What is a Startup?

"Startup is a company working on a problem where the solution is not obvious and where there is no precedent" - **Bill Gross (founder and CEO of Startup Factory)**

Startup is a company which is in the initial stage of its development for solving some of the existing business model and problems/looking for potential opportunities to get the foot on the ground.

Startup can evolve through various means. It can be through digital technology, Virtual Reality, Private Equity Investments, Government Support and others.

Setup	Layover
• Address the customer and give the solution	• Focus on providing the customer experience
• Develop the business model and get the foot on the ground	• In-house capacity take decision
• There are usually jobs of all kinds with some open positions	• People and Associates have clear roles & responsibilities
