COVID-19 POLICY

Sathyabama Institute of Science and Technology is an educational institution which practices risk management strategies efficiently. We have always been very proactive in adapting to the changes across the globe. Post Covid-19 Sathyabama has done an interim shift of its priorities and operations to deal with the 'new normal' efficiently.

As there is a surge of COVID 19 cases all across the country, the institution has decided to limit or restrict the non-essential visitors to the campus. The institution is happy to welcome visitors to the campus for academic and social collaborations after the health situation in the public improves.

This document serves as a guide to various stakeholders of the Institute to discern the measures taken by our Institution to surpass the effects of COVID-19. The aim is not to completely eliminate all risks, but to act proactively to ensure safety of both employees and visitors of the institution.

The following are the various protocols and guidelines devised to ensure safety of both employees and visitors.

Visitor Protocols

- Face masks – Face masks are mandatory for all at all times indoors or outdoors, regardless of their personal vaccination status.
- Vaccination – All visitors are suggested to present their full vaccination status or produce negative result for RT-PCR test done in the last 72 hours.
- Visitors who are minors are strictly restricted inside the campus owing to concern on their health condition.
- Temperature assessment in the entry gate is mandatory for visitors. Entry to Visitors whose temperature is more than 37.5C is summarily rejected.
- Only Visitors groups of 2-4 members are allowed any given point of time. Any group of more than 4 members are strictly not allowed visit at the same time.
- The visitors are instructed to strictly follow physical distancing, by staying at least 3 feet away from others.

- Use of sanitizers kept at entries and exits of all departments and office spaces should be utilized.

Faculty/Student Protocols

- Vaccination – It is mandatory for all staff, students and faculty visiting the university to be vaccinated against COVID 19.
- Use of hand sanitizers kept at all block entries and check points should be utilized effectively.
- Usage of mask is mandatory for all at all times indoors or outdoors, regardless of their personal vaccination status.
- Temperature checks are mandated for all students and staff of the Institution. Any faculty or student who records more than 37.5C is strictly not allowed into the workplace.
- In case of necessity the patient is directed to the medical facility available in the campus for emergency care.
- Social distancing is made mandatory.
- Students and faculty are instructed to wash their hands after every use of washrooms and also before entering the laboratories.
- All faculty and students are required to have a self assessment on a daily basis and intimate the departments in case of change in health status.
- Students and faculty are not allowed to crowd around at any places inside the campus.

Planning of working hours

The working hours have to be planned to accommodate smaller size of student groups at different slots.

Additional Infrastructure

- During physical mode the total strength of students accommodated in any classroom is restricted to 30.
- The number of students who utilize laboratories at any given point of time is reduced to 25 to impart social distancing.
