BONAFIDE CERTIFICATE

This is to certify that this Project Report is the Bonafide work of **Yashswi Kaushik(38120096)** who carried out the project entitled “SPORTS WEBSITE” under my supervision August 2020 to January 2021.

Internal Guide Name

Dr. R M Gomathi, M.Tech., Ph.D.

Head of the Department

Dr.R.SUBHASHINI ., M.E., Ph.D.,

Submitted for Viva voce
Internal Examiner

Examination held on
External Examiner

DECLARATION

I Yashswi Kaushik (reg no:38120096) hereby declare that the Project Report entitled "SPORTS WEBSITE" done by me under the guidance of **Dr. R M Gomathi, M.Tech., Ph.D.** and at **Github** is submitted in partial fulfillment of the requirements for the award of Bachelor of Technology degree in INFORMATION TECHNOLOGY.

DATE : 23-01-2021

PLACE: Chennai

SIGNATURE OF THE CANDIDATE

ACKNOWLEDGEMENT

I am pleased to acknowledge my sincere thanks to **Board of Management of SATHYABAMA** for their kind encouragement in doing this project and for completing it successfully. I am grateful to them.

I convey my thanks to **Dr.T.SASIKALA., M.E., Ph.D.**, Dean, School of Computing **Dr. R. SUBHASHINI M.E, Ph.D.**, Head of the Department of Information Technology for providing me necessary support and details at the right time during the progressive reviews.

I would like to express my sincere and deep sense of gratitude to my Project Guide **Dr. R M Gomathi, M.Tech., Ph.D.**, for her valuable guidance, suggestions and constant encouragement paved way for the successful completion of my project work.

I wish to express my thanks to all Teaching and Non-teaching staff members of the **Department of INFORMATION TECHNOLOGY** who were helpful in many ways for the completion of the project.

ABSTRACT

- Sport includes all forms of competitive physical activity or games which, through casual or organized participation, at least in part aim to use, maintain or improve physical ability and skills while providing enjoyment to participants, and in some cases, entertainment for spectators. Sports can bring positive results to one's physical health. Hundreds of sports exist, from those between single contestants, through to those with hundreds of simultaneous participants, either in teams or competing as individuals. In certain sports such as racing, many contestants may compete, simultaneously or consecutively, with one winner; in others, the contest (a match) is between two sides, each attempting to exceed the other. Some sports allow a "tie" or "draw", in which there is no single winner; others provide tie-breaking methods to ensure one winner and one loser. A number of contests may be arranged in a tournament producing a champion. Many sports leagues make an annual champion by arranging games in a regular sports season, followed in some cases by playoffs.

CHAPTER 1

INTRODUCTION

1.1 GENERAL

Programming languages are often called programmers or developers. The things we tell software using a programming language is our way of communicating with software. A The people who use language could be to make a webpage look a certain way, or to make an object on the page move if the human user takes a certain action.

Programming, or coding, is like solving a puzzle. Consider a human language, like English or French. We use these languages to turn thoughts and ideas into actions and behavior. In programming, the goal of the puzzle is exactly the same -- you're just driving different kinds of behavior, and the source of that behavior isn't a human. It's a computer.

Programming in Web Development

when a web designer is given an end goal like "create a webpage that has this header, this font, these colors, these pictures, and an animated unicorn walking across the screen when users click on this button," the web designer's job is to take that big idea and break it apart into tiny pieces, and then translate these pieces into instructions that the computer can understand -- including putting all these instructions in the correct order or syntax.

Every page on the web that you visit is built using a sequence of separate instructions, one after another. Your browser (Chrome, Firefox, Safari, and so on) is a big actor in translating code into something we can see on our screens and even interact with. It can be easy to forget that code without a browser is just a text file -- it's when you put that text file into a *browser* that the magic happens. When you open a web page, your browser fetches the HTML and other programming languages involved and interprets it.

CHAPTER 2

AIM AND SCOPE

2.1 AIM

The main aim of this project is that any sports enthusiast can join different sports clubs and can gain knowledge about famous sports personalities .

