ABSTRACT

My project is about creating a Responsive Photography studio website for a startup company called "SAK Studio". This website illustrates the works and services of Photography, Design and Art work of SAK Studio. The main purpose of this website is to facilitate the offline customers online. The ultimate aim of this project is to build a customer friendly website for all kinds of Photography, Designing and Art. The people those who are looking to capture their memories (Photography), those who are looking to design Logo for films or companies and those who wants any Art work will get more benefitted through this website. The customers can view all kinds of works and services of SAK Studio in this website. They can choose any services and they can contact SAK Studio team through the contact details given in this website. This Website is done with the help of languages called HTML5, CSS3, BOOTSTRAP. You can find the website in google typing the link <https://sakstudio.github.io/web/>.
