same, as an enthusiastic intern. I believe we can have a mutually beneficial employment relationship. I also feel that my skills are particularly well-suited to this position as an intern in this firm and I also have a scope to enhance, grow and gain knowledge. I was also excited about the job opportunity, as it would allow me to gain knowledge of Architectural details and structural aspects of design.

1.2 ABOUT THE FIRM:

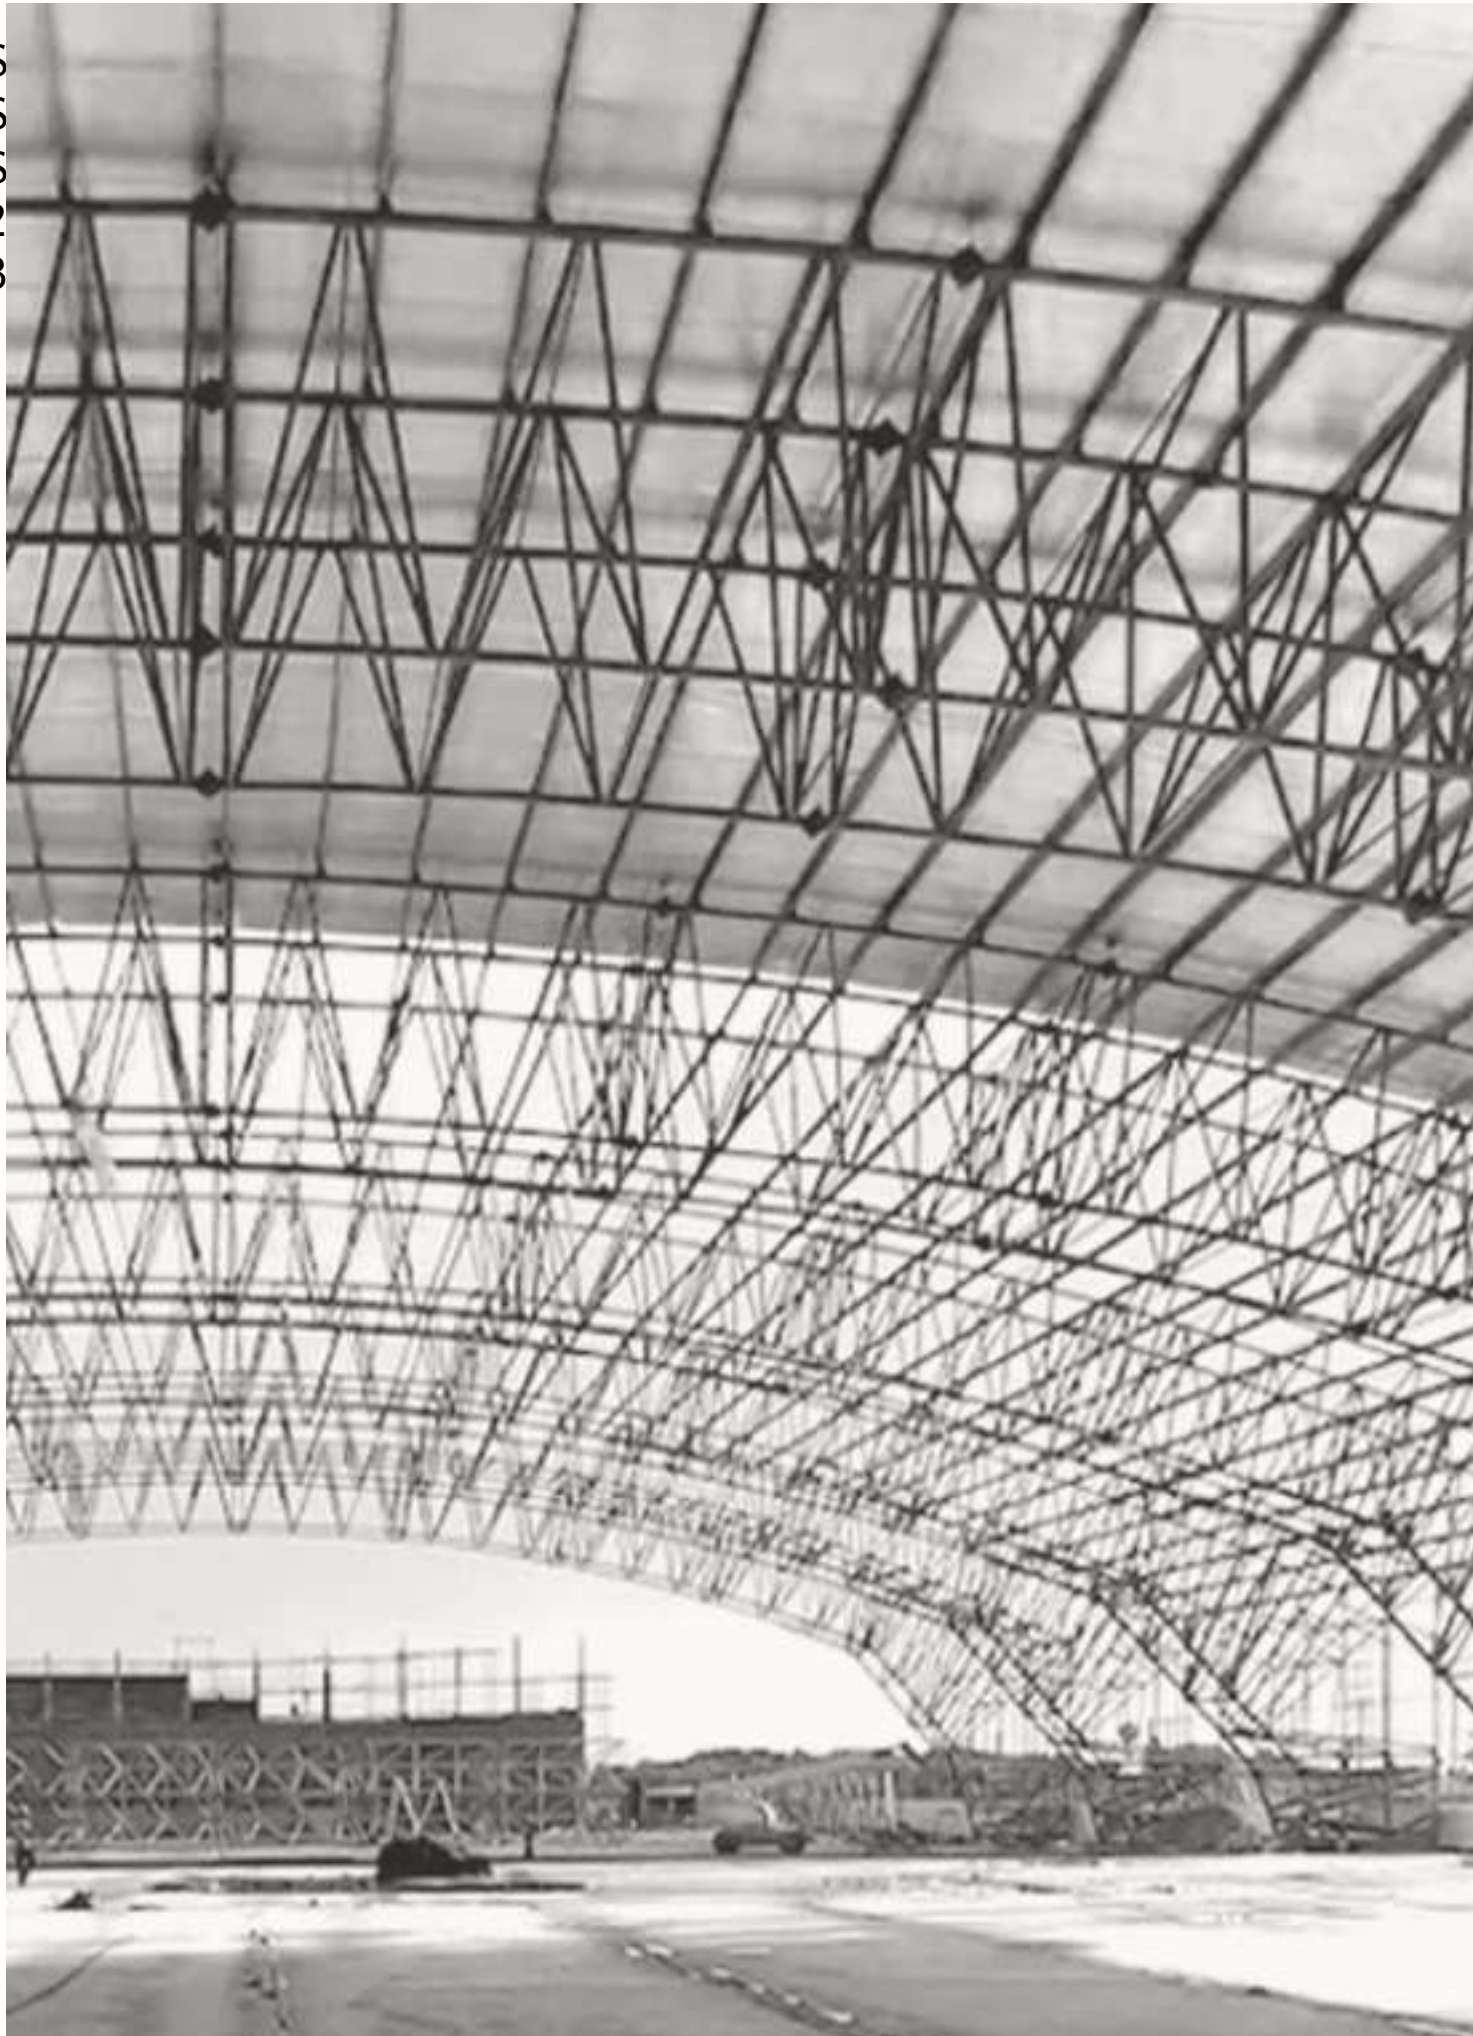

Pithavdian and Partners is a firm of Architects, Planners, and Engineers with offices in Chennai, Bengaluru, Kochi, and Hyderabad. The firm offers comprehensive services including architecture, interiors, planning, engineering, and project management for all types of buildings, sites, and services projects. The Firm was originally established in the year 1919 in the name of Jackson and Barker, was renamed Prynne, Abbot, and Davis in the year 1947, and later in 1972, it became Pithavadian and Partners. The Firm, today, continues to operate under the same name and is managed by two continuing Partners, they being Mr.Parthsarathi Dutta Gupta as Managing Partner and Mr.N.Balachander as Partner.

After 90 years of innovative practice, the Firm's portfolio of over 3000 built works spans all sectors, sizes, and complexity. We believe that our focus on service is a benchmark of the Firm's growth and can be