2.2 SCOPE

It's a sports website where you can join different sport clubs, get to know about famous sports celebrities, government approaches towards encouraging sports, ranking and ratings, sports calendar and play sports quiz . It operates in HTML, css and javascript canvas, so your website can work on any device. It's a online platform to encourage our youth towards sports. You can join different sports club rate card is mentioned on the website.

CHAPTER 3

SYSTEM ANALYSIS

3.1 GENERAL

3.1.1 HTML, CSS, & JavaScript

An overview:

HTML provides the *basic structure* of sites, which is enhanced and modified by other technologies like CSS and JavaScript.

CSS is used to control *presentation, formatting, and layout*.

JavaScript is used to control the *behavior* of different elements.

Now, let's go over each one individually to help you understand the roles each plays on a website and then we'll cover how they fit together. Let's start with good ol' HTML.

HTML

HTML is at the core of every web page, regardless the complexity of a site or number of technologies involved. It's an essential skill for any web professional. It's the starting point for anyone learning how to create content for the web. And, luckily for us, it's surprisingly easy to learn. HTML stands for HyperText Markup Language. "Markup language" means that, rather than using a programming language to perform functions, HTML uses tags to identify different types of content and the purposes they each serve to the webpage. Using HTML, you can add headings, format paragraphs, control line breaks, make lists, emphasize text, create special characters, insert images, create links, build tables, control some styling, and much more.

CSS

CSS stands for Cascading Style Sheets. This programming language dictates how the HTML elements of a website should actually appear on the frontend of the page. HTML provides the raw tools needed to structure content on a website. CSS, on the other hand, helps to style this content so it appears to the user the way it was intended to be seen. These languages are kept separate to ensure websites are built correctly before they're reformatted. If HTML is the drywall, CSS is the paint.

Whereas HTML was the basic structure of your website, CSS is what gives your entire website its style. Those slick colors, interesting fonts, and background images? All thanks to CSS. This language affects the entire mood and tone of a web page, making it an incredibly powerful tool -- and an important skill for web developers to learn. It's also what allows websites to adapt to different screen sizes and device types.

CSS is a list of rules that can assign different properties to HTML tags, either specified to single tags, multiple tags, an entire document, or multiple documents. It exists because, as design elements like fonts and colors were developed, web designers had a lot of trouble adapting HTML to these new features.

JavaScript

JavaScript is a more complicated language than HTML or CSS, and it wasn't released in beta form until 1995. Nowadays, JavaScript is supported by all modern web browsers and is used on almost every site on the web for more powerful and complex functionality.

JavaScript is a logic-based programming language that can be used to modify website content and make it behave in different ways in response to a user's actions. Common uses for JavaScript include confirmation boxes, calls-to-action, and adding new identities to existing information.

In short, JavaScript is a programming language that lets web developers design interactive sites. Most of the dynamic behavior you'll see on a web page is thanks to JavaScript, which augments a browser's default controls and behaviors.

JavaScript is particularly useful for assigning new identities to existing website elements, according to the decisions the user makes while visiting the page. For example, let's say you're building a landing page with a form you'd like to generate leads from by capturing

information about a website visitor. You might have a "string" of JavaScript dedicated to the user's first name.

Other uses for JavaScript include security password creation, check forms, interactive games, animations, and special effects. It's also used to build mobile apps and create server-based applications. You can add JavaScript to an HTML document by adding these "scripts," or snippets of JavaScript code, into your document's header or body.

3.2 SOFTWARES USED

CODE EDITORS USED

NOTEPAD++

Notepad++ is a [text](#) and [source code editor](#) for use with [Microsoft Windows](#). It supports [tabbed](#) editing, which allows working with multiple open files in a single window. The project's name comes from the [C increment operator](#).

VISUAL STUDIO CODE

Visual Studio Code is a source-code editor developed by Microsoft for Windows, Linux and MacOS. It includes support for debugging, embedded Git control and GitHub, syntax highlighting, intelligent code completion, snippets, and code refactoring.

