7.1.1 – Specific Facilities provided to women

a) Safety and Security

At the Sathyabama campus, the most concerned importance is given to the safety and security of female students and women employees both staying in-house and day scholars. The campus is featured with round-the-clock security with 36 Security personnel guarding the entire campus area. We have 5 ladies hostels for which exclusively 5 securities are allotted both in day and night shifts. One lady security is put on duty during night-time who will be attending girls seeking for medical facility at Sathyabama general hospital during night time and she will be handling any emergency call from ladies hostels during night. One senior security Officer (SO) and two assistant security officers (ASO) s) direct the team of 36 Security personnel. The security personnel are appointed from a Chennai based security service agency.

Electronic surveillance is being carried out through **CCTV cameras located at all the strategic locations in the campus**. CCTV control room is functioning at network administration cell. The complete CCTV footage is monitored lively at the security gate and also by higher officials from their respective offices in order to ensure the general safety and women safety in the campus. **Biometric devices are available for faculty accessible near** all the departments. Entry and exit of all the other employees are registered by office staff. This surveillance helps in monitoring entry and exit timings of students from hostels and in maintaining a ragging-free campus.

In all the five ladies hostels, a **biometry** security feature is incorporated with the help of a **facial recognition** system that monitors, and authenticates the entry of registered in house students and is also used for keeping track of everyday attendance. Students going for outing should return to hostel by 6.30 P.M. Fire extinguishers and first aid boxes are kept at all the necessary locations in girl's hostel.

Entry and Movement Registers at Girls Hostel

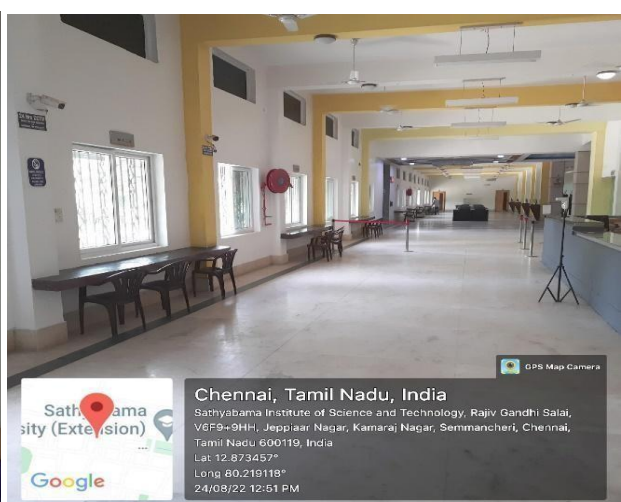

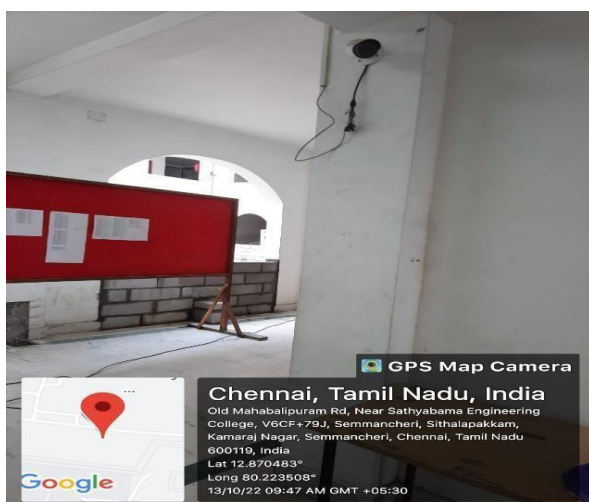

Girl students from the hostel are permitted to leave the campus only by getting permission from their parents over phone to the hostel warden. The date and time of leaving and entering the campus is recorded in their entry card. Outsiders are not allowed to access girls hostel rooms.

