DECLARATION

I hereby declare that the Project Report entitled "**RESTRURANT SYSTEM**" done by me under the guidance of Dr. Mary Gladence.L M.E., Ph.D., at Sathyabama Institute of Science and Technology (Deemed to be University), Jeppiaar Nagar, Rajiv Gandhi Salai, Chennai - 600119 is submitted in partial fulfillment of the requirements for the award of Bachelor of Technology degree in Information Technology.

DATE: 21/01/2021

Place: Chennai

SIGNATURE OF THE CANDIDATE

ACKNOWLEDGEMENT

I am pleased to acknowledge our sincere thanks to Board of management of **SATHYABAMA** for their kind encouragement in doing this project and for completing it successfully. I am grateful to them.

I convey our thanks to **Dr. T. SASIKALA M.E., Ph.D., Dean, School of Computing** and **Dr. R. SUBHASHINI M.E., Ph.D., Head of the Department, Department of Information Technology** for providing us the necessary support and details at the right time during the progressive reviews.

I would like to express our sincere and deep sense of gratitude to our Project **Dr. MARY GLADENCE.L M.E., Ph.D.**, for her valuable guidance, suggestions and constant encouragement paved way for the successful completion of my project work.

I wish to express our thanks to all Teaching and Non-teaching staff members of the Department of **INFORMATION TECHNOLOGY** who were helpful in many ways for the completion of the project.

COURSE CERTIFICATE

INTERNSHIP CERTIFICATE

Date: 24th July 2020

TO WHOMSOEVER IT MAY CONCERN

This to certify that **Ms. Jothi Lakshmi V** student of Bachelor of Technology, Information Technology in Sathyabama University, Chennai has successfully completed the **Virtual Internship Programme in Python** at Convene India Pvt Ltd, Noida from **6th July 2020 to 24th July 2020.**

We found that her performance was Good during this tenure.

We wish her all the best for his future endeavours.

For Convene India,

Hari Prasath S
Manager - HR, Finance, Admin.

ABSTRACT

RESTAURANT SYSTEM

Web development is the main objective of the project. For this web development we approach some popular and famous language HTML5, CSS3, Javascript, Bootstrap Framework. Those languages help to produce a marvellous web application that is known as HOTEL AMIL which helps us to order every type of food for our convenient with the required number of quantity and flavours.

This application can run on any type of devices and any type of browsers such as Chrome, Opera, Mozilla Firefox, Safari and so on. It helps the end users to order food and mapping to the hotel location on online easily. Ordering food in online is the main purpose of the web development in a user friendly manner approach. The end user can access his/her favourite easily by navigate through the different category and also that person can add those food to the cart to order it . Each and every person can have their own account to login to the restaurant and can order food on online. If a user doesn't have any account they are also allowed to view the menu chart and access the full content.

CHAPTER 1

INTRODUCTION

The introduction of the chapter is to explain the online ordering in a specific food restaurant. The “RESTAURANT SYSTEM” is undertaken as a project based on relevant technologies.

The main aim of this project is to develop the software for the process of ordering food on online should lead to user friendly and reduced common drawbacks.

1.1 OBJECTIVES

- To develop a system to managing your orders, this will perform all the functions with a click of mouse button's
- To develop a system that has good management of data along with integrity and minimizing redundancy.
- To develop a system that will be user friendly in all possible ways.
- To provide better user support for customers