CHAPTER 4

SYSTEM REQUIREMENTS,SOURCE CODE,RESULTS AND DISCUSSION

4.1SYSTEM REQUIREMENTS

*OPERATING SYSTEM – WIN/MAC

*INTERNET CONNECTIVITY- REQUIRED

*RAM – 2GB

*BROWSER – CHROME/FIREFOX

4.2 RESULTS AND DISCUSSION

This project involves a working website for joining different sports club and getting to know more about it.

<body>

<p>

<h1>PRIVACY POLICIES</h1>

<h2>WHAT INFORMATION DO WE COLLECT AND FOR WHAT PURPOSE?

We collect a variety of personal information about our users so that we can provide our Service. We do our best to be as transparent as possible about our data practices and to provide you choices about how your data is used when possible. The categories of information we collect can include:

Registration and profile information collected when you join the Service. We may collect personal information such as a username, first and last name, birth date, phone number, e-mail address, and other contact information when you register for a SportsEngine account, participate in a SportsEngine promotion or contest, or if you correspond with us. We may collect billing information if you sign up for premium services or if you make a payment to an Organization.

Data collected through the use of the Service. After you set up your account, you may be able to provide additional information which may be shared through your public profile, such as your height, weight, photograph and/or video and other biographical or personal information ("Profile Information"), and information about your athletic performance or information relating to your team, league, or organization. This information may be provided by a third party, such as a parent, coach, team manager or Organization, or it may be provided by you directly. We also collect information about how you and your Organization's use the Service and the data you input.

Information we collect from social networks. We may receive information about you when you interact with our sites through various social media, for example, by logging in through or liking us on Facebook or following us on Twitter. The data we receive is dependent upon your privacy settings with the social network. You should always review, and if necessary, adjust your privacy settings on third-party websites and services before linking or connecting them to the SportsEngine Service.

Monitoring user activity. We may, at our discretion, monitor the communications that take place on our Service, such as messaging, forums or chat rooms, in order to protect our users and monitor the effectiveness of our Service. You acknowledge that you have no expectation of privacy with respect to any such communications or postings, and you expressly consent to such monitoring.

We use this information to operate, maintain, and provide to you the features of the Service. We may use this information to communicate with you, such as to send you email messages, opt-in text messages, and push notifications and to permit other users of the Service to contact you. You can control your receipt of email and other messaging by visiting the "Settings" page on our website. We may also send you Service-related emails or messages (e.g., account verification, payment

confirmations, change or updates to features of the Service, technical and security notices). You may not opt-out of Service-related e-mails. For more information about your communication preferences, see "Your Choices Regarding Your Information" below.

HOW WE USE COOKIES AND OTHER TRACKING TECHNOLOGY TO COLLECT INFORMATION.

We automatically collect certain types of usage information when you visit our website or use our Service. For instance, when you visit our websites we may send one or more cookies — a small text file containing a string of alphanumeric characters — to your computer that uniquely identifies your browser and lets us help you log in faster and enhance your navigation through the site. A cookie may also convey information to us about how you use the Service (e.g., the pages you view, the links you click, how frequently you access the Service, and other actions you take on the Service), and allow us to track your usage of the Service over time. We may collect log file information about your browser or mobile device each time you access the Service. Log file information may include anonymous information such as your web request, Internet Protocol ("IP") address, browser type, information about your mobile device, referring / exit pages and URLs, number of clicks and how you interact with links on the Service, domain names, landing pages, pages viewed, and other such information. We may employ clear gifs (also known as web beacons) which are used to anonymously track the online usage patterns of our Users. In addition, we may also use clear gifs in HTML-based emails sent to our users to track which emails are opened and which links are clicked by recipients. The information allows for more accurate reporting and improvement of the Service. We may also collect analytics data, or use third-party analytics tools, to help us measure traffic and usage trends for the Service. These tools collect information sent by your browser or mobile device, including the pages you visit, your use of third party applications, and other information that assists us in analyzing and improving the Service. Although we do our best to honor the privacy preferences of our Users, we are not able to respond to Do Not Track signals from your browser at this time, as we believe that there is no consistent industry standard for how to respond to Do Not Track browser settings.

When you access our Service by or through a mobile device, we may receive or collect and store a unique identification number associated with your device ("Device ID"), mobile carrier, device type and manufacturer, phone number, and, depending on your mobile device settings, your geographical location data, including GPS coordinates (e.g. latitude and/or longitude) or similar information regarding the location of your mobile device.

