CDSR is the leading resource for systematic reviews in health care. CDSR includes **Cochrane Reviews** (systematic) and protocol supplements. CDSR is updated regularly as cochrane reviews and published 'when ready' and form monthly issues.

Cochrane Reviews are prepared by author teams who register titles with one of the **Cochrane Review Group** . Each Cochrane Review Group focuses on specific topic area and is led by a co-ordinating editor (s) and an editorial team including a Managing Editor and trials Search Co-ordinator. The Cochrane Review Group provide authors with methodological and editorial support to Cochrane Reviews, and manage the editorial process,including peer review.

Health Information Specialist / Admin

- ❑ Department of Paediatric and Preventive Dentistry in association with cochrane Database of Systematic Reviews conducted a three day Protocol Development Workshop on Systematic Reviews on 4th, 5th, 6th July 2018.
- ❑ The timing of the Programme on all 3 days was from 8.45 a.m - 3.30 p.m. The Resource persons were Dr.Prathap tharyan, Mr.Richard Kirubakaran, Mr.Jabez Paul from Cochrane South Asia, CMC Vellore.
- ❑ We had various lectures on how to develop a protocol for writing synopsis and making a systematic review and meta analysis.
- ❑ We had about 37 participants comprising of faculty and PG students from our college and from Sree Balaji Dental College and Sree Ramachandra Dental College and Hospital.
- ❑ Our institution provided high tea and lunch on all three days. A registration kit with a jute folder, notebook, pen and certificates were given to all participants.

- ❑ We had an informal inaugural ceremony. Our vice-chancellor Dr.Sundar Manoharan and our Dean Dr. Thayumanavan felicitated our speakers with memento and certificate.
- ❑ During the ceremony, we had a release of 1st issue of our college news paper “Sathyabama Dental Imprints”.

AHEAD- beyond BDS

- ❑ Department of Paediatric and Preventive Dentistry - Sathyabama Dental College and Hospital organised a CDE programme "AHEAD" on 9th August 2018.
- ❑ In this competitive era, Students need proper guidance to achieve their dreams after completing the Undergraduate Course in Dentistry. "AHEAD" focused to provide enlightenment on future career options to the CRRIs from our College with more emphasis on NEET-MDS programme.
- ❑ Guest lecture was delivered by Dr. Vinodh Kumar.P, Director, Dental Pulse Academy.

- 2 We had about 70 participants and it was an active interactive session which cleared the queries of our future dentists.
- 2 Our Dean Dr. Thayumanavan felicitated Guest speaker and participation certificate were given to all the participants

About the Programme
The objective of this CDE programme is to provide the participants a glimpse into the world of evidence based caries management and help them understand the need to keep updating in this field.

This program is tailor made to provide the best available evidence in understanding

- * The caries disease process and its etiological drivers.
- * How to best detect and diagnose the carious lesions.
- * Practical recommendations on how to assess patients risk for the disease.
- * Non-invasive protocols for management of the disease process.

As predicted by Dr. Black in 1896, "the day has arrived when we can practice preventive, rather than restorative dentistry". It is upto the practitioners and educators to adopt and bring about the widespread use of risk based management of dental caries.

Sathyabama Dental College & Hospital conducted CDE program on "CURRENT UPDATES IN CARIOLOGY" on 12th April 2019.

The program was organised by the department of Conservative Dentistry & Endodontics in association with Indian Association of Conservative Dentist and Endodontist (IACDE) and Conservative Dentist and Endodontist Association of Tamil Nadu (CEAT).
As

predicted by GV Black in 1896, “The day will come, and maybe you will all live to see it, where we will practice preventive dentistry rather than reparative dentistry”, this programme was tailor made to provide the best understanding of

The caries disease process and its etiological drivers.

How to detect and diagnose the carious lesions.

Recommendations on how to assess patient’s risk for the disease.

Non-invasive and Minimally Invasive protocols for management of the disease.

The invited speakers were Dr Usha Sathyanarayanan and Dr. Krithika Dutta. Dr. Usha Sathyanarayanan is a passionate teacher, self- proclaimed cariologist and a motivated clinician, who has designed and executed caries risk assessment and comprehensive risk based management for the first time in Indi. Dr Krithika Dutta is a passionate researcher and her area of interest is cariology. She is a member of the European Organisation for Caries Research (ORCA) and is currently working as a Reader at Meenakshi Ammal Dental College, Chennai. The program attracted 172 participants, including interns, Post graduate students, teachers and private practitioners from across the state. The program was awarded 3 CDE Points by the Dental Council of India (DCI).