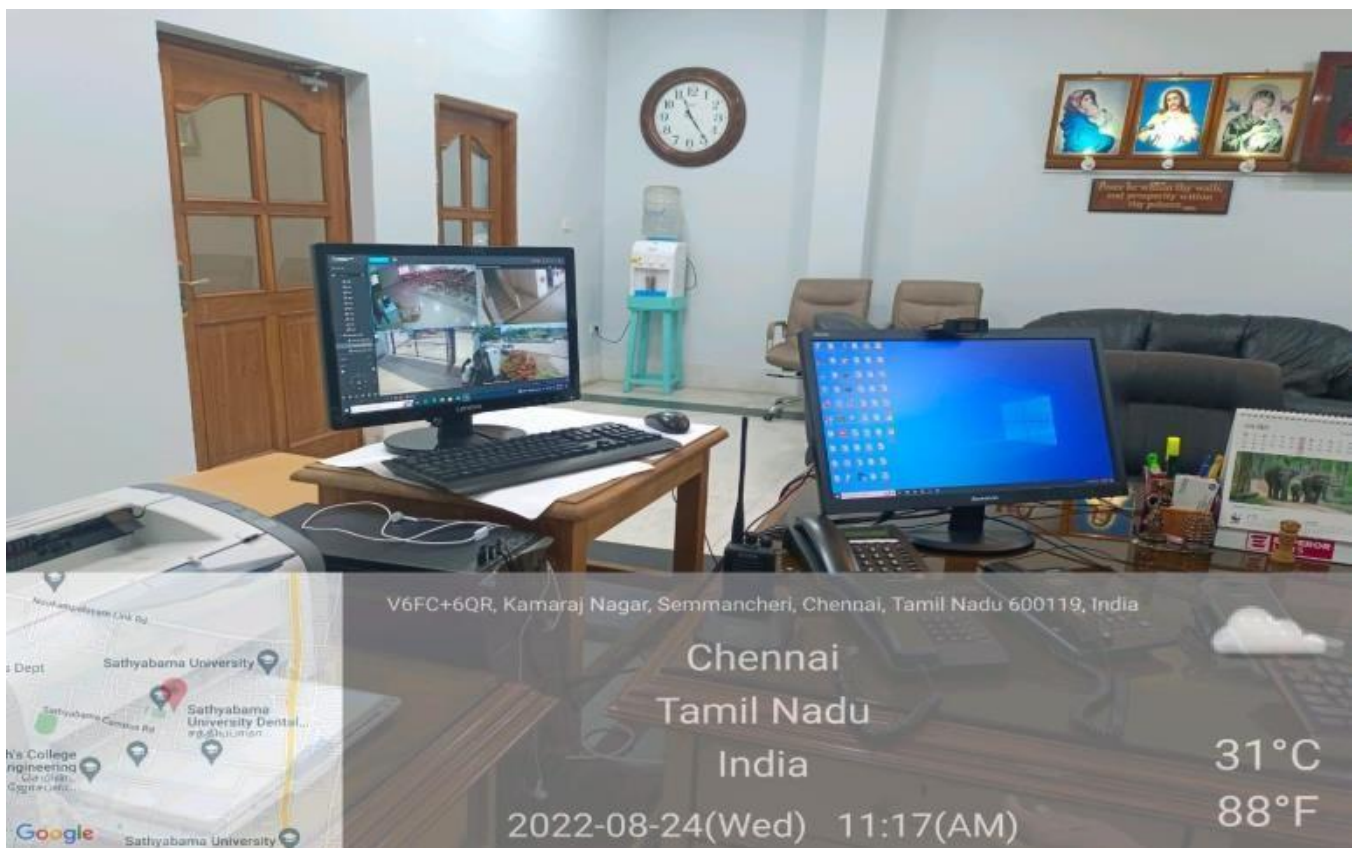

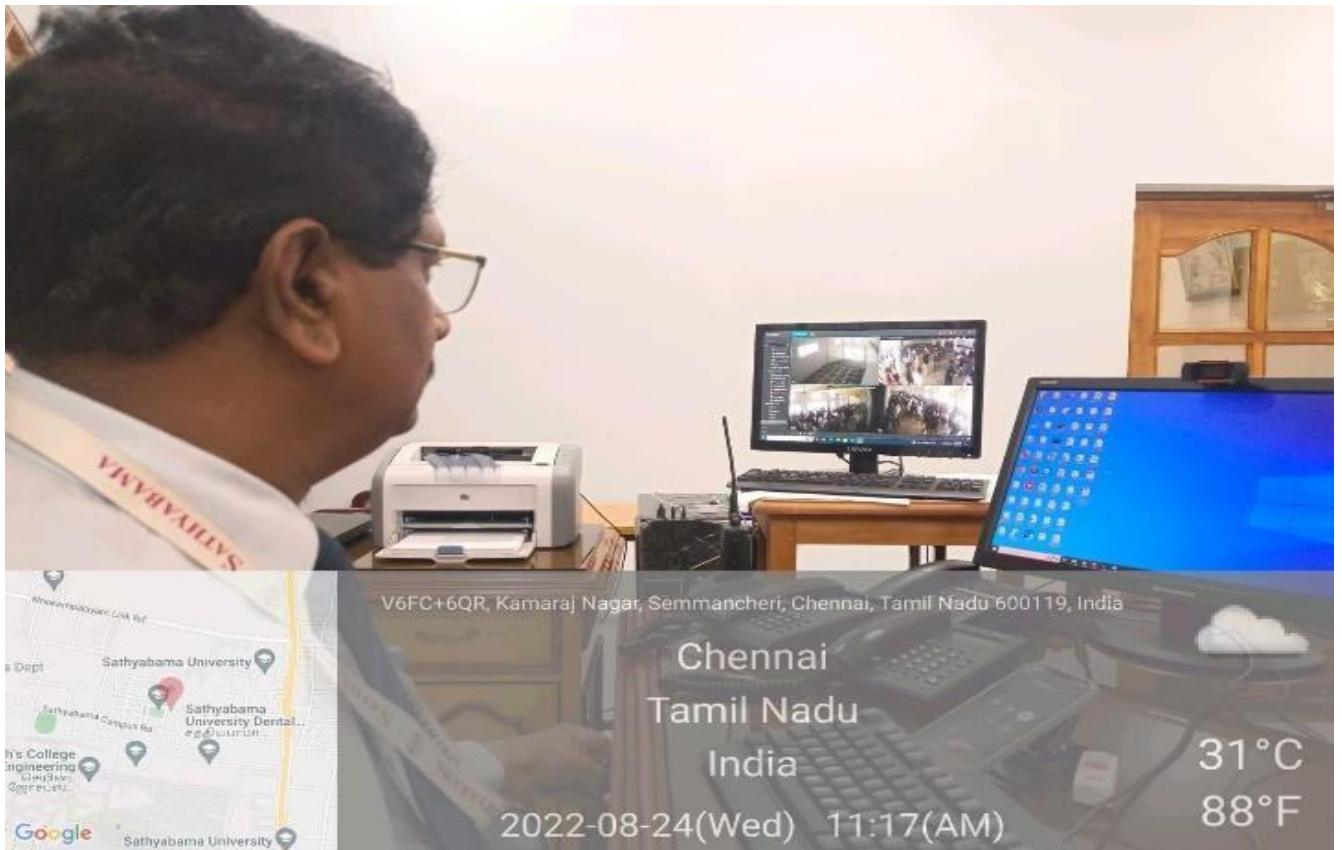

Security check is mandatory for persons and vehicles from outside at all the entry and exit points. Outside vehicle numbers are noted at the entry security gate. Speed limit for vehicles inside campus premises is restricted to 20 kmph.

In **Engineering laboratories**, wearing proper lab coats and shoes are mandatory to ensure safety from electrical shocks. All the laboratories have multiple exits in case of emergency. **Fire extinguishers** and **First aid boxes** are available in all the laboratories and at other strategic locations. The Safety standards for construction of buildings and fire safety standards are strictly followed as per Government directives.

b) COUNSELLING CENTRE - STUDENT COUNSELING AND PSYCHOLOGICAL SUPPORT CENTRE

This Centre has been constituted by the Institution to provide an environment with holistic approach for students to abbreviate their distress, enhance wellness, and unleash their fullest potentials and to be consistent in their aspirations and in achieving them with a plan of action. Counselling services are offered to Students and Staff by this centre in a confidential manner. The following Services offered:

- Personal Counselling sessions for students, parents, teaching and non-teaching staff
- Class room level orientation on self-development aspects
- Guest lecturer / Group discussions / Workshops on Mental Health Management
- Training Programs on “Effective Teaching – Learning Process” for teaching faculty

Highly trained therapists are available to provide advice and support to students with learning disabilities and help them to deal with their problems, Students are provided with Directive Counselling, Non-Directive Counselling and Eclectic Counselling based on their needs. Counsellors are appointed to support and mentor students with learning disabilities. Special care is taken to support students with learning disabilities like dyslexia, dysgraphia and autism