When you upload photographs to SportsEngine, those files may contain location information or other metadata. This metadata may be accessible to others if you share content on the Service.

We may use the data collected through cookies, log file, device identifiers, location data and clear gifs information to: (a) remember information so that you will not have to re-enter it during your visit or the next time you visit the site; (b) provide custom, personalized content and information, including advertising; (c) provide and monitor the effectiveness of our Service; (d) monitor aggregate metrics such

as total number of visitors, traffic, usage, and demographic patterns on our website and our Service; (e) diagnose or fix technology problems; and (f) otherwise to plan for and enhance our service.

Third Party Tracking and Online Advertising. We may permit third party ad networks, social media companies, and other third party services to collect information about browsing behavior from visitors to our Service through cookies, social plug-ins, or other tracking technology. We may permit third party online advertising networks to collect information about your use of our websites over time so that they may play or display ads that may be relevant to your interests on our Service as well as on other websites or services. Typically, the information is collected through cookies or similar tracking technologies. The only way to completely "opt out" of the collection of any information through cookies or other tracking technology is to actively manage the settings on your browser or mobile device. Please refer to your browser's or mobile device's technical information for instructions on how to delete and disable cookies, and other tracking/recording tools. (To learn more about cookies, clear gifs/web beacons and related technologies and how you may opt-out of some of this tracking, you may wish to visit All About Cookies and/or the Network Advertising Initiative's online resources, at [//www.networkadvertising.org](http://www.networkadvertising.org)). Depending on your mobile device, you may not be able to control tracking technologies through settings. If you have any questions about opting out of the collection of cookies and other tracking/recording tools, you can contact us directly at privacy@sportsengine.com.

Please note that SportsEngine hosts some websites on behalf of Organizations and those Organizations may place or permit the placement of cookies and other tracking technology. SportsEngine is not responsible for these tracking practices. You should always read the privacy policy of the Organization if you have questions about the data practices of the Organization website.

SHARING OF YOUR INFORMATION

We may share your personal information in the instances described below. For further information on your choices regarding your information, see the "Your Choices About Your Information" section below.

Remember, our Service allows you to connect with others and share information about yourself with other individuals and organizations. Your profile information, including your name, photo, and other personal information, may be available publicly to other members of the Service and may be searchable by search engines which may display certain of your information publicly. Also, remember that SportsEngine provides some of its Services for third parties such as Organizations and tournament organizers. These third parties have their own data collection and use policies that SportsEngine does not control. Please review the privacy policies of any third party organization before sharing your personal information with that organization.

We may also share your personal information with:

Other companies owned by or under common ownership at SportsEngine. These companies will use your personal information in the same way as we can under this policy;

Third-party vendors and other service providers that perform services on our behalf, as needed to carry out their work for us, which may include identifying and serving targeted advertisements, billing, payment processing, content or service fulfillment, or providing analytic services;

Business partners who offer a service to you jointly with us;

Third parties with whom you interact on SportsEngine Services. For example, when you make information available to an Organization through the Service (e.g., by submitting the information via the Organization's page or by sharing your profile with a tournament organizer, etc.), your personal information will be shared with that Organization and with any third party with whom that Organization also shares information (for example, if that Organization's participation is sponsored by a professional team or league, the Organization may share its members' personal information that that team sponsor). Each Organization may customize the manner in which the Organization collects, uses, and discloses personal information of users who submit information to the Organization, either directly or through the SportsEngine Service. The SportsEngine Privacy Policy does not apply to, and we cannot control the data collection and use practices of, these Organizations. Please consult the respective privacy policies of such Organizations or contact them for more information.

The public. Any information that you voluntarily disclose for posting to the Service is viewable by other users and the public. You may be able to control some elements of data sharing through your privacy Settings.

