

CERTIFICATE OF APPRECIATION

I am very much enthused to write to express my profound gratitude to Dr.K.Nagamani and her team of Sathyabama Institute of Science and Technology, Chennai. I am very much appreciated for inviting me to attend the workshop on Integrated Tribal Development Program scheduled on 04th May 2018 to 05th May 2018 at Kilakkadu Village, Kalrayan Hills, Villupuram district.

I would like to state that, all the arrangements made perfectly without any hitch of failure. They really exhibited a high sense of professionalism in careful selection of lectures and demos on Soil Suitability crops identification, Artificial Recharge structures identification and wasteland to be made productivity land etc., for the local community. Around 200 farmers were benefitted through this program. I appreciate their research accurate outcomes, which definitely leads the farmers to be profited their income and will make *them to sustain their livelihood permanent.*

On behalf of Horticulture Department, Villupuram district, I appreciate Dr.K.Nagamani for her stepping stone to develop their livelihood to be sustained. We assure to collaborate with her in future proposal and also, we recommend her to do the same research in depth for five remote villages **Eitchakadu, Aravankadu, Melathukuzi, kelathukuzi, karunampattu** of Kalrayan hills and we give her full support for her future research work in this area.