1.2 FESILITIES OF ONLINE RESTSAURANT

1)Faster System

2)Accuracy

3)Reliability

4)User Friendly

5)Ordering on online

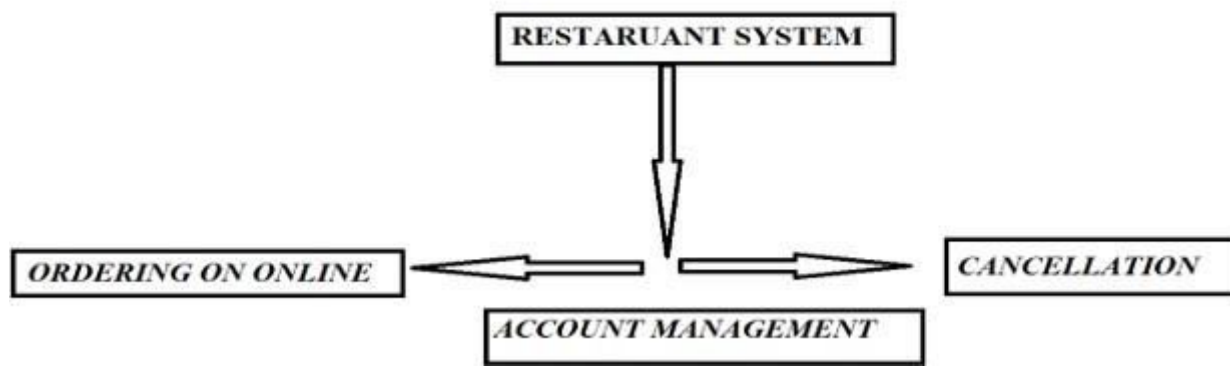

FIG 1. RESTAURANT SYSTEM

1.3 MODULES

- Sign up
- Login
- Accessing and managing own Account
- Home
- Menu page
- Info
- Single Category
- Cart page
- **Sign up:** It's the first step where the user enters their personal information.
- **Login:** It's one of the pages where user enters the registered information .
- **Accessing and managing own Account:** In this page the user can access their own content and can change their personal information
- **Home:** In this page we can access every separate page that is linked in the home page
- **Menu page:** In this menu page end user can access every single category of menu and then add it to the cart.
- **Info:** Out hotel personal information is shown in this page.

- **Single category:** In this page every single item's description and price are given and also we can select the quantity to order.
- **Cart page:** In this cart page we can edit the item such as delete or add some item by clicking the add button it redirects the page to home

1.4 FEASIBILITY STUDY

The main aim of feasibility study is to determine whether developing the product *is* financially and technically feasible. The feasibility study involves analysis of the problem and collection of the data which would be input to the system, the processing required to be carried out on these data, the output data required to be produced by the system.

The various feasibility studies are:

- Economic Feasibility
- Operational Feasibility
- Technical Feasibility
- Schedule Feasibility

FIG 2. ARCHITECTURE

1.5 SYSTEM REQUIREMENTS

SOFTWARE REQUIREMENTS

- Windows 7,8 or 10
- HTML5, CSS3, Javascript, Bootstrap Framework.
- Chrome or Mozilla or Internet Explorer or Firefox or Safari or Opera
- MYSQL

HARDWARE REQUIREMENTS

- 4GB RAM and Above
- PROCESSOR 250 MHz to 833 MHz

CHAPTER 2

2.1 THEME OF PROJECT

The aim of the project is to develop a userfriendly online ordering web application “HOTEL AMIL”. This should be used in an effective way so that various advantages are obtained through the software. Web development is the main objective of the project. For this web development we approach some popular and famous language HTML5, CSS3, Javascript, Bootstrap Framework. Those languages help to produce a marvellous web application that is known as HOTEL AMIL which helps us to order every type of food for our convenient with the required number of quantity and flavours. This application can run on any type of devices and any type of browsers such as Chrome, Opera, Mozilla Firefox, Safari and so on.

2.2 PROPOSED SYSTEM

A quick feature of this project is you can add your foods to the easily and fastly without any interruption by navigating through all of the pages in each and every page and the ordering methods, payment methods are also easy for the user.

2.3 ADVANTAGES

2.3.1 User friendly navigation is provided in the application with various controls.

2.3.2 The system makes the overall project management much easier and flexible.

2.3.3 Vast amount of data can be stored.

2.3.4 There is no risk of data mismanagement at any level while the project development is under process.

ABOUT.HTML

CONCLUSION:

It has been a great pleasure for me to work on this exciting and challenging project. This project proved good for me as it provided practical knowledge of not only programming in application and no some extent Windows Application, but also about all handling procedure related with “Online Restaurant System”. It also provides knowledge about the latest technology used that will be great demand in future. This will provide better opportunities and guidance in future in developing projects independently.