Other parties in connection with a company transaction, such as a merger, sale of company assets or shares, reorganization, financing, change of control or acquisition of all or a portion of our business by another company or third party or in the event of a bankruptcy or related or similar proceedings; and

Third parties as required by law or subpoena or to if we reasonably believe that such action is necessary to (a) comply with the law and the reasonable requests of law enforcement; (b) to enforce our Terms of Use or to protect the security or integrity of our Service; and/or (c) to exercise or protect the rights, property, or personal safety of SportsEngine, our Users, or others.

We may also aggregate or otherwise strip data of all personally identifying characteristics and may share that aggregated, anonymized data with third parties.

YOUR CHOICES ABOUT YOUR INFORMATION

You control your account information and communications preferences: You may update your account information and communication preferences at any time by logging into your account and changing your account settings. You can also stop receiving promotional email communications from us by clicking on the "unsubscribe link" provided in such communications. We make every effort to promptly process all unsubscribe requests. As noted above, you may not opt out of Service-related communications (e.g., account verification, purchase and billing confirmations and reminders, changes/updates to features of

the Service, technical and security notices). If you have any questions about reviewing or modifying your account information, you can contact us directly at privacy@sportsengine.com

Privacy Settings: Subject to your profile and privacy settings, any information that you make public is searchable by other Users and may be accessible via API(s) and viewable on search engines. You may be able to restrict some of this public sharing by visiting your privacy settings on the Service or by limiting the type of data in your profile. Changing your privacy settings will not have any effect on information that was previously shared through the Service. Remember that even if you remove information that you posted to the Service, copies may remain viewable in cached and archived pages of the Service, or if other Users have copied or saved that information.

How long we keep your Information: Following termination or deactivation of your User account, SportsEngine may retain your profile information for a commercially reasonable time for backup, archival, or audit purposes. Please contact us at privacy@sportsengine.com if you wish to delete your account. Please be aware that we will not be able to delete any content you have shared with others on the Service or with social media sites. Please also be aware that we may be able to delete data that you provided to the Service, but we may not be able to delete data about you that was provided by another user or by an Organization (for example, if an Organization lists your name and player statistics on a team roster, that will not be deleted). If you are an Organization, we are not able to delete information you provided about other users, such as statistics or records, once that information has been shared with other users on the Service.

HOW WE STORE AND PROTECT YOUR INFORMATION

Storage and Processing: Your information collected through the Service may be stored and processed in the United States or any other country in which SportsEngine or its subsidiaries, affiliates or service providers maintain facilities. If you are located in the European Union or other regions with laws governing data collection and use that may differ from U.S. law, please note that we may transfer information, including personal information, to a country and jurisdiction that does not have the same data protection laws as your jurisdiction, and you consent to the transfer of information to the U.S. or any other country in which SportsEngine or its parent, subsidiaries, affiliates or service providers maintain facilities and the use and disclosure of information about you as described in this Privacy Policy.

Keeping your information safe: SportsEngine cares about the security of your information, and uses commercially reasonable physical, administrative, and technological safeguards to preserve the integrity and security of all information collected through the Service. However, no security system is impenetrable and we cannot guarantee the security of our systems 100%. In the event that any information under our control is compromised as a result of a breach of security, SportsEngine will take reasonable steps to investigate the situation and where appropriate, notify those individuals whose

information may have been compromised and take other steps, in accordance with any applicable laws and regulations.

CHILDREN'S PRIVACY

SportsEngine does not knowingly collect or solicit any information from anyone under the age of 13 or knowingly allow such persons to register as Users. While SportsEngine may collect certain information about children under 13 that a parent or Organization provides to our Service, the Service and its content are not directed at children under the age of 13. In the event that we learn that we have collected personal information from a child under age 13, we will delete that information as quickly as possible. If you believe that we might have any information from a child under 13, please contact us at privacy@sportsengine.com

LINKS TO OTHER WEB SITES AND SERVICES

Our Service may integrate with or contains links to other third party sites and services. We are not responsible for the practices employed by third party websites or services embedded in, linked to, or linked from the Service and your interactions with any third-party website or service are subject to that third party's own rules and policies. In addition, you agree that we are not responsible for and we do not have any control over any third-parties that you authorize to access your information, including the Organizations you interact with on our Service.

