External Examiner

DECLARATION

I, **SOUNDHARYA S** hereby declare that the project report entitled “**PERSONAL PORTFOLIO WEBSITE**” done by me under the guidance of **Dr. SENDURU SRINIVASALU** is submitted in partial fulfilment of the requirements for the award of Bachelor of Technology Degree in Information Technology.

DATE: 13/11/2021

Place: Chennai

SIGNATURE OF THE CANDIDATE

ACKNOWLEDGEMENT

I am pleased to acknowledge our sincere thanks to Board of management of **SATHYABAMA** for their kind encouragement in doing this project and for completing it successfully. I am grateful to them.

I convey our thanks to **Dr. T. SASIKALA, M.E., Ph.D., Dean, School of Computing** and **Dr. R. SUBHASHINI, M.E., Ph.D., Head of the Department, Department of Information Technology** for providing us the necessary support and details at the right time during the progressive reviews.

I would like to express our sincere and deep sense of gratitude to our Project **Dr. R. Subhashini, M.E., Ph.D.**, for her valuable guidance, suggestions and constant encouragement paved way for the successful completion of my project work.

I wish to express our thanks to all Teaching and Non-teaching staff members of the Department of **INFORMATION TECHNOLOGY** who were helpful in many ways for the completion of the project.

ABSTRACT

In this growing tech industry it is recommended to do things in a digital way. With that in mind, this project is about sharing a person's achievements, experiences and their various skills in a more decorous format in the form of a Responsive Portfolio Website.

This project is useful for a student. The student provides information about his/her achievements, experiences, projects, passion etc.

To conclude, a portfolio is a compilation of work samples and professional documentation that provides proof of a person's accomplishments over the course of time that helps in personal branding and might help the recruiters or anyone in general to get more info about a person.

CHAPTER 1

INTRODUCTION

1.1 GENERAL

The main purpose of this online Personal Portfolio Website is to Professionally showcase the work of Student. It may be the First Impression for the employers. Online Personal Portfolio increases your visibility and online presence. As the website is hosted, Using the Portfolio link it is easy to access the portfolio website instantly. Personal Portfolio Website showcases one's progress more than a resume. Portfolio link:

<https://soundharyaportfolio.000webhostapp.com/>

CHAPTER 2

HOW TO USE THE WEBSITE

2.1 STEPS

Step 2.1.1: Visit the following url:

<https://soundharyaportfolio.000webhostapp.com/>

Step 2.1.2: Now you can see the Home page of my Personal Portfolio Website. All the Navigation bars and Social Media Profile Icons is displayed in the left side of the page.

Step 2.1.3: Click on About me in navigation.

Step 2.1.4: Now you can view the About me Page, Introduction about me and some more professional information about me and my skills are displayed.

Step 2.1.5: Next click on Resume in the navbar. Here my Education details like Secondary Education, Intermediate Education and Undergraduate Education will be displayed. In Addition to that Professional Experience details like Internship, Event Organizing, Open Source Contribution will be displayed there.

Step 2.1.6: Next click on Projects in the navbar. The projects I have done so far will be displayed there along with the link to the project.

Step 2.1.7: Next click on Contact in the navbar. If any one who is viewing

my portfolio website if they want to contact me for anything or get in touch with me they can enter their details with proper email address in the Contact form and click on “Send Message”.

Step 2.1.8: Now the user who sent me the message will receive a reply message in their inbox.

Step 2.1.9: Then I will get their message through my email with the details they entered.

Step 2.1.10: So that I can reply back to them whenever I see the mail.

CHAPTER-3 SOFTWARES USED

3.1: CODE EDITORS USED

3.1.1 VISUAL STUDIO CODE

Visual Studio Code is a source-code editor developed by Microsoft for Windows, Linux and MacOS. It includes support for debugging, embedded Git control and GitHub, syntax highlighting, intelligent code completion, snippets, and code refactoring.

3.2 LANGUAGES USED

3.2.1 HTML5

Hypertext Markup Language is the standard markup language for documents designed to be displayed in a web browser. It can be assisted by technologies such as Cascading Style Sheets and scripting languages such as JavaScript.

3.2.2 CSS3

Cascading Style Sheets (CSS) is a stylesheet language used to describe the presentation of a document written in HTML or XML (including XML dialects such as SVG, MathML or XHTML). CSS describes how elements should be rendered on screen, on paper, in speech, or on other media

3.2.3 PHP

PHP is an open-source, interpreted, and object-oriented scripting language that can be executed at the server-side. PHP is well suited for web development. Therefore, it is used to develop web applications (an application that executes on the server and generates the dynamic page.). Php can be embedded into HTML.

3.3 FRAMEWORKS USED

3.3.1 BOOTSTRAP

Bootstrap is a free and open-source CSS framework directed at responsive, mobile-first front-end web development. It contains CSS- and JavaScript-based design templates for typography, forms, buttons, navigation, and other interface components.

3.3.2 YII2 PHP FRAMEWORK

Yii2 Framework is an open source PHP Framework for developing modern web applications. Yii2 provides secure and professional features to the project.
