Sathyabama Alumni Association

The Sathyabama Alumni Association was established by our Founder Chancellor Col. Dr. Jeppiaar in the year of 1993. Currently in its 21st year, it continues to foster meaningful relationships between Sathyabama alumni and the present Sathyabamites. The connections made in this program help prepare our students for a successful future and deliver a lasting impact on our campus community. One of the main purposes of alumni associations is to support a network of former graduates who will in turn help to enhance the profile of the university. Similar to the other student organizations in the University, alumni association aims to bring together like-minded individuals.

Registration Certificate:

Form No. II
(See Rule 8 Of the TamilNadu Societies Registration Rules, 1978)

Signature of the Registrar

The following activities are planned annually and have been successfully executed.

Alumni Student Mentorship Program

Alumni Student Mentorship Program (ASMP), a flagship initiative of Alumni Association Cell that aims at creating a platform to foster meaningful mentoring relationships between alumni and the final year students. A mentoring program promotes a collaborative learning environment in which students can get the opportunity to interact with professionals and learn more about the knowledge and skills needed at work. ASMP achieves this objective by bringing together alumni mentors - student mentees, and conducts various academic events to enrich their mentoring experience. Mentorship can also help students to move through their career discovery process. We invite alumni from around the world to be part of the ASMP.

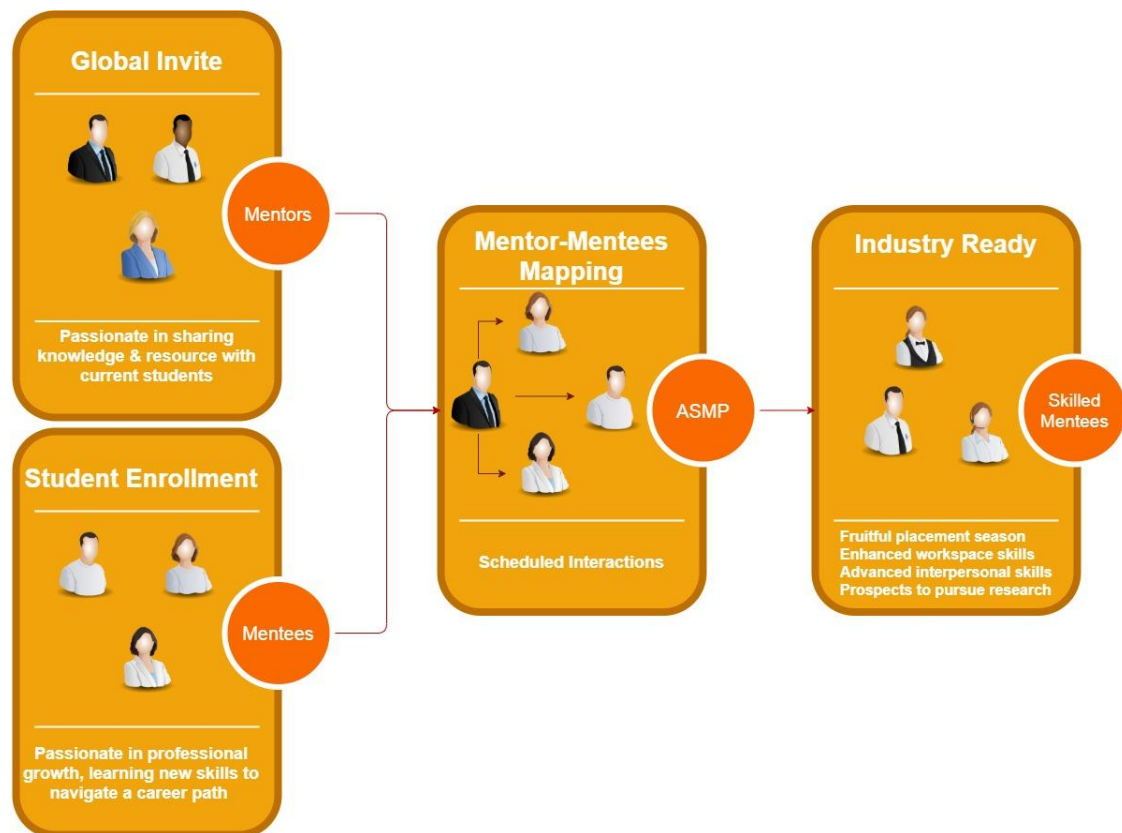

Figure: Overall Process

ASMP in various domains:

1. Core Engineering
2. Projects/ Research Ideas
3. Industry Readiness
4. Recent Technology

The program aims to:

1. Create a learning culture
2. Promote personal and professional development
3. Reduce the cost of learning
4. Decrease stress and anxiety

Post the Mentor-Mentee mapping (a maximum of 4 to 5 mentees per mentor), a forum for personal interaction and a platform to kick-start the program are arranged. Interactions are scheduled as once-a-month phone call, in-person meeting, email conversations and WhatsApp. Through the ASMP student visits to the mentor's work place is also arranged, giving an opportunity to the mentees a peek into corporate exposure.