HOW TO CONTACT US

If you have any questions about this Privacy Policy or the Service, please contact us at privacy@sportsengine.com

INFORMATION SECURITY

SportsEngine is committed to privacy and security. SportsEngine is compliant with the Payment Card Industry Data Security Standard ("PCI DSS") as a Level 1 service provider. PCI DSS is the bankcard industry's most stringent security standard. SportsEngine will maintain all applicable PCI DSS requirements to the extent that SportsEngine handles, has access to, or otherwise stores, processes, or transmits customer cardholder data or sensitive authentication data, or manages the customer's cardholder data environment on behalf of a customer. Examples of SportsEngine's security measures include: physical, electronic, and procedural safeguards; sophisticated security monitoring tools; documented security policies; use of strong encryption for transmissions of Order Information to and from SportsEngine Customers; restricting access to personally identifiable information; and, periodic security audits by third party security experts.

CHANGES TO OUR PRIVACY POLICY

SportsEngine may modify or update this Privacy Policy from time to time to reflect the changes in our business and practices, and so you should review this page periodically. When we change the policy in a material manner we will let you know and update the 'last modified' date at the bottom of this page.

<p>1914 translation by H. Rackham </p>

<p>"But I must explain to you how all this mistaken idea of
denouncing pleasure and praising pain was born and I will give you a complete account of the system,
and expound the actual teachings of the great explorer of the truth, the master-builder of human
happiness. No one rejects, dislikes, or avoids pleasure itself, because it is pleasure, but because those
who do not know how to pursue pleasure rationally encounter consequences that are extremely painful.
Nor again is there anyone who loves or pursues or desires to obtain pain of itself, because it is pain, but
because occasionally circumstances occur in which toil and pain can procure him some great pleasure.
To take a trivial example, which of us ever undertakes laborious physical exercise, except to obtain some
advantage from it? But who has any right to find fault with a man who chooses to enjoy a pleasure that
has no annoying consequences, or one who avoids a pain that produces no resultant pleasure?"
</p>

<p>Section 1.10.33 of "de Finibus Bonorum et
Malorum";, written by Cicero in 45 BC</p>

<p>"At vero eos et accusamus et iusto odio dignissimos ducimus qui blanditiis praesentium voluptatum deleniti atque corrupti quos dolores et quas molestias excepturi sint occaecati cupiditate non provident, similique sunt in culpa qui officia deserunt mollitia animi, id est laborum et dolorum fuga. Et harum quidem rerum facilis est et expedita distinctio. Nam libero tempore, cum soluta nobis est eligendi optio cumque nihil impedit quo minus id quod maxime placeat facere possimus, omnis voluptas assumenda est, omnis dolor repellendus. Temporibus autem quibusdam et aut officiis debitis aut rerum necessitatibus saepe eveniet ut et voluptates repudiandae sint et molestiae non recusandae. Itaque earum rerum hic tenetur a sapiente delectus, ut aut reiciendis voluptatibus maiores alias consequatur aut perferendis doloribus asperiores repellat." 1914 translation by H. Rackham "On the other hand, we denounce with righteous indignation and dislike men who are so beguiled and demoralized by the charms of pleasure of the moment, so blinded by desire, that they cannot foresee the pain and trouble that are bound to ensue; and equal blame belongs to those who fail in their duty through weakness of will, which is the same as saying through shrinking from toil and pain. These cases are perfectly simple and easy to distinguish. In a free hour, when our power of choice is untrammelled and when nothing prevents our being able to do what we like best, every pleasure is to be welcomed and every pain avoided. But in certain circumstances and owing to the claims of duty or the obligations of business it will frequently occur that pleasures have to be repudiated and annoyances accepted. The wise man therefore always holds in these matters to this principle of selection: he rejects pleasures to secure other greater pleasures, or else he endures pains to avoid worse pains."</p>

CHAPTER 5

CONCLUSION , FUTURE WORK AND REFERENCE

5.1 CONCLUSION

This project has really been faithful and informative. It has made us learn and understand the many concepts in HTML,CSS AND JAVASCRIPT.

5.2 FUTURE WORK

This project helps us in encouraging the youth towards sports. It even gives information about government policies, sports date, and news related to it.
