SCHOOL OF BIO AND CHEMICAL ENGINEERING

DEPARTMENT OF CHEMICAL ENGINEERING

The workshop on "Aspen Plus and its application in Chemical Industries" was organised by the Department of Chemical Engineering of the School of Bio & Chemical engineering of Sathyabama Institute of Science & Technology from 02.08.2021 to 06.08.2021 in association with Indian Institute of Chemical Engineers. Due to Covid restrictions, the workshop was conducted virtually through Zoom Platform. Login credentials were mailed to registered participants from both host institute and various colleges across the state. The workshop was conducted by Professionals from Ursago solutions. The workshop detailed about the basics of Aspen, Aspen Plus, flowsheets and simulation methods. This workshop enlightened students to the extent of information about the role of software used in process industries. The students were very cooperative during the whole session and their interaction was appreciated. Then, the workshop continued with an interactive Question and Answer session where the students posted got their doubts clarified by the speaker. This workshop was immensely useful for students as it gave an outlook on how to simulate processes in a chemical industry.