A maximum of 5 mentees were mapped to one mentor and the ASMP was conducted online for a period of 45 days.

Alumni Lecture Series

Sathyabama Alumni Lecture Series invites eminent alumni to share their work and wisdom with the student's community. This series seeks to continue building relationships between alumni, current students and faculty, fostering professional networks to help students be aware of the transition in recent technologies both theoretically and practically on the regular basics.

These Lecture Series is a sequence of lectures and talks featuring Sathyabama alumni as speakers, who excel in various fields like Technology, Engineering, Management and Entrepreneurs as well. The thought-provoking discussions on recent breakthroughs and discoveries offer alumni and students a chance to share ideas and guidance.

Mock Interview/Group Discussion

The Mock Interview (MI) by the alumni is an excellent initiative to help with the placement preparation of the final year students. Interested alumni dedicate their time and expertise to hone the professional skill set of their fellow juniors. Mock interviews are conducted during the 6th semester in the university premises simulating the real time experience on industrial expectations. It is purely a voluntary program which seeks to strengthen the Alumni Association network and enhance the learning experience of the participants.

Such interview focuses on the following areas

1. Interview preparation
2. Dos and Don'ts in an interview.
3. Efficient Resume writing

4. Updates on Technology trending in industry
5. Ease out on the interview fear

The performance of each student is recorded through an evaluation form with tips on improvement in the specific areas. This form is returned to the respective student to help them analyze the given feedback and take the required corrective action.

S. No.	# of Students Benefitted	# of Alumni participated	Mock Interview Dates
1	1858	194	28.08.21- 03.09.21

Mock interview will be supported by our Alumni to provide industry level exposure to the current students. One alumnus will be mapped to a maximum of four students. The mock interview was conducted virtually on two dates and few of the Alumni had registered to support the interview on both days. Similarly some students expressed interest to attend the mock interview more than once and the required arrangements were made.

Freshers' Induction Program

Transition from school to university life is a challenging event for a student. To welcome the new students and prepare them for their new role, alumni are invited and to take part in the induction/ orientation program. The interaction with alumni during the program helps the students feel comfortable with the rules and regulations of university. Alumni can share their experience about the campus life, technology demands and other exposures to the fresher's perspectives.

The goal of the Fresher's Induction Program is to enrich all fields of knowledge, inculcate sense of responsibility and thereby help both teachers and students settle with a smooth pace of fruitful teaching-learning experiences.

Amidst the pandemic in 2020-21, Sathyabama's Fresher Induction Program was designed to welcome new students into college life and prepare them for the new normal academic career, in a virtual way.

Role of Alumni in the Fresher's Induction Program

- Inspirational speech on their academic journey
- Current Industry expectations
- Motivational Talks

Let's get together to reminisce old times!

Poster of Virtual Alumni Meet 2022

Mr. Edward Chavan (1992 CSE) President of Peozzle Corp gave a talk on “ 1000 Sathyabama Startups” as part of the virtual event.

Eminent Alumni Mr. Vishal Arjun (2008-EEE), MRTS Ministry of Railways spoke on the topic “Engineering as a Toll for Social Change”.

Mr. Rohan Krishan (2004-2008) founder of Edsanta gave a heartfelt Vote of Thanks.

Alumni Talk Series 2022

Our Alumni contributed to the academic and soft skills development of the current students through delivering a series of virtual lectures in the academic year 2021-2022. Here is the snapshot of Guest Lectures.

As part of the Alumni Talk series, the school of Management Studies organized a mega talk series where seven of our alumni, Mr. Dharshan Mahadevan, Mr George Varghese. Mr Arun L, Mr Muthu Kumar, Mr Antony Willuiam Truman, Ms Pallavi and Ms Sandhiya Sree delivered lectures on the topic Enrichment of Employability Skills-A pathway of new India. The mega talk series was held over a period of days between 24.09.21-08.10.21.
