CRITICAL OVERVIEW:

- My overall experience with the Architect firm over the last four months was a great experience. During this period I learned how to solve a design from a practical perspective.
- This internship gave me a good opportunity to implement my 4.5 yrs of learnings in practical mode and see the output. It also helped me to understand and participate in varying thought processes and application of techniques by various professional architects.
- I could learn a lot about a complete project cycle including project development, coordination with vendors and proper workflow management.
- I heartily thank Ar. Kannan Gopalakrishnan sir for giving me this opportunity to learn and develop skills that will be more helpful for my future endeavors, I also thank the entire team for motivating me for the same.
