

Date : 23rd September 2021

To,

The Director,

Solar Decathlon India

Dear Sir,

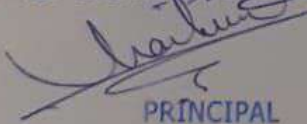

This is to inform you that our organization Chitrakoota School has provided information about our **Project Valise- On-site construction workers shelter project** to the participating team led by **Sathyabama Institute of science and Technology**, so that their team **Team Whorl** may use this information for their Solar Decathlon India 2020-21 Challenge entry.

As a Project Partner to this team for the Solar Decathlon India 2020-21 competition, we are interested in seeing the Net-Zero-Energy, Net-Zero-Water, resilient and affordable solution this student team proposes and the innovation that results from this. We intend to have a representative from our organization attend the Design Challenge Finals event in April, if this team is selected for the finals.

We would like our organization's logo to be displayed on the Solar Decathlon India website, recognizing us as one of the Project Partners for the 2020-21 Challenge.

With warm regards,

for CHITRAKOOTA SCHOOL
