AMIRTHA STORES - JEWELLERY SHOP @ THANJAVUR - PROPOSED INTERIOR WORK

ON SITE - SKETCHES

P. Chaitanya

CRITICAL OVERVIEW

The firm is a challenging place to work in. The firm is a single unit with multiple professionals performing multiple tasks, indulged in constant interaction forming a web matrix which has been the most interesting part in the working period. The constant ideation and discussions form the driving force of progress. Several challenging tasks with standard operating procedures - SOP and digitally evolved system has been very intriguing.

The firm not only trains people along the lines of Architecture and construction, but also emphasis the importance of Marketing in any field, Business and Revenue generation schemes through built form, Branding - Future of Architecture and Project Management. In the course of my training, I have been exposed through all the minor to major activities ranging from graphic design - budgeting - branding – marketing - sales - construction - coordination and client relationship building. The firm has been very supportive of new trainee and has given multiple opportunities to find the best suiting streamline for each individual. The training has been an enormous exposure period wrt to practical understanding and procedures in a project procurement, management, execution and completion.

THANK YOU
