KNOCKED OUT TOOTH?

1 Don't panic!!!

2 Search for tooth

3 Hold the tooth by the crown

4 Wash gently under running water (Don't rub)

5 Store tooth in milk/saliva

6 Visit dentist as soon as possible (minimum of 20 mins; maximum of 1 hour)

7 If visiting dentist takes more than an hour try to insert the tooth in socket by holding crown

8 If insertion is difficult keep the teeth in your cheek or MILK

FRACTURED TOOTH?

1 Examine your tooth for visible damage. Look for swelling or inflammation around the cracked tooth.

2 Save the broken piece of tooth if you have it.

3 Rinse your mouth with salt water. Swish the mixture around your mouth for 1 minute. Concentrate on the injured area. Repeat after meals.

4 Be careful when eating until you see your dentist. Hard foods could make the crack worse and cause pain.

5 Visit the dentist as early as possible.
