ABOUT SATHYABAMA

Sathyabama Institute of Science and Technology (A Christian Minority Institution) formerly known as Sathyabama Engineering College was established in 1987 by Dr. Jeppiaar. It is a premier institute imparting knowledge in the areas of engineering, science, technology and education. The institution's progress and contribution to the field of technical education for over two decades resulted in granting Deemed University status on 16th July, 2001. The University has been awarded as Category "A" University by Ministry of Human Resources Development (MHRD), Government of India and accredited by NAAC with Grade "A" in the year 2017, certified with DNV-GL ISO 9001 standard and offering exemplary education from last 29 years.

The Sathyabama Institute of Science and Technology (Deemed to be University) offers 27 programmes at UG level and 41 programmes at PG level in all disciplines. We have excellent infrastructure facilities including modern laboratories, library with multimedia facilities, internet and other general amenities.

ABOUT DEPARTMENT OF BIOTECHNOLOGY

Department of Biotechnology is a paradigm of technical innovation under School of Bio and Chemical Engineering. The Departments share the mission and vision of the institution in imparting quality education to the students in order to develop the intellectual resources for sustainable growth and betterment of the society. The departments have well qualified fanatical and skilled faculty from diversified inter-disciplinary fields like Microbiology, Biochemistry, Biotechnology, Chemical Engineering, Bioinformatics, Immunology and Instrumentation. The departments have highly sophisticated state of art laboratories. Apart from fulfill the requirement of the syllabus by the University, the course also offers students to work with latest technology in the form of projects. It foster research and developmental activities in major thrust areas like Nanotechnology, Stem cell Research, Anticancer studies, Biodegradation, Secondary metabolites production, Drug design, Genomics, Molecular dynamics and simulation, high performance computing and systems biology. The department has undertaken various sponsored and collaboratives research and development projects funded by DST, DBT, IGCAR, and ISRO.
