One Student One Tree Campaign

One student one tree campaign has been organized as part of UHV activities on 23rd August 2021 and many students have actively participated in this campaign.

PLANT TREE BLOOM HOPE

Swatch Bharath : Clean Surroundings Campaign

‘Swatch bharath : clean surrounding’ campaign has been organized on 12th June 2021 and many students have actively participated in this campaign

More than 100 teaching faculty have participated, successfully completed the Part 1 of the online UHV Refresher I FDP organized by All India Council for Technical Education (AICTE) and and certified for attending the same. The Course is offered as a three credit course to all the Engineering Programmes. The human Value education enables the students to understand their needs and visualize their goals correctly and also indicate the direction for their fulfilment. It also helps remove the confusions and contradictions and enables them to rightly utilize the technological innovations.

Methodology:

- A self-reflective methodology of teaching is adopted. It facilitates understanding through self-exploration. The dialogue starts between the faculty and the student.
- It opens the space for the student to explore his/her role (value) in all aspects of living – as an individual, as a member of a family, as a part of the society and as a unit in nature
- Through this process of self-exploration, students are able to discover the values intrinsic in them.

This facilitates the following:

- Help the students to see the need for developing a holistic perspective of life.
- Sensitize the student about the scope of life – individual, family, society and nature/existence.
- Strengthening self-reflection.
- To develop more confidence and commitment to understand, learn and act accordingly.