manifested by our long-standing relationships with many of our existing Clients. The Firm has designed buildings throughout India, comprising high-rise buildings for Corporate and Banks, campuses for Universities and Research and Development establishments, Factory complexes, Auditoria, Hospitals, and small and large Residential colonies, among others. We have designed the township for the Indian Space Research Organisation at Sriharikota for 3000 families which won the "Habitation Space International Award". The drawings of this project were exhibited at the Festival of India Exposition held in Paris.

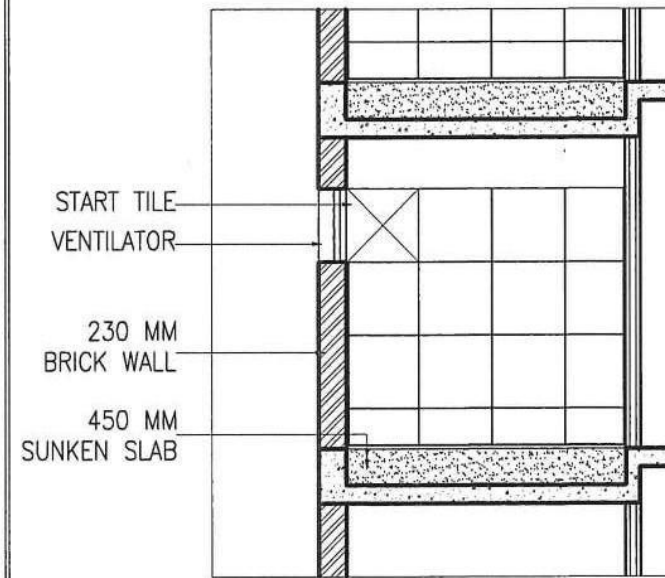

We have a total staff strength of over 100 which mainly consists of Architects, Engineers, and other technical staff. We also have in-house capabilities for Mechanical and Electrical Engineering. For specialized services such as HVAC, Fire and Safety Systems, BMS, GB, and Landscaping, some of the best Consultants in their respective fields are part of our Team.

13 CRITICAL OVERVIEW:

This internship has been one of the most valuable experiences I have undergone as an Architecture student. At Pithavadian and Partners, I believe I was able to sharpen my skills and gain knowledge in various aspects of Architecture. From the very beginning, I was given constant support and guidance which has helped me gain confidence in my ability as an architecture student.

In the beginning, I was asked to work on different detailed drawings of staircases, toilets, kitchens, etc., which was very helpful to get a more detailed understanding of the sections. I was actually amazed by how much work had to be done for a client to select a tile and a corresponding layout according to his demands. Gradually over a period of time, I had been involved in different projects to do the sections, elevations, 3D models, rendering, and updates to plan after client meetings.

It was very interesting to see the different stages a project undergoes before completion. I was given the opportunity to work on different projects in different stages of completion through which I was able to understand the deliverables required in each stage. I was also able to experience how a project evolves with time according to the requirements and the budget of a client.

The lunch and tea breaks are a highlight at my office. People from all departments (Structural, MEP, Architecture) always sit together and have discussions on either the progress on different projects or something fun. Even though I am just an Intern, I was very much involved in all the conversations where I was able to both gain knowledge and have fun. I feel lucky to have been a part of this firm in my internship period.

37210037 Arijeet Deb Roy 2017 - 2022

THANK YOU!