c) Girls Common Room

The girl students have common room facilities near all the girls hostels. Common rooms are provided with adequately furnishings and sanitary fittings.

d) Day Care Centre - Mother Teresa Child Care Centre

The Mother Theresa Day Care Centre is considered a boon by the employees of Sathyabama Institute of Science and Technology and this measure to enable independent and stress free work environment is lauded as the best initiative of women empowerment.

The Day care center has wide rooms for playing and 3 special rooms for sleeping for the kids. The entire area is plastered with 3 feet of rubber walls to ensure the safety of the little children. Presently provisions have been provided to cater to the children from the age of 6 months to 3.5 years of age. Special kitchen for preparing food for the children and equipped toilets with clean and hygienic usage are the highlights.

A Trained Montessori teacher is appointed to enable education in grooming such as manners at home, manners in public, table manners and toilet habits. Developmental concepts of numbers, time, colours, forms, words and creativity are designed to be implemented for the required children. Colourful toys and several educative blocks to develop motor and cognitive skills of the children are provided and the children are taught according to their choices and likes.

The centre was inaugurated on the 18th of March 2013 and the parents are overwhelmed with the safe and convenient atmosphere and learning environment provided beyond comparison well within their reach. Club activities to facilitate activity- based fun learning are being devised for children aged above 5 years.